restated 77 cents per share during the same period last year. The company on March 8, 2002 said it expected a range of from 40 to 45 cents per share.

Williams reported first-quarter 2002 net income of \$107.7 million, compared with \$199.2 million for the same period a year ago. Income from continuing operations includes a \$232 million pre-tax charge to reduce the carrying value of certain receivables from Williams Communications Group, Inc. (WCGRQ). The first-quarter 2002 loss from discontinued operations of \$15.5 million represents the after-tax results of operations from and the loss on the sale of the Kern River pipeline, which was sold on March 27. The first-quarter of 2001 loss from discontinued operations includes both Kern River and WCGRQ.

Earnings on a diluted basis for the first quarter of 2002 were 7 cents per share, which includes the effect of a 13 cent-per-share, non-cash reduction from the accounting for a beneficial conversion feature included in a preferred stock offering that was completed during the first quarter. This compares with 41 cents per share for the first quarter of 2001. A reconciliation of income from continuing operations to recurring earnings, an unaudited consolidated statement of income and related notes for the first quarter of 2002 are included within Exhibit 99.1.
