PART III - NARRATIVE

State below in reasonable detail the reasons why Forms 10-K, 20-F, 11-K, 10-Q, N-SAR, or the transition report or portion thereof, could not be filed within the prescribed time period.

As previously announced, Fleming Companies, Inc. (the "Company") will file its Annual Report on Form 10-K for the fiscal year ended December 28, 2002 (the "2002 Form 10-K") on a delayed basis in order to permit the Company to properly assess and account for the significant business issues and developments affecting the Company, including the events leading to the Company's and its United States subsidiaries' voluntary Chapter 11 bankruptcy filings on April 1, 2003, the on-going investigation by the Securities and Exchange Commission (the "SEC") into certain of the Company's accounting and disclosure practices, and the continuing independent investigation of such issues by the Company's Audit and Compliance Committee. As previously announced, the Company has not determined the date by which it will file its 2002 Form 10-K.

For these same reasons, the Company will file its Quarterly Report on Form 10-Q for its first quarter ended April 19, 2003 (the "First Quarter Form 10-Q") on a delayed basis. The Company is unable to determine the date by which it will file its First Quarter Form 10-Q.

As previously announced, the Company will restate its 2001 annual and quarterly financial statements and 2002 quarterly financial statements previously filed with the SEC and will revise its previously announced 2002 fourth quarter and annual financial results in order to reflect the above-referenced business issues and developments as well as adjustments and corrections identified in connection with the continuing independent investigation by the Company's Audit and Compliance Committee.

As previously announced, although the findings from the independent investigation by the Audit and Compliance Committee have not been finalized, the Company expects the related restatements of the results for the full-year 2001 and the first three quarters of 2002 will reduce

the pre-tax financial results from continuing operations for such periods by an aggregate amount of not more than \$85 million. Those restatements will principally correct the timing of when certain vendor transactions were recognized and the balance of certain reserve accounts and will reflect other adjustments and corrections identified as a result of the Audit and Compliance Committee's on-going independent investigation.

As previously announced, the Company will also revise its 2002 fourth quarter and annual financial results to reflect a loss from continuing operations. In accordance with SFAS 142, the Company expects to record a non-cash adjustment to continuing operations for a full impairment of goodwill currently valued at approximately \$645 million, due to an overall decrease in the value of the Company. In accordance with SFAS 144, the Company will also record an additional impairment charge to discontinued operations of approximately \$90 million related to retail store operations held for sale, due to a reduction in the net

realizable value of such operations. In accordance with SFAS 109, the Company has also determined that it will record a non-cash charge against continuing operations in the fourth quarter of 2002 relating to its deferred tax assets in the range of \$275-325 million, due to uncertainties as to whether net operating losses will be utilized against future tax payments. The Company also expects that its fourth quarter 2002 pre-tax loss from continuing operations will be increased by expenses totaling not more than \$80 million as a result of a number of factors, including increased vendor payback rates, the cancellation of the Company's long-term supply contract with Kmart and other adjustments and corrections identified as a result of the Audit and Compliance Committee's on-going independent investigation.

As previously announced, the Company will early adopt EITF 02-16, Accounting by a Reseller for Cash Consideration Received from a Vendor, retroactive to the beginning of fiscal year 2002. This new accounting rule requires cash consideration received from a vendor to be recorded as an adjustment to the prices for the vendor's products and therefore characterized as a reduction of cost of sales when recognized in the customer's income statement. The 2002 effect of adopting EITF 02-16 is expected to reduce the pre-tax loss from 2002 annual results in the range of \$5-15 million, although the cumulative effect that will be recorded as of the beginning of 2002 is expected to be an expense of not more than \$45 million.

In order to reflect additional adjustments and corrections resulting from the Audit and Compliance Committee's on-going independent investigation, the Company is announcing today that it will also restate its 2000 annual financial statements previously filed with the SEC. Although the findings from the independent investigation by the Audit and Compliance Committee have not been finalized, the Company expects that the related restatements of the results for the full-year 2000 will adjust consolidated pre-tax financial results for such period by an aggregate amount of not more than \$2 million, reflecting an increase in 2000 pre-tax loss from continuing operations of not more than \$6 million and a decrease in 2000 pre-tax loss from discontinued operations of not more than \$4 million. Those restatements will principally correct the timing of when certain vendor transactions were recognized and will reflect other adjustments and corrections identified as a result of the Audit and Compliance Committee's on-going independent investigation.

Although the findings from the independent investigation by the Company's Audit and Compliance Committee have not been finalized, the Company believes that the ranges of

-3-

adjustments and corrections discussed herein in connection with the proposed 2000, 2001 and 2002 restatements and/or revisions will be adequate to address all identified issues.

The Company expects to finalize the details of the 2000, 2001 and 2002 restatements and/or revisions in connection with the filing of its 2002 Form 10-K. As previously announced, the Company has not determined the date by which it will file its 2002 Form 10-K.
