**PART III NARRATIVE**

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

Vicor Corporation (the Company) is unable to timely file a Quarterly Report on Form 10-Q for the quarter ended September 30, 2007 without unreasonable effort or expense. The principal reason for the delay in filing the Quarterly Report on Form 10-Q is because certain information for a related party investment was only recently received and the Company needs to complete its accounting related to its investment in the related party. During Q2 2007, the Company made an additional investment of \$1 million in the related party and agreed to a further investment of \$1 million if certain conditions are met. The additional investment made in Q2 2007 requires the Company to account for the investment in the related party under the equity method of accounting and to retroactively restate its previously issued consolidated financial statements to reflect the equity method of accounting in prior periods. Certain financial information for the years ended December 31, 2003, 2004, 2005 and 2006 for the related party has been recently received, but the Company needs to complete its review of this information in order to record the appropriate adjustments for the equity method of accounting in order to file the Quarterly Report on Form 10-Q for the quarter ended September 30, 2007 timely. In addition, the Company is performing additional valuation analyses to determine if any further adjustment in its investment is required due to other than temporary declines in value.

If answer is no, identify report(s).

Yes  No

- The Company's Quarterly Report on Form 10-Q for the fiscal quarter ended June 30, 2007.

- (3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes  No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

As discussed in Part III above, under equity method accounting, the Company is required to retroactively restate its previously issued consolidated financial statements. Accordingly, the Company expects that there will be changes in the results of operations from the corresponding period for the last fiscal year. The Company cannot make a reasonable estimate of the amount of the changes, though, until the Company has completed its review of the audited historical financial statements of GWS in order to record the appropriate adjustments for the equity method of accounting and has completed additional valuation analyses to determine if any further adjustments in its investment is required due to other than temporary declines in value.
