Item 11. *Executive Compensation*

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed with management the following Compensation Discussion and Analysis section of this Amendment No. 1 to the Company s Annual Report on Form 10-K. Based on its review and discussions with management, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Company s Annual Report on Form 10-K.

The Compensation Committee:

Mr. Frankenberg
Mr. Myers

COMPENSATION DISCUSSION & ANALYSIS

Role and Authority of Our Compensation Committee

The members of the Compensation Committee are Messrs. Frankenberg (Chair) and Myers. Each of whom qualifies as (i) an independent director under the requirements of the NASDAQ Stock Market, (ii) a non-employee director

under Rule 16b-3 of the Securities Exchange Act of 1934, and (iii) an outside director under Section 162(m) of the Code.

Our Board of Directors created the Compensation Committee to discharge the Board's responsibilities relating to compensation of the Company's executive officers. The Compensation Committee has overall responsibility for approving and evaluating the executive officer compensation plans, policies and programs of the Company. The

Table of Contents

mandate of the Compensation Committee is to review and recommend to the Board of Directors the Company's compensation and benefit policies, and oversee, evaluate and approve compensation plans, policies and programs for our executive officers.

The Compensation Committee has adopted a written charter approved by the Board of Directors, which is available on the Company's website at <http://www.nuance.com/company/governance/compensation.asp>.

The Compensation Committee's responsibilities are discussed in detail in the charter and include:

reviewing and approving for the Chief Executive Officer and the executive officers of the Company (a) the annual base salary, (b) the annual incentive bonus, including the specific goals and amount, (c) equity compensation, (d) employment agreements, severance arrangements, and change in control agreements/provisions, and (e) any other benefits, compensation or arrangements; and

making recommendations to the board with respect to incentive compensation plans.

The Compensation Committee establishes all elements of compensation paid to our Chief Executive Officer and reviews and approves all elements of compensation paid to our other executive officers, including all of the other executive officers named in the Summary Compensation Table (these executive officers together with the Chief Executive Officer are referred to herein as the "Named Executive Officers"). The Chief Executive Officer, in consultation with the Vice President of Human Resources and other members of our senior management, makes all decisions regarding the compensation of our other executive officers. The Compensation Committee also reviews the compensation of all non-employee directors and recommends changes, when appropriate, to the Board of Directors.

In carrying out its responsibilities, the Compensation Committee may engage outside consultants and/or consult with the Company's Human Resources department as the Compensation Committee determines to be appropriate. The Compensation Committee also may obtain advice and assistance from internal or external legal, accounting or other advisers selected by the Compensation Committee. The Compensation Committee may delegate any of its responsibilities to one or more subcommittees, to the extent permitted by applicable law. The Compensation Committee did not delegate any responsibilities to a subcommittee during fiscal 2007.

Compensation Philosophy

Our compensation philosophy is designed to promote the Company's business objectives on the principle that the Company's achievements result from the coordinated efforts of all employees working toward common strategic goals. Our success depends on achieving a level of performance that is focused on results that support the execution of our objectives as outlined in our operating plan. Our guiding compensation principles focus on:

aligning the interests of the Company's executives and employees with those of the Company's stockholders and customers;

linking executive and employee compensation to the Company's performance;

offering significant levels of at-risk compensation in the form of stock options and restricted stock awards so that the long-term reward available to the Company's executive officers will have a direct correlation to stockholder value; and

attracting, retaining and motivating the best employees.

We support a pay-for-performance philosophy by measuring performance and recognizing and rewarding employee contributions toward financial success. Our objective is to implement strategies for delivering compensation that are competitive with the overall software industry, provide sufficient emphasis on pay-for-performance and are appropriately aligned with the Company's financial goals and long-term stockholder returns.

Compensation Consultant

The Compensation Committee retained an independent consultant, Radford Surveys and Consulting, as its compensation consultant to assist the Compensation Committee with implementing the Company's total

Table of Contents

compensation program. Radford provides the Compensation Committee with research, comparative market data and advice to consider and evaluate when making compensation decisions.

Competitive Positioning

In order to determine the competitiveness of our overall compensation for executive officers, we review the compensation for comparable positions within our industry, the historical compensation levels of our executive officers and the individual performance of executive officers evaluated against their individual objectives established for the preceding year. The Compensation Committee believes the group of software companies it benchmarks provides an appropriate peer group because the Company competes for the same employee pool at the executive level and has similar market practices. The Compensation Committee uses data that it obtains from these companies through surveys, proxy statements and other public filings. In addition, this data is supplemented by survey data on the broader software and high technology markets provided by Radford Surveys and Consulting. The Compensation Committee annually reviews the companies in our peer group and makes changes as necessary to ensure that our peer group comparisons are appropriate. The following sixteen companies comprised our peer group for fiscal 2007:

Progress Software Corp.	NavTEQ Corp.	Checkfree Corp.
THQ Inc.	Kronos Inc.	Sybase Inc.
Tibco Software Inc.	Mentor Graphics	Cognos Inc.
Quest Software Inc.	Hyperion Solutions Corp.	Citrix Systems Inc.
Verifone Holdings Inc.	Parametric Technology Corp.	McAfee Inc.
NDS Group Plc		

The Compensation Committee targets base salaries at the 50th percentile for our peer group. The Compensation Committee has made the determination to place a greater emphasis on the at-risk-earnings to better align the interest of our executives with our stockholders. The Compensation Committee offers significant levels of at-risk compensation in the form of stock options and restricted stock awards that are directly tied to stockholder value. The Compensation Committee targets total direct compensation (comprised of base salary, annual cash incentives and equity-based compensation) to be heavily driven by company performance. At the target level of performance, total direct compensation is positioned between 50th and 75th percentile of our peer group, although actual compensation paid can be below the 50th percentile or above 75th percentile based on actual performance. To arrive at these percentiles for the base salaries, cash incentive targets and total direct compensation of our Named Executive Officers, the Compensation Committee considers corresponding percentile data gathered from proxy statements for the positions of the Named Executive Officers in relation to the Named Executive Officers of our peer group as well as the same data from published surveys for each position.

Elements of Executive Compensation

We have a performance-focused compensation philosophy that places emphasis on at-risk pay with a balanced focus between short-term and long-term strategic objectives. Consistent with this philosophy, a significant majority of the target total annual direct compensation available to our Named Executive Officers is variable depending on the Company's results. To achieve this we use equity-based compensation in the form of stock options, time based restricted stock units (TBR SU), performance based restricted stock units (PBR SU) and a performance-based annual bonus program that may be paid out in cash or stock (with or without additional vesting provisions) or a combination of both (Bonus Program). The performance measures we establish for the PBR SU grants and Bonus Program targets are designed to promote stockholder return, market, revenue and earnings growth. The Compensation Committee

consulted with its compensation consultant in deciding how to balance our long-term versus short-term incentives, and given the cyclical nature of the software industry, it has decided to establish performance goals based on financial targets and/or acquisition-related integration targets. Our performance measurement period for our Bonus Program and one sixth of the PBR SU grants was our 2007 fiscal year and was based upon financial targets for the Bonus Program and individual objectives for the PBR SU grants. PBR SU grants are classified as long-term incentives because they are stock based and vest only if the performance criteria have been achieved. The

Table of Contents

PBRSU grants span a three-year period with a percentage of the underlying shares covering three fiscal periods. The executives also have TBRSU grants that cliff vest three years from the date of grant with opportunities to accelerate fifty percent of the underlying shares for achievement of Company financial targets.

Our annual Bonus Program payments are based upon the achievement of Company financial targets approved by the Compensation Committee which are based on the Board-approved financial plan for the Company. For fiscal 2007, executives were entitled to receive one-hundred percent of their target bonus if the Company achieved non-GAAP revenue of \$602 million and non-GAAP earnings per share of \$0.52, however, the Compensation Committee has the discretion to approve bonus payments which are higher or lower than the target bonus amounts in the event the Company under or over achieves these targets. Accelerated vesting of fifty percent of the TBRSU grants issued to the Named Executive Officers was also based on the achievement of non-GAAP revenue of \$602 million and non-GAAP earnings per share of \$0.52. Vesting of PBRSU grants issued to the Named Executive Officers is based upon the achievement of confidential performance objectives established on an individual basis by the Compensation Committee. Individual performance objectives are approved by the Compensation Committee and include objectives related to financial performance, financial reporting, recruitment, strategic business objectives and acquisition-related integration goals.

Determination of Executive Officer Compensation

We review executive officer compensation annually to ensure that it is consistent with our compensation philosophies, company and individual performance, changes in the market and executives' individual responsibilities. Within the second quarter of our fiscal year we conduct a review of each executive officer, including the Chief Executive Officer. The Chief Executive Officer presents to the Compensation Committee his evaluation of each executive officer, which includes a review of the executive's contribution and performance during the past year (as compared to the goals we established at the beginning of the fiscal year for the executive as described in more detail below), strengths, weaknesses, development plans and succession potential. The Company's human resources group also assists in the reviews of the executive officers, all of whom report directly to the Chief Executive Officer. The reviews typically focus on the executive's performance in the past year. The Compensation Committee then makes its own assessments based on the Chief Executive Officer's presentation and, based on its assessments, approves each executive's company bonus award for the past year, including any discretionary elements to such awards, and the elements of each executive's total compensation, including performance-based compensation, for the following fiscal year, taking into account in each case the Chief Executive Officer's evaluation, the scope of the executive's responsibilities and experience and the Compensation Committee's own review of survey data provided by Radford Surveys and Consulting.

The Compensation Committee works with the Chief Executive Officer to define and establish his annual goals. In fiscal 2007, Mr. Ricci's goals were based on achievement of the non-GAAP revenue and earnings per share targets established by the Company's Board of Directors as part of the Company's fiscal 2007 operating plan. The Chief Executive Officer works in conjunction with the other Named Executive Officers to develop their goals, which are approved by the Compensation Committee. The Named Executive Officers' goals are designed to align with the Company and Chief Executive Officer goals. The fiscal 2007 goals for our Named Executive Officers varied based on their respective business functions and responsibilities; however, they generally included a mix of financial, operational, strategic and qualitative goals based on acquisition-related integration objectives, financial metrics and strategic initiatives. The Company and individual goals for our executives are established in a manner such that target attainment is not assured; meaning the executives' receipt of compensation for performance at or above target will require significant effort on their part.

In fiscal 2007, the compensation for the Named Executive Officers comprised the following elements, each of which is discussed in greater detail below:

Base salary;

Performance-Based Incentive Compensation;

Long-Term Equity Incentive Compensation;

8

Table of Contents

Retirement and other benefits;

Perquisites; and

Severance benefits.

Base Salary

Base salary reflects the executive's responsibilities, performance and expertise and is designed to be competitive with salary levels in effect at comparable high-technology companies. The base salary provides a basic level of compensation and is necessary to recruit and retain executives. The Compensation Committee establishes salaries on the data provided by its compensation consultant for software companies within our peer group. We generally tie the amount of short-term incentive compensation and severance benefits to an executive's base compensation.

Performance-Based Incentive Compensation

Our Bonus Program is primarily based upon the Company's achievement of pre-established financial goals for the fiscal year. With respect to Mr. Chambers, however, fifty percent of his bonus amount is based upon the Company's achievement of pre-established financial goals for the fiscal year and fifty percent is based upon the achievement of his sales incentive target. Annual bonuses may be paid in cash or restricted stock units, which may or may not have additional vesting requirements established by the Compensation Committee. The bonus program is designed to support our strategic business objectives, promote the attainment of specific financial goals, reward achievement of specific performance objectives, and encourage leadership and teamwork. The targets for payment of annual cash bonuses are based on the Company's confidential non-GAAP revenue and earnings per share targets for the applicable fiscal year. Minimum and maximum performance targets are established by the Compensation Committee and adjusted during the year, if appropriate, to reflect the impact of acquisitions. The amount of each executive's actual bonus is based on the extent to which the Company achieves or exceeds the targets. Each executive is assigned a participation level that generally reflects the executive's position and is expressed as a percentage of the executive's base salary. The participation levels for the Company's Named Executive Officers for fiscal 2007 (other than Mr. Hunt whose annual bonus is commission based), and the bonus amounts the Named Executive Officers were entitled to, are set forth below:

Name	Participation Level	Fiscal 2007 Bonus Amount(1)
Paul A. Ricci	100%	\$ 575,000
James R. Arnold, Jr.	50%	150,000
Steven G. Chambers(2)	25%	91,250
Jeanne F. McCann	50%	150,000

(1) In lieu of cash bonuses for fiscal 2007, the Compensation Committee approved the issuance of Restricted Stock Units having a value equal to the bonus amounts. The Restricted Stock Units vest on March 15, 2008.

(2) During fiscal 2007, Mr. Chambers participated in the Bonus Program with a participation percentage equal to twenty-five percent of his base salary. Mr. Chambers was also entitled to commission payments based on a sales incentive program pursuant to which he received an additional cash payment of \$80,002.

As noted above, fifty percent of the TBRSU grants issued to our executive officers are subject to accelerated vesting upon the achievement of fiscal 2007 Company financial targets established by the Compensation Committee, specifically non-GAAP revenue of \$602 million and non-GAAP earnings per share of \$0.52. The Compensation Committee determined that these financial objectives were achieved, accordingly, the vesting of fifty percent of the TBRSU grants was accelerated. In addition, as noted above, the vesting of PBRSU grants issued to the Named Executive Officers is based upon the achievement of confidential performance objectives established on an individual basis by the Compensation Committee. Individual performance objectives are approved by the Compensation Committee and include objectives related to financial performance, financial reporting, recruitment, strategic business objectives and acquisition-related integration goals. For fiscal 2007, all Named Executive

Officers, other than one, achieved their individual performance objectives resulting in the vesting of one sixth of their PBRSU grants.

Long Term Equity Incentive Compensation

We grant equity in the form of stock options and restricted stock units to provide long-term incentives for executive officers and other key employees. Vesting of these equity awards is designed to align the interests of our executive officers with those of the stockholders and to provide each individual with a significant incentive to manage the Company from the perspective of an owner and to remain employed by the Company.

The Compensation Committee determines equity award levels based on market data provided to the Compensation Committee by Radford Surveys and Consulting as well as the peer group study described above. Annual equity awards are granted based on the performance of the executive, the market data results and are typically granted in the form of performance-based grants, time-based grants and options. Any equity granted to employees as promotion or retention awards or to newly hired eligible employees are generally granted on the 15th or the last day of the month following the effective date of the promotion, retention or hire, or the first business day thereafter if such day is not a business day, with the exception of the issuance of inducement grants which are granted promptly following the closing of an acquisition or upon hiring of an employee. In the case of options, the exercise price of an option is the closing price of the Company's common stock on the NASDAQ Stock Market on the date of grant. All stock option grants to Named Executive Officers are granted with an exercise price equal to or above the fair market value of the underlying stock on the date of grant. The Compensation Committee does not grant equity compensation awards in anticipation of the release of material nonpublic information. Similarly, the Company does not time the release of material nonpublic information based on equity award grant dates.

We have made significant changes to our equity compensation program over the past several years to reduce its dilutive effects. In fiscal 2005, we introduced time-based restricted stock grants with accelerations for achievement of financial targets. In fiscal 2006, we moved to a combination of options, performance-based equity awards and time-based equity awards with a greater emphasis on pay-for-performance. The Compensation Committee believes these equity awards align the interests of the executive officers with the interests of stockholders and reduce dilution. The Compensation Committee also believes these changes increase our ability to retain executives by increasing their opportunity to receive full value equity awards pursuant to restricted stock units, which also help to decrease future exposure to underwater option issues.

Retirement and Other Benefits

We offer a 401(k) retirement plan, to provide our employees a tax-advantaged savings plan. We make matching contributions to the plan to encourage employees to save money for their retirement. The plan enhances our ability to attract and retain key employees because it increases the range of benefits we offer to them.

All of our U.S. employees are entitled to participate in the 401(k) plan. The Company matches fifty percent of the first four percent of eligible compensation that is contributed to the plan. Non-U.S. employees are covered under different retirement plans. The Company match paid to each of the Named Executive Officers is reflected in the All Other Compensation column in the Summary Compensation Table set forth below and detailed in the footnotes.

We have maintained the Nuance Communications, Inc. Employee Stock Purchase Plan, or the ESPP, since 1995. Eligible employees may elect to contribute between one and twelve percent of their annual cash compensation, on an after-tax basis, to purchase shares of our common stock; provided, however, that an employee may not purchase more than 2,000 shares per offering period, or \$25,000 of Company stock per year pursuant to Internal Revenue Service restrictions. We issue shares of our common stock under the ESPP in six month offering periods to eligible employees

at a price that is equal to eighty-five percent of the lower of the common stock's fair value at the beginning or the end of the offering period.

We offer an enhanced wellness program to our executive officers to maximize the health of our executive team. This benefit provides for an enhanced annual medical exam for each executive officer.

Our Named Executive Officers, other than Mr. Ricci, receive a \$500,000 term life insurance policy at the Company's expense which is in addition to the broad-based program that provides term life insurance for all

Table of Contents

employees in an amount up to the lesser of \$500,000 or two times the employee's base salary. Mr. Ricci receives a \$1,000,000 term life insurance policy at the Company's expense, in addition to the broad-based program described above. The cost of these policies, if applicable, is reflected in the All Other Compensation column in the Summary Compensation Table and detailed in the footnotes.

All of our employees based in the United States receive long-term disability benefits that provide for payment of sixty percent of their eligible earnings capped at a maximum of \$10,500 in disability benefits per month if they are deemed to be unable to work in their own occupation for a period of two years. Beyond the second year, if able, employees will be required to return to work to any position they are suited for based on education and training. We provide for an enhanced disability benefit to our Named Executive Officers that provides for a payment of sixty percent of their eligible earnings capped at a maximum of \$15,000 per month, with the exception of Mr. Ricci who is not subject to this maximum amount. In addition, the Named Executive Officers have an enhanced own occupation provision that provides for continuation of benefits beyond the two years if they cannot return to their own occupation. The expense associated with this enhanced benefit is reflected in the All Other Compensation column in the Summary Compensation Table and detailed in the footnotes.

We offer a variety of health and welfare programs to all eligible employees. Our Named Executive Officers generally are eligible for benefit programs on the same basis as the rest of our broad-based employees. The health and welfare programs are intended to encourage a healthy lifestyle and protect employees against catastrophic loss. Our health and welfare programs include medical, wellness, dental, vision, disability, life insurance and accidental death and dismemberment.

Perquisites

We provide Named Executive Officers with perquisites, including reimbursement for tax and financial planning services and a car allowance, which are reflected in the All Other Compensation column in the Summary Compensation Table and detailed in the footnotes. The Compensation Committee believes these perquisites are reasonable and consistent with the Company's overall compensation program, because they better enable the Company to attract and retain superior employees for its key positions. The Compensation Committee reviews and approves perquisites provided to the Named Executive Officers.

Executive Severance Policy

The Compensation Committee has entered in agreements, on behalf of the Company, with certain executive officers and the Chief Executive Officer which provide for certain benefits upon termination of employment. The Company has also adopted severance policies regarding these matters. The severance policy is designed to attract and retain executive officers and to provide replacement income if their employment is terminated because of an involuntary termination other than for cause. Vice Presidents who are designated as participants are eligible to participate in the policy, provided they agree to be bound by all of the restrictions, conditions and limitations under the policy, including a customary covenant not to compete against the Company in cases where such covenants are legally enforceable. The covenant not to compete restricts affected executives from competing against the Company during, and for twelve months after, the period of their employment or twenty-four months for Mr. Ricci. In addition, a participating executive must release the Company from any claims relating to the executive's employment and termination in order to receive severance benefits under the policy. The severance policy provides a lump-sum severance payment upon termination of employment by the Company other than for cause. Participating executives will receive varying amounts of severance in the form of base salary, bonus and other benefits. Details of these severances arrangements are listed under the Employment, Severance and Change in Control section.

Company Severance Plan

The Company has a standard employee severance benefit plan pursuant to which eligible employees are entitled to receive certain severance benefits in the event of a reduction-in-force.

Tax Considerations

Section 162(m) of the Internal Revenue Code imposes a \$1,000,000 limit on the deductibility of compensation paid to certain executive officers of public companies, unless the compensation meets certain requirements for performance-based compensation. In determining executive compensation, the Compensation Committee considers, among other factors, the possible tax consequences to the Company and to the executives. However, tax consequences, including but not limited to tax deductibility by the Company, are subject to many factors (such as changes in the tax laws and regulations or interpretations thereof and the timing and nature of various decisions by executives regarding options and other rights) that are beyond the Compensation Committee's and the Company's control. In addition, the Compensation Committee believes that it is important for it to retain maximum flexibility in designing compensation programs that meet its stated objectives. For these reasons, although the Compensation Committee considers tax deductibility as one of the factors in determining executive compensation, it does not necessarily limit compensation to those levels or types of compensation that will be deductible. The Compensation Committee will, of course, consider alternative forms of compensation consistent with our compensation goals, which preserve deductibility as much as possible.

Section 280G of the Internal Revenue Code of 1986

Section 280G of the Code disallows a Company's tax deduction for what are defined as excess parachute payments and Section 4999 of the Code imposes a twenty percent excise tax on any person who receives excess parachute payments. Under our employment agreement with Mr. Ricci, we will provide Mr. Ricci with tax gross-up payments in the event payments to Mr. Ricci are deemed to be parachute payments within the meaning of Section 280G of the Code, subject to a maximum amount of \$4,000,000. The Compensation Committee believes that the provision of tax gross-up protection to Mr. Ricci is appropriate and necessary for executive retention and consistent with the current practices of market competitors.

In the event that a portion of the payout would be classified as an excess parachute payment, in addition to the obligation to pay the gross-up payment, our tax deduction would be disallowed under Section 280G. Please refer to the discussion under Employment, Severance and Change in Control Agreements for more detail on Mr. Ricci's potential gross-up payment.

- (1) The Company's annual Bonus Program provides that annual bonuses may be paid in cash or shares of stock, which may or may not have additional vesting requirements, as determined by the Compensation Committee. The amounts reflected in this table as Threshold, Target and Maximum are estimated amounts and assume that each Named Executive Officer participating in the Company's annual Bonus Program would receive a payment based solely upon the percent by which the program is funded. The actual amount paid to each Named Executive Officer is determined based upon their performance during the fiscal year. For fiscal 2007, the Compensation Committee determined that each Named Executive Officer would receive their target amount and all amounts payable pursuant to the Bonus Program would be paid in the form of Restricted Stock Units which will vest on March 15, 2008. Details of the actual amounts earned by the Named Executive Officers and the restricted stock grants are set forth in the footnotes to the Summary Compensation Table above.
- (2) Reflects the grant date fair value of each target equity award computed in accordance with FAS 123(R). The assumptions used in the valuation of these awards are set forth in Note 16 to the Company's consolidated financial statements as filed with the Securities and Exchange Commission on Form 10-K on November 29, 2007. These amounts do not correspond to the actual value that will be recognized by the named executive officers.
- (3) These grants vest on the third anniversary from date of grant with opportunities for acceleration for the achievement of fiscal 2007 financial goals and fiscal 2008 financial goals. Financial goals were achieved for

2007 (non-GAAP revenue of \$602 million and non-GAAP earnings per share of \$0.52), accordingly fifty percent of the grant vested on November 29, 2007.

- (4) These grants were issued pursuant to the Company's fiscal 2006 Bonus Plan and vested one hundred percent on March 15, 2007.
- (5) These options, which have a seven year term, will vest over a three year term, one third on each anniversary date of grant.
- (6) These grants are time-based and will vest one hundred percent on the third anniversary from the date of grant.
- (7) These grants are performance based and will only vest upon the achievement of certain individual objectives. Vesting of one sixth of the shares is based on individual objectives for the second half of fiscal 2007, vesting of one third of the shares is based on individual objects for each of fiscal 2008 and fiscal 2009 and vesting of one sixth of the shares is based on individual objectives for the first half of fiscal 2010. If the individual performance objectives are not achieved, the restricted stock units will not vest and will be forfeited. Individual objectives for the second half of fiscal 2007 were achieved by all Named Executive Officers, with the exception of Mr. Arnold.
- (8) In addition to participating in the Company's fiscal 2007 Bonus Program, Mr. Chambers was entitled to commission-based payments during fiscal 2007 under his sales commission program. This amount represents the actual amount paid to Mr. Chambers pursuant to his sales commission program.
- (9) This grant was issued as an inducement material to Mr. Hunt's initial employment with the Company and vested on December 2, 2006.
- (10) These options, which have a seven year term, will vest twenty-five percent on the first anniversary of the grant date and monthly thereafter.
- (11) This grant, which have a seven year term, will vest one third on each anniversary of the grant date.
- (12) This grant is a performance-based grant and will only vest, if ever, upon achievement of financial goals. Vesting of one third of the restricted stock units is based upon financial objects for each of fiscal 2007, 2008 and 2009. If the goals are not achieved for each fiscal period, then the restricted stock units will not vest and will be forfeited. Mr. Hunt achieved his goals for fiscal 2007, accordingly, one third of the restricted stock units vested.
- (13) Mr. Hunt did not participate in the Company's fiscal 2007 Bonus Program. This amount represents the actual amount paid to Mr. Hunt pursuant to his sales commission program.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Registered Public Accounting Firm

The Sarbanes-Oxley Act of 2002 and the auditor independence rules of the U.S. Securities and Exchange Commission require all independent registered public accounting firms that audit issuers to obtain pre-approval from their respective audit committees in order to provide professional services without impairing independence. As such, our Audit Committee has a policy and has established procedures by which it pre-approves all audit and other permitted professional services to be provided by our independent registered public accounting firm.

The pre-approval procedures include execution by the Chief Financial Officer and Audit Committee Chairperson, on behalf of the Company and the entire Audit Committee, of an audit and quarterly review engagement letter and pre-approval listing of other permitted professional services anticipated to be rendered during the foreseeable future. Additionally, from time to time, we may desire additional permitted professional services for which specific pre-approval is obtained from the Audit Committee Chairman, acting on behalf of the Company and entire Audit Committee, before provision of such services commences. In doing this, the Company and Audit Committee have established a procedure whereby a BDO Seidman, LLP representative, in conjunction with the Chief Financial Officer or Chief Accounting Officer, contacts the Audit Committee Chairman and obtains pre-approval for such services on behalf of the entire Audit Committee, to be followed by a written engagement letter, as appropriate, confirming such arrangements between BDO Seidman, LLP and the Company. In addition, on a periodic basis, the entire Audit Committee is provided with a summary of all pre-approved services to date for its review. During the fiscal year ended September 30, 2007, all services provided by our independent registered public accounting firm were pre-approved by the Audit Committee in accordance with this policy.
