2. Significant Accounting Principles:

(a) Accounting period:

The financial statements cover the years ended December 31, 2004 and 2003.

(b) Basis of preparations:

These consolidated financial statements (hereinafter the financial statements) have been prepared in accordance with Generally Accepted Accounting Principles in Chile and standards set forth by the Chilean Superintendency of Securities and Insurance.

In the event of discrepancies between Generally Accepted Accounting Principles in Chile issued by the Chilean Accountants Association and the standards set forth by the Chilean Superintendency of Securities and Insurance, the standards set forth by the Superintendency shall prevail for the Company.

(c) Basis of presentation:

The consolidated financial statements for 2003 and their notes have been adjusted for comparison purposes by 2.5% in order to allow comparison with the 2004 financial statements.

For comparison purposes there have been certain reclassifications made to the 2003 financial statements.

(d) Basis of consolidation:

These consolidated financial statements include the assets, liabilities, income and cash flows of the Parent Company and subsidiaries. Significant inter company transactions have been eliminated and the participation of minority investors has been recognized under Minority Interest (See Note 20).

2. Significant Accounting Principles, continued:

(j) Subsidies on sale of cellular telephones:

Represents the difference between the cost at which Telefónica Móvil de Chile S.A. acquires the cellular equipment from its suppliers and the price at which they are sold to its customers, that is the of subsidy granted to customers.

The amount of subsidy both for prepayment as well as contract, with the exception of in accommodation, is charged to income at the time the equipment is sold.

(k) Accommodation Contracts:

The acquisition cost of these cellular units is capitalized as property, plant and equipment and is depreciated over a term of 24 months from the date the contract is signed. The initial depreciation charge is recorded during the month the contract is signed.

As of June 1, 2002, as a customer retention commercial strategy, the company implemented a customer loyalty policy, which consists in changing equipment that is 18 months old related to accommodation contracts. Based on the above, depreciation provisions have been established for early write-off of equipment.

As of September 2003, the Company changed the manner in which it commercializes accommodation cellular equipment for rental cellular equipment, by means of which the equipment is delivered for use during an agreed upon period of time, while the Company maintains ownership of the equipment.

(l) Allowance for doubtful accounts:

Differentiated percentages are applied when calculating allowance for doubtful accounts, taking into consideration aging of and eventual administrative collections costs, reaching in some cases 100% of debts past due more older than 120 days and 180 days in the case of large customers (corporations).

(m) Property, plant and equipment:

Property, plant and equipment are carried at their price-level restated acquisition and/or construction cost.

Property, plant and equipment acquired up to December 31, 1979 are carried at their appraisal value, as stipulated in Article 140 of D.F.L. No. 4, and those acquired subsequently are carried at their acquisition value, except for those assets which are carried at the appraisal value recorded as of June 30, 1986, as authorized in Circular No. 550 issued by the Chilean Superintendency of Securities and Insurance. All these values have been price-level restated.

2. Significant Accounting Principles, continued:

(n) Depreciation of property, plant and equipment:

Depreciation has been calculated and recorded on a straight-line basis over the estimated useful lives of the assets. The average annual financial depreciation rate of the Company is approximately 7.93%.

(ñ) Leased assets:

Leased assets with a purchase option.

Leased assets with a purchase option which are under contracts which meet the characteristics of a financial lease, are recorded as "Other Assets". These assets are not legally owned by the Company; therefore until it exercises the purchase option they cannot be freely disposed of.

(o) Intangibles

i) Rights to underwater cable:

Corresponds to the rights acquired by the Company, for of use underwater cable to transmit voice and data. This right is amortized over the term of the respective contracts, with a maximum of 25 years.

ii) Software licenses:

Software licenses are valued at their price-level restated acquisition cost. Amortization is calculated using the straight-line method over their estimated useful life, which does not exceed 4 years.

iii) License for the use of radio-electric space:

Corresponds to the cost incurred in obtaining licenses for the use of broad-band width. They are shown at price-level restated value and are amortized over the concession term (30 years from the date of publication in the Official Gazette of the decrees that formalize the granting of the respective licenses).

(p) Investments in related companies:

These investments are accounted for under the equity method which recognizes the investee's share of income on an accrual basis. For investments abroad the valuation methodology applied is that defined in Technical Bulletin N°64. These investments are controlled in dollars, since they are in countries deemed to be unstable and their activities are not an extension of the operations of the Parent Company.

(q) Goodwill:

In the case of investments made through December 31, 2003, corresponds to the excess of the purchase price of an investment over the net book value of the assets acquired and liabilities assumed, under the equity method. Goodwill amortization periods have been determined considering factors such as the nature and characteristics of the business and the estimated period of return of the investment. Goodwill arising on the acquisition of investments abroad are controlled in United States dollars (same currency in which the investment is controlled) as per Technical Bulletin N°64 of the Chilean Accountants Association. (See Note 11).

Goodwill impairment has been assessed as required in Circular No. 151, of the Superintendency of Securities and Insurance and Technical Bulletin No. 72, of the Chilean Association of Accountants.

2. Significant Accounting Principles, continued:

(r) Transactions with resale agreements:

Purchases of securities under agreement to resell are recorded as fixed rate securities and are classified under Other Current Assets.

(s) Obligations with the public:

- Bonds payable: are presented in liabilities at the par value of the issued bonds (see note 17b). The difference between the par and placement value, determined on the basis of the designated interest rate for the transaction, is deferred and amortized straight-line over the term of the respective bond (see notes 8 and 14).
- Commercial paper is presented in liabilities at its placement value, plus accrued interest (see note 17a).

Costs directly related to the placement of these obligations are deferred and amortized using the straight-line method over the term of the respective liability.

(t) Income tax and deferred income tax:

Income tax is recorded on the basis of taxable net income. Recognition of deferred taxes on all temporary differences, utilizable tax loss carry forwards, and other events that create differences between the tax and accounting base, is recorded following Technical Bulletins No. 60 and 69 of the Chilean Accountants Association and as established by the Chilean Superintendency of Securities and Insurance in Circular N°1,466 dated January 27, 2000.

On September 28, 2001 Law N°19,753 was published, increasing the income tax rate to 16% in 2002, 16.5% in 2003 and 17% in 2004 and thereon. As of December 31 of each period presented, deferred tax assets and liabilities reflect the increase in tax rate. Recognition for the effect on deferred taxes from an increase in income tax rates follows Technical Bulletin N°71 issued by of the Chilean Accountants Association. (See Note 7).

(u) Staff severance indemnities:

For employees subject to this benefit the Company's staff severance indemnities obligation is provided for applying the present value the obligation using an annual discount rate of 7%, considering the projected service periods of the employee determined on the basis of actuarial calculations (see note 19).

Actuarial gains and losses are deferred and amortized over average periods of employee service.

(v) Operating revenues:

The Company's revenues are recognized on an accrual basis in accordance with generally accepted accounting principles in Chile. Since billing is performed on cycle rather than month-end dates, revenue has been accrued for services that have not been invoiced, determined on the basis of the contracts in force. These amounts are recorded under Trade Accounts Receivable.

2. Significant Accounting Principles, continued:

(w) Foreign currency future contracts:

The Company has entered into future foreign currency contracts, which represent a hedge against the variation in the exchange rate of its obligations in foreign currency.

These instruments are valued in accordance with Technical Bulletin N°57 of the Chilean Accountants Association.

The rights and obligations acquired are detailed in Note 27, reflecting in the balance sheet only the net right or obligation at period end, classified according to the maturity of each contract under Other Current Assets or Other Creditors, as applicable. The exchange cover insurance premium implicit in the contract is deferred and amortized using the straight-line method over the term of the same.

(x) Interest rate coverage:

Interest on loans for which associated interest rate swaps have been entered into, are recorded recognizing the effect of those contracts on the interest rate established in such loans and the rights and obligations acquired there under are shown under Other Creditors or under Other Current Assets, as applicable (See Note 27).

(y) Computer software:

The cost of software purchased is deferred and amortized using the straight-line method over a maximum period of four years.

(z) Research and development expenses:

Research and development expenses are charged to income in the period in which they are incurred. Those expenses have not been significant in recent years.

(aa) Accumulated adjustment for conversion differences:

The Company recognizes in this equity reserve account the difference from exchange rate fluctuations and the Consumer Price Index (C.P.I.) from restating its investments abroad. These investments are controlled in United States dollars. The balance of this account is credited (charged) to income in the same period in which the gain or loss is recognized over the total or partial disposal of these investments.

2. Significant Accounting Principles, continued:

(ab) Statement of cash flows:

For the purposes of preparing the Statement of Cash Flows according to Technical Bulletin No. 50 of the Chilean Accountants Association and Circular No. 1,312 of the Chilean Superintendency of Securities and Insurance, the Company considers mutual funds, securities under agreements to resell and time deposits maturing in less than 90 days as cash equivalents.

Cash flows related to the Company's line of business and all those not defined as from investment or financing activities are included under "Cash Flows from Operating Activities".

(ac) Correspondents:

The Company has current agreements with foreign correspondents, which set the conditions that regulate international traffic, charging or paying the same according to net traffic receivable/payable and the rates set in each agreement.

This receivable/payable is recorded on an accrual basis, recognizing the costs and income for the period in which these, are incurred, recording the net balances receivable and payable of each correspondent under "Trade Accounts Receivable" or "Accounts Payable" as applicable.

3. Accounting Changes:

a) Accounting changes

During the years covered in these financial statements, the accounting principles have been consistently applied.

b) Change in estimate

As established in Technical Bulletin No. 8 of the Chilean Association of Accountants, and derived from the current conditions in the collective agreements, the Company modified the estimation of future permanence of employees subject to the mentioned agreements. As a product of this change in estimate, the Company recorded deferred charge for ThCh\$ 6,008,992 at the beginning of the year which will be amortized over the period of future permanence of employees eligible for the benefit (see Note 14b).

c) Change of reporting entity:

i) Sale of Compañía de Teléfonos Isapre S.A.:

On September 2, 2003, the sale of the subsidiary Compañía de Teléfonos Isapre S.A. was completed and its net effect resulted in a ThCh\$66,705 (historic) loss on the sale of that investment.

ii) Sale of Telefónica Móvil de Chile S.A.

Due to the sale of the shares the company held in subsidiary Telefónica Móvil de Chile S.A., Telefónica CTC Chile deconsolidated that company from its financial statements as of July 1, 2004.

(1) On July 29, 2003, Inversiones Santa Isabel Ltda. informed its decision to exercise the purchase option for the remaining 35% of Sonda S.A. agreed upon with Telefónica Empresas Chile S.A. On August 26, 2003, the Company sold 35% of the shares of Sonda S.A. for ThCh\$ 33,388,363, for UF 1,972,206. In this transaction Telefónica recognized a gain of ThCh\$ 6,999,276 before taxes (ThCh\$ 5,683,065 net of the effect of taxes). As Telefónica Empresas, does not participate in Sonda S.A. at December 31, 2003, it has only recognized 35% of net income of Sonda S.A. up to June 30, 2003 as proportional equity value.

(2) On April 26, 2004, Compañía de Telecomunicaciones de Chile S.A. sold its 9% holding in Impresora y Comercial Publicguías S.A., to Telefónica Publicidad e Información S.A. The selling price was US\$ 14,760,000, equivalent to Ch\$ 9,013 million, with a gain after taxes of Ch\$ 4,940 million. (see note 22a)

(3) The Company records its investment in TBS Celular using the equity method since it exercises significant influence through the business group to which it belongs, as established in paragraph No. 4 of Circular 1179 issued by the Superintendency of Securities and Insurance and ratified in Title II of Circular 1697. Although Telefónica CTC Chile only has a 2.61% direct participation in TBS Celular, its Parent Company, Telefónica España directly and indirectly has a percentage exceeding 20% ownership of the capital stock of that company.

(4) Investment for which a provision has been established the Company's participation in the negative shareholders' equity of this related company. This provision is included in "other current liabilities".

As of the date of these financial statements there are no liabilities for hedge instruments assigned to foreign investments. The Company has the intention of reinvesting net income from foreign investments on a permanent basis, therefore there is no net income that is potentially remittable.

| Others | 163,539 | 733,163 |
| Total | 13,456,048 | 10,475,756 |

(a) This amount corresponds to the cost (net of amortizations) of the mandatory reserve paid to the Banco Central de Chile and disbursements incurred for foreign loans obtained by the Company, to finance its investment plan.

(b) With the new contractual conditions in force in the Company, during 2004 the variable future permanence of employees was modified on the basis of the calculation of staff severance indemnities, a variable determined on the basis of actuarial estimations, as established in Technical Bulletin No. 8 of the Chilean Association of Accountants. The difference at the beginning of the year as a result of changes in the actuarial estimates constitutes actuarial gains or losses, which are deferred and amortized during the years of average future permanence remaining for the employees that will receive the benefit.

(c) In conformity with the union agreements between the Company and its employees, loans were granted to employees, the amounts and conditions of which were based, among other aspects, on the accrued balances of staff severance indemnities when they were granted.

The loan is presented in other long-term receivables. The staff severance indemnities provision has been partially recorded at its current value, deferring and amortizing this effect over the years of average future permanence remaining of the employee who accepted the benefit.

a) Commercial paper:

On January 27, 2003, Telefónica CTC Chile registered a commercial paper line in the securities registry, the inspection number of which is 5. The maximum amount of the line is ThCh\$ 35,000,000, and placements charged to this line may not exceed that amount. The term of this line will be 10 years from the date of registration with the Superintendency of Securities and Insurance. The interest rate will be defined on each issuance of these commercial papers.

On May 12, 2004, there was a second placement in two series (C and D) for ThCh \$ 35,000,000 of the same type of financial instrument. The placement agent was Santander Investment S.A.

17. Obligations with the Public, continued:

b) Bonds, continued:

- a) During December 2004 and as stated in the sixth clause, letter K of the Bond Issuance Agreement, Telefónica CTC Chile decided to exercise the advanced redemption option of all the Bonds of this series. The amount of the redemption of this issuance is U.F. 3,992,424 plus interest accrued until February 15, 2005, the effective date of the redemption. This has meant recognizing in income the balances pending amortization for "Bond issue expenses" and "Bond discount", reducing the term to the advanced redemption date. As of December 31, 2004 the extraordinary effects from these amortizations on total income amount to ThCh \$ 3,236,587 (included in Financial Expenses).
- b) Starting May 2003 and until December of that same year, Telefónica CTC Chile, partially repurchased US\$12.3 million of its placement denominated in the same currency. This repurchase was carried out at an average of 111.05% of par value, which meant a payment of US\$ 13.68 million, plus accrued interest as of that date on the nominal amount of the repurchase. During November and December 2004, Telefónica CTC Chile affected a repurchase offer for the dollar issuances. As a product of this offer, in those two months and for that placement, the Company repurchased US\$ 138,082,000. This operation was carried out paying an average price of 107.0 % of the par value. The partial repurchase of this series resulted in the Company recognizing extraordinary proportional amortization of the balances corresponding to "Bond issue expenses" and "Bond discount", as well as on payment of the repurchase. The net of these three effects of ThCh\$ 6,631,649 was charged to the financial expenses for the period.
- c) During November and December 2004, Telefónica CTC Chile effected an offer to repurchase US\$ issuances. As a result of this offer the Company in these two months, and for this placement, repurchased US\$ 43,560,000. This operation was carried out at a price of 105.356% of par value. The partial repurchase of this series meant recognizing extraordinary amortizations proportional to the balances corresponding to "Bond issue expenses", "Bond discount", as well as on payment of the repurchase. The net of these

three effects of ThCh\$ 1,461,539 was charged to financial expenses for the period.

21. Shareholders' Equity, continued:

i) Dividend policy:

On September 21, 2004, the Company's Board of Directors, in view of the cash situation, levels of projected investment and solid financial indicators for 2004 and thereafter, modified the distribution of dividends reported to the Annual General Shareholders' Meeting of April 2004, and declared that it is the intention of the Board to distribute

100% of net income earned during the respective year, through an interim dividend in November of each year and a final dividend in May of the following year, and that will be submitted to the corresponding Annual General Shareholders' Meeting.

ii) Dividend distributed in the year:

On July 11, 2003, the Extraordinary Shareholders' Meeting agreed to pay a dividend of ThCh\$ 16,750,249 (historical), with a charge to retained earnings as of December 31, 2002, which was paid on July 31, 2003.

On April 15, 2004, the Annual General Shareholders' Meeting approved a final dividend of (No. 164) Ch\$ 3.20 per share equivalent to ThCh \$ 3,062,903, with a charge to net income for 2003. The dividend was paid on May 7, 2004.

Additionally, during July 2004 the following dividend distribution was agreed:

– On June 14, 2004, the Board of Directors of the Company agreed to give shareholders' a temporary dividend on of 2004 net income.

– In turn, the Extraordinary Shareholders' Meeting of July 15, 2004, approved the sale of subsidiary Telefónica Móvil de Chile S.A., and distribution of a final dividend against retained earnings as of December 31, 2003.

Both dividends, in the amount of US\$ 800 million, were subject to materialization of the sale of all the shares of Telefónica Móvil de Chile S.A., event that would be consummated if, Telefónica Móviles S.A, accepted the proposal of the Extraordinary Shareholders' Meeting, which implied, it assuming the taxes arising at of the sale operation, that amounts to US\$ 51 million.

On July 23, 2004, the agreement for the sale of the shares of the former subsidiary Telefónica Móvil de Chile S.A. was signed. Therefore, on August 31, 2004, the Company paid the dividends resulting from the sale of its subsidiary. The dividends are analyzed in the following manner:

- Dividend No. 165, with a charge to retained earnings of ThCh\$ 385,685,783.
- Dividend No. 166, in the nature of an interim dividend of ThCh\$ 128,561,925, with a charge to 2004 net income.

In the context of the modification of the dividend policy approved in September 2004, the Board agreed to distribute interim dividend (No. 167) with a charge to 2004 net income of \$130 per share equivalent to ThCh\$ 124,430,423 which was paid on November 4, 2004.

COMPAÑÍA DE TELECOMUNICACIONES DE CHILE S.A. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued

(Translation of financial statements originally issued in Spanish)

28. Contingencies and restrictions:

a) Lawsuits:

(i) Complaints presented by VTR Telefónica S.A.:

On September 30, 2000, VTR Telefónica S.A. filed an ordinary suit for the collection of access charges in the amount of Ch \$ 2,500 million, based on the differences that would originate from the lowering of access charges rate due to Rate Decree No. 187 of Telefónica CTC. First instance sentence accepted the complaint of VTR and the compensation alleged by Telefónica CTC. The Company filed a motion to vacate and appeal, which is currently underway.

(ii) Labor lawsuits:

In the course of normal operations, labor lawsuits have been filed against the Company.

To date, among others, there are labor proceedings involving former employees, who claim wrongful dismissal. These employees did not sign termination releases or receive staff severance indemnities. On various occasions, the Supreme Court has reviewed the sentences handed down on the matter, accepting the thesis of the Corporation, ratifying the validity of the terminations.

There are, in addition, other lawsuits involving former employees, whose staff severance indemnities have been paid and their termination releases signed, who in spite of having chosen voluntary retirement plans or having been terminated due to company needs, intend to have the terminations voided. Of these lawsuits, to date, two have received a sentence favorable to the Company, rejecting the annulments.

Certain unions have filed complaints before the Santiago Labor Courts, requesting indemnities for various concepts.

In the opinion of Management and their internal legal counsel, the risk that the Company will be condemned to pay indemnities in the amount claimed in the previously mentioned lawsuits, in addition to other civil and labor suits where the Company is the defendant, is remote. Management considers it unlikely that the Company's income and equity will be significantly affected by these loss contingencies. As a consequence, no provision has been established in relation to the indemnities claimed.

(iii) Lawsuit against the State of Chile:

On October 31, 2001, Telefónica CTC Chile filed an administrative motion to set aside before the Ministry of Transport and Telecommunications and the Ministry of Economy, requesting correction of the errors and illegalities in Rate Decree No. 187 of 1999. On January 29, 2002, the Ministries issued a joint response rejecting the administrative recourse, determination which they arrived at after having "carefully evaluated, only the viability and timeliness of the petition made, considering the set of circumstances that concur in the problem stated and the prudence that must orient public actions", to add that such rejection "has had no other motivation than to protect the general interest and progress of the telecommunications services".

Upon extinguishing the administrative instances to correct the errors and illegalities involved in the tariff setting of 1999, in March 2002, Telefónica CTC Chile filed a lawsuit for damages against the State of Chile for the sum of Ch \$181,038,411,056, plus readjustments and interest, which covers past and future damages until May 2004.

Currently, in that judicial proceeding, the different expert reports on the diverse aspects of the matter of the lawsuit have already been issued, reports that supported the position sustained by Telefónica CTC Chile during the process.

28. Contingencies and restrictions, continued:

(iv) Manquehue Net:

On June 24, 2003, Telefónica CTC Chile filed a forced compliance of contracts complaint with damage indemnity before the mixed arbitration court of Mr. Victor Vial del Río against Manquehue Net, in the amount of Ch \$3,647,689,175 in addition to costs incurred during the proceeding. Likewise, and on the same date, Manquehue Net filed a compliance with discounts complaint (in the amount of UF 107,000), in addition to an obligation to perform complaint (signing of a 700 services contract). After completion of the evidence period, on June 5, 2004 the arbiter called the parties together to pronounce a sentence.

b) Financial restrictions:

In order to carry out its investment plans, the Company obtained financing in the local and foreign market (notes 15, 16 and 17), which established among others: maximum debt that the Company may have, interest and cash flows coverage.

The maximum debt ratio for these contracts is 1.50, whereas the interest coverage ratio cannot be less than 4.00 and lastly the cash flow ratio must be equal to or greater than 0.166.

Non-compliance with these clauses implies that all the obligations included in these financing contracts will be considered as due.

As of December 31, 2004 the Company complies with all the financial restrictions.

c) Guarantees:

On September 8, 2003 the Company, through Banco de Crédito e Inversiones, took out a letter of credit in favor of Intelsat to guarantee fulfillment of its obligations product of the use of a satellite. This document was taken for ThCh\$ 1,158,178, with automatic renewal and initial maturity on February 28, 2005.

29. Third party guarantees:

The Company has not received any guarantees from third parties.

Notes to the consolidated financial statements, continued

31. Sanctions:

Neither the Company, nor its Directors and Managers have been sanctioned by the Superintendency of Securities and Insurance or any other administrative authority during 2004.

32. Subsequent events:

a) Placement of first issuance of Negotiable Instruments line No. 015

On January 18, 2005, Telefónica CTC Chile made the first placement from line No. 15 registered for ThCh\$ 35,000,000 at the Superintendency of Securities and Insurance on May 12, 2004. The amount of the placement is ThCh\$12,000,000, broken down into series E1 – E2, the amount raised amounts to ThCh\$ 11,676,635 at 0.31% per month and the maturity date of which is October 13, 2005.

The placement agent for this process was Inversiones Boston Corredores de Bolsa.

b) Renewal of bilateral loan with BBVA NY

On January 21, 2005, Telefónica CTC Chile and BBVA N.Y. agreed to extend the bilateral loan granted originally on January 21, 1998; the renewal was for 1 year, maturing on January 23, 2006.

The amount of the loan is US\$25 million at an interest rate of Libor 90 days plus a margin of 30 bps. Interest will be paid quarterly on April 21, 2005, July 21, 2005, October 21, 2005 and January 23, 2006.

The interest rate set for the first period of interest is 2.98% (Libor 3 months 2.68% + 0.30%).

In the period from January 1 to 21, 2005, there have been no other significant subsequent events that affect these financial statements.

33. Environment:

In the opinion of Management and their in-house legal counsel and because the nature of the Company's operations do not directly or indirectly affect the environment, as of the closing date of these financial statements, no resources have been set aside nor have any payments been made for non-compliance with municipal ordinances or to other supervising organizations.

Management Discussion and Analysis of the Consolidated Financial Statements (Continued)

1. HIGHLIGHTS

Results for the Period and Figures for the Corporation's Business

As of December 31, 2004, Telefónica CTC Chile recorded consolidated net income of Ch\$ 311,629 million, whereas net income for the previous year amounted to Ch\$ 10,387 million. Income for 2004 incorporates the effects derived from the sale of subsidiary Telefónica Móvil de Chile S.A. in July 2004, which produced net income of approximately Ch\$ 302,658 million.

At the operating level, comparisons between 2003 and 2004 show the effects of the deconsolidation of subsidiary Telefónica Móvil de Chile S.A. as of July 2004.

After excluding the effects of Telefónica Móvil de Chile S.A. from 2003 and 2004, the operating margin reaches 17.8%, 2004 shows a slight increase of 0.4 percentage points in comparison to the operating margin of 17.4% obtained in 2003, notwithstanding that operating income, as detailed below, decreased by 1.7% due to the 4.0% decrease in income whereas operating expenses dropped by 4.5%.

Operating Income for the Year Excluding Mobile Operations

| | 2003 | 2004 | % Variance |
|-------------------------|-----------|-----------|------------|
| Income | 600,418 | 576,496 | -4.0% |
| Costs | (288,472) | (281,846) | -2.3% |
| EBITDA | 311,946 | 294,650 | -5.5% |
| Depreciation | (207,549) | (192,032) | -7.5% |
| Operating Income | 104,397 | 102,618 | -1.7% |
| Operating Margin | 17.4% | 17.8% | 0.4% |

Including the mobile operations, in 2004 the operating income of Telefónica CTC Chile shows a surplus of Ch\$ 99,134 million, less than the 16.2% reached the year ended as of December 31, 2003 in the amount of Ch\$ 118,242 million.

It should be noted that operating income includes a provision for the effect of the tariff decree coming into effect from May 6, 2004 until May 6, 2009, notwithstanding that the Chilean General Comptroller has not published it in the

Official Gazette.

Non-operating income for the year ended as of December 31, 2004, shows an income of Ch\$ 275,173 million, which compares positively to the deficit obtained in the same period the previous year in the amount of Ch\$ 77,976 million, derived mainly from the gain obtained from the sale of Telefónica Móvil de Chile S.A, and reduced financial expenses associated to a lower level of debt and better financing conditions.

In respect to the figures of the business, as of December 31, 2004, Telefónica CTC Chile's fixed telephone lines in service reached 2,427,364, presenting an increase of 0.4% in relation to December 31, 2003. ADSL customers reached 200,794 connections with a growth of 60.3% in relation to the previous year. Long distance business traffic increased by 2.6% in domestic long distance (DLD) and 4.2% in outgoing international long distance (ILD), reaching 663.9 million minutes and 67.0 million minutes respectively. The ATM link decreased by 7.3%, and dedicated IP links grew by 35.1%.

As of December 31, 2004, the Company's personnel included 3,745 employees (excluding the staff of Telefonica Movil S.A.), which partly explains the 20.7% decrease in comparison to December 2003. This decrease is also due to the effects of Telefonica's restructuring process materialized in May and November 2004.

Organizational Restructuring

In the framework of the Company's business restructuring taking place during the year ended as of December 31, 2004, Telefónica modified its executive structure in May and also adjusted its staff in November, in accordance with the changes experienced in the market and the telecommunications business in Chile.

Management Discussion and Analysis of the Consolidated Financial Statements (Continued)

Decrease in Financial Debt

Telefónica CTC Chile has continued to improve its debt level through amortization and prepayment of loans, renegotiation of payment terms and interest rates of current loans and also through the overall market decline in interest rates. As of December 31, 2004, the financial debt reached Ch\$ 606,517 million, reflecting a decrease of 29.8% compared to the financial debt of Ch\$ 863,632 million recorded as of December 31, 2003. The decrease in indebtedness levels together with the improved financing conditions and the drop in the value of the dollar translated in turn into a downturn of 13.9% in financial expenses in 2004.

Sale of Participation in Publiguías

On April 26, 2004, Telefónica CTC Chile sold to Telefónica Publicidad e Información S.A. all its participation (equivalent to 9% of capital stock) in Sociedad Impresora y Comercial Publiguías S.A. The price of the transaction was US\$ 14.8 million, equivalent to Ch\$ 9,013 million, with a Net Income of Ch\$ 4,940 million (historical).

Sale of Telefónica Móvil

The Extraordinary Shareholders' Meeting held on July 15, 2004, approved the sale of Telefónica Móvil de Chile to Telefónica Móviles (TEM), with 69.1% approval of the shares issued and paid. The level of approval of the shares

present at the Meeting was 73.8%.

The shareholders approved selling the subsidiary for a total of US\$ 1,250 million, which is composed of US\$ 1,007 million for the value of the shares and payment of the debt that Telefónica Móvil de Chile has with the parent company and the purchaser has to pay Telefonica Movil S.A. the tax derived from the operation with a maximum of US\$ 51 million.

In addition to this matter, the Meeting approved distribution of a dividend of US\$ 0.626856 per share, with a charge to retained earnings. Additionally at the meeting held on June 14, 2004, the Board approved payment of an interim dividend of US\$ 0.208952 per share, with a charge to net income for 2004. Both dividends total approximately US\$ 800 million.

In third place, the Meeting approved the modification of the Investment and Financing Policy, eliminating all reference to the assets of Telefonía Móvil de Chile.

Payment of the dividend and modification of the Investment and Financing Policy are subject to the signing of the respective contract and cash payment of the price.

On July 23, 2004, a contract was signed for the sale of shares of Telefónica Móvil de Chile S.A. to TEM Inversiones Chile Limitada, subsidiary of Telefónica Móvil S.A., under the terms agreed upon by the Extraordinary Shareholder Meeting of July 15, 2004, in virtue of which TEM Inversiones Chile Limitada, paid US\$ 1,058 on July 28, 2004 for the value of the shares plus Ch\$ 161,440,964,893 for the debt that Telefónica Móvil de Chile S.A. had with Compañía de Telecomunicaciones de Chile S.A. as of July 15, 2004. As a result of this operation resulted in Telefónica CTC Chile generated an after-tax profit of approximately US\$ 470 million.

Repurchase of Yankee Bonds

On December 1, 2004, the Company completed a Tender Offer for US\$ 200 million for its two series of Yankee Bonds. The amount repurchased was US\$ 182 million and reduced debt from US\$ 388 to US\$ 206 million.

This measure allowed improving the Company's leverage, decreases in annual financial expenses and fulfills the commitment to reduce the debt to creditors as part of obtaining waivers for the sale of Telefónica Móvil.

Syndicated Loan for US\$ 200 million

On December 16, 2004, Telefónica CTC Chile concluded the renegotiation of a syndicated loan for US\$ 200 million, which meant among other aspects, extending the debt maturity from February

and August 2005 to December 2009 and adjusting the spread over the Libor interest rate, to the current market conditions from 112.5 bps to 40 bps.

Tariff Setting Process for Telefónica CTC (Local Telephony)

Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

On May 4, 2004, the Ministries issued Tariff Decree No. 169 which they sent together with the supporting report to the Chilean General Comptroller for legislative review.

On June 2, Telefónica CTC Chile S.A. filed two presentations to the Chilean General Comptroller within the process of recording Tariff Decree No. 169. The first presentation denounces manifest mathematical errors in Decree 169 and requested the authorities to correct them. The second presentation includes the legal objections relating to conceptual aspects that have an impact on the definition and scope of the services included in the decree. In both presentations the Company expressly reserves the right to take jurisdictional actions.

Entel, Chilesat and Telmex filed a complaint with the Chilean General Comptroller against tariff Decree No. 169, objecting to scaling of access charges and the criteria for cost allocation of the various tariffs.

On September 16, 2004, the Ministries issued their report to the Chilean General Comptroller in relation to the impugnation formulated by Telefónica CTC Chile, Chilesat, Entel and Telmex. In this respect, the Ministries informed that as a result of the review of the tariff model, a large part of the mathematical errors denounced by Telefónica CTC Chile were corrected, notwithstanding that other errors apparently contained in the mentioned tariff decree were also corrected.

The Ministries defended the assignment of costs for access charges of Decree No. 169, indicating that such criteria is in accordance with the resolutions of antitrust agencies and pursuant to the Technical Economic Basis.

With regard to the conceptual aspects claimed by Telefónica CTC Chile that impact the definition and scope of the services included in the decree, the Ministries rejected them, as well as the appeals of Entel, Chilesat and Telmex.

On October 4, 2004, Telefónica CTC Chile appeal again to the Chilean General Comptroller, in order to request correction of new mathematical errors incurred by the Ministries precisely at the moment of correcting the errors denounced by Telefónica CTC Chile. Likewise, there was insistence on certain conceptual aspects.

Subtel reentered Decree N°. 169 to the Chilean General Comptroller on December 30, 2004, prior modification of certain tariffs of Network Unbundling services, in the item "Adjustment of Civil Works". Likewise, Subtel once again modified among other tariffs those of item "Adjustment of Civil Works", reentering Decree N° 169 to the Chilean General Comptroller on January 14, 2005.

In addition, in January 2005, Entel and Telmex filed new presentations to the Chilean General Comptroller, where Entel made appeals regarding to the tariffs set by the Ministries for providing "Adjustment of Civil Works" and on its part Telmex accompanies information that sustains that access charges tariffs must be based on direct cost.

As of January 31, 2005, the Chilean General Comptroller has not made a pronouncement on Tariff Decree No. 169, the report of the Ministries and the appeals formulated by Telefónica CTC Chile and by the telecommunications companies indicated above.

On February 11, 2005 Tariff Decree N° 169 was published in the Official Gazette resulting in the following tariffs for the five year period, beginning on May 6, 2004.

Telefónica CTC Chile will apply the new tariffs retroactively to customers beginning on May 6, 2004.

Tariff Flexibility

The Official Gazette of February 26, 2004, published Decree No. 742, of December 24, 2003, issued by the Ministry of Transportation and Telecommunications, which regulated conditions (without

 Managment Discussion and Analysis of the Consolidated Financial Statements (Continued)

restrictions as to levels or structure) to the offer of diverse plans and joint offers can be offered by the dominant operators of the local telephone public service.

The tariff flexibility allows Telefónica CTC Chile to offer its customers various commercial plans, adhering to the general framework for the application of the flexibility that must be defined by the authority, without requiring authorization for each plan. Telefónica CTC Chile requested that the authority dictate the corresponding regulation in this respect.

Telefónica CTC Chile started offering alternatives to the regulated plan in order to adapt to customer's needs.

Dividends Policy

On September 21, 2004, the Board of Directors of Compañía de Telecomunicaciones de Chile S.A. agreed to modify the policy for distributing dividends from 30% to 100% of net income for each year through an interim dividend in November of each year and a final dividend that will be proposed at General Shareholders' Meeting. In this context, the Board agreed to distribute an interim dividend against 2004 income for the year, for the total sum of Ch\$ 124,430 million in November 2004 (equivalent to US\$ 200 million) and subsequently, propose to the Shareholders' Meeting, of April 2005, distribution of accumulated earnings as of December 31, 2004, through an eventual final dividend.

Management Discussion and Analysis of the Consolidated Financial Statements

3. ANALYSIS OF INCOME FOR THE PERIOD

3.1 OPERATING INCOME

As of December 31, 2004, operating income reached Ch\$ 99,134 million which represents a decrease of 16.2% compared to previous year.

Operating Revenues

Operating revenues for the year amounted to Ch\$ 702,875 million presenting a decrease of 15.6% in relation to revenues obtained in 2003 that reached Ch\$ 833,110 million.

This variance was originated in the decrease in mobile services that were 45.7% below the level of the previous year, due to the deconsolidation of subsidiary Telefónica Móvil de Chile S.A. in July 2004, together with a 4.0% decrease in income from fixed telephony due to a drop in income from basic telephony, compensated in part by an increase in revenues from broadband and access charges and interconnection.

Revenues from Fixed Telecommunications: Revenues from fixed telecommunications decreased by 4.0% mainly due to the 10.4% decrease in **basic telephony** in respect to the previous year, derived from the 19.7% decrease in the level of variable charges, as a consequence of a 5.9% drop in the number of average lines in service, to the drop in traffic per line, the lower revenues provision derived from the application of the new tariff decree, and to the migration of customers to flexible plans, offset in part by the provision for higher revenue due to the effects of the application of the new tariff decree. Revenues from connections and other installations were situated 32.4% under the value reached the previous year, whereas flexible minute plans offered to customers as of 2004 reached Ch\$ 8,692 million, while value added services decreased by 8.0% partly due to the drop in lines in service and the migration of customers to advanced equipment, whereas other basic telephone income shows a drop of 28.9%.

The above was partly compensated by the contribution of **broadband** services that have been showing sustained growth, reaching Ch\$ 25,162 million in 2004 while the previous year revenues from these services amounted to Ch\$ 13,490 million.

Access charges and interconnections increased by 20.2%, mainly due to a 12.6% increase in revenue from domestic long distance access charges together with a 35.8% increase in other interconnection services.

Other local telephone services increased by 0.7%, equivalent to Ch\$ 453 million explained basically by the Ch\$ 1,802 million growth in revenue from Teleemergencia (Home Security) service that reached Ch\$ 6,681 million in 2004 whereas the previous year they amounted to Ch\$ 4,879 million, to the 6.7% increase in revenue from directory advertising and the 16.3% increase in switchboard and dedicated ISP. The above was partly offset by the decrease in revenue from sale of equipment and lower revenue from public telephones, interior installations and equipment rental.

Long Distance: Revenues from these services decreased by 2.5% in comparison to 2003, due to a decrease of 8.3% and 5.0% in revenues from DLD and ILD respectively, situation that was influenced by a decrease in average outgoing long distance prices, in spite of a 2.6% growth in ILD traffic and a 4.2% increase in outgoing ILD traffic. The above is partly offset by the incorporation of revenue from media and circuit rental to Telefónica Móviles de Chile, as of July 2004.

Corporate Communications: This business revenue shows a 2.7% increase in respect to the previous year, mainly due to a 13.8% increase in data together with a 13.4% increase in revenue from circuits, partly offsetting the 24.5% drop in revenues from commercialization of terminal equipment.

Mobile Communications: Total revenues from this business decreased by 45.7% due to the deconsolidation of this business as a result of the sale of Telefónica Móvil de Chile S.A. in July 2004, even though the period from January to June 2004 showed an increase in relation to 2003, mainly due to the growth experienced by the average mobile customer portfolio.

Management Discussion and Analysis of the Consolidated Financial Statements (Continued)

Other Businesses: This revenue showed a 33.2% decrease mainly due to the deconsolidation of Istel (Company-owned health insurance company) as of September 2003.

Operating Costs

Operating costs for the year reached Ch\$ 603,741 million, decreasing by 15.5% in relation to 2003, year in which they reached Ch\$ 714,868 million, notwithstanding that when the mobile operations are excluded, consolidated operating costs reached Ch\$ 473,878 decreasing by 4.5% in relation to 2003.

This effect is explained by a decrease in the levels of depreciation presented by the Corporation, associated to lower investments. Additionally a decrease in costs is appreciated due to the efforts displayed in the efficient use of resources applied by the Company in the last years.

3.2 NON-OPERATING INCOME

Non-operating income obtained in the year ended as of December 31, 2004 shows a surplus of Ch\$ 275,173 million, figure that positively compares to the non-operating deficit in 2003 in the amount of Ch\$ 77,976 million. The variation in non-operating income is broken down in the following manner:

Financial income shows an increase of 28.0%, mainly due to higher volumes of available funds arising from the sale of the mobile subsidiary and from operations, which were destined transitorily to financial investments.

Other non-operating income reached Ch\$ 475,489 million, mainly due to gain generated by the sale of subsidiary Telefónica Móvil de Chile S.A. and to the sale of the participation in Publiguías recorded in 2004, whereas in 2003 the level of this income was lower, mainly due to the higher market value of Terra Networks shares, the sale of the 35% participation in Sonda and compensatory indemnities.

Financial expenses decreased by 13.9% in 2004, mainly associated to lower interest bearing debt, renegotiation of rates of current loans, the drop in market interest rates and the effect of the drop in the exchange rate.

Amortization of goodwill increased by Ch\$116,741 million in relation to 2003, corresponding mainly to amortization of goodwill in the investment in subsidiary Telefónica Móvil de Chile S.A., sold during 2004.

Other non-operating expenses increased by 93.0%, due mainly to restructuring costs and an increase in the expired assets provision recorded in 2004 higher than the costs recorded in 2003.

Price-level restatement from January to December 2004 recorded an income of Ch\$ 8,982 million, originated mainly by the effect of foreign currency cash flows from the sale of the mobile subsidiary and in turn to recording payment of the dividend of August 2004 denominated in foreign currency, whereas the previous year net income amounted to Ch\$ 651 million. It should be noted that a 100% hedge has been maintained for exchange rate fluctuation and 70% hedge for interest rate. The Company's exchange rate (peso-dollar) hedge policy in great measure was able to neutralize the effects of the exchange rate variation in 2003 and 2004.

3.3 NET RESULT FOR THE YEAR

The net result totaled a net income of Ch\$ 311,629 million, in comparison with net income of Ch\$ 10,387 million in 2003. The result obtained in 2004 derives mainly from non-operating net income of Ch\$ 275,173 million obtained in 2004, partly offset by a 16.2% decrease in operating income and an increase in income tax due mainly to gain from the sale of the mobile subsidiary.

4. RESULTS BY BUSINESS AREA

Fixed Telephony Business: Presented a net income of Ch\$ 292,336 million in the year, situation that positively compares to the deficit of Ch\$ 12,012 million recorded the previous year, due to higher

11

Management Discussion and Analysis of the Consolidated Financial Statements (Continued)

non-operating income mainly due to the effect of the sale of subsidiary Telefónica Móvil de Chile S.A. that generated net income of approximately Ch\$ 302,658 million (historical), whereas operating income decreased by 9.0%. Income from this business excluding the effect of the mobile operation shows a net loss of Ch\$ 10,322 million.

Corporate Communications Business: This business contributed net income of Ch\$ 15,803 million in the year, an 11.4% decrease in relation to 2003 which shows a net income of Ch\$ 17,841 million, mainly due to 1.2% lower operating income and the higher level of taxes since 2003 had a lower tax load due to the sale of the participation in Sonda. The above is partly offset by the 82.7% decrease in non-operating loss compared to that obtained in 2003.

Long Distance Business: as of December 31, 2004 shows net income of Ch\$ 10,332 million, a 46.1% decrease in relation to the previous year. This variation is composed of a decrease of 23.6% in operating income and a greater non-operating deficit in the amount of Ch\$ 4,898 million whereas in 2003 it reached Ch\$ 1,035 million.

Mobile Business: The mobile business shows a net loss of Ch\$ 7,978 million in the year, whereas in 2003 it shows net income of Ch\$ 4,664 million. This effect is mainly due to an increase in operating income in the period from January to June 2004, equivalent to 16.5% and to the effect of the 28.5% increase in its operating costs due to the strong growth it has maintained. In July 2004, due to its sale, Telefónica Móvil de Chile S.A. was deconsolidated.

Other Businesses: The businesses as a whole generated net income of Ch\$ 1,134 million and operating net income of Ch\$ 1,376 million in the year, whereas during the previous year a net loss of Ch\$ 19,274 million was recorded with an operating loss of Ch\$ 10,598 million. These businesses mainly include teletoll services, technonautics, shared services, operation of other businesses and the effect of the sale of the participation in the ownership of Istel (Company-owned health insurance company) in 2003.

The corporate result excluding the effect to the sale of the mobile operation in the businesses of the basic telephone services.

The following graph shows the contribution of each business area to the corporate result, excluding the effect of the sale of the mobile operation in the businesses of basic telephone service:

From the previous table we highlight the following:

The common liquidity ratio shows an increase due to a 2.1% increase in current assets, as a product of greater funds transitorily available, whereas current liabilities decreased by 30.3% in respect to the previous year.

The decrease in the debt ratio is explained by a 27.0% drop in the level of demand liabilities, whereas shareholders' equity decreased by 25.5%, mainly due to the distribution of accumulated net income through payment of dividends.

7. EXPLANATION OF THE MAIN DIFFERENCES BETWEEN MARKET OR ECONOMIC VALUE AND THE BOOK VALUE OF THE COMPANY'S ASSETS

Due to market inaccuracies regarding the capital assets of the sector, there is no economic or market value that can be compared to the respective accounting values. However, there are certain buildings with a book value of zero or close to zero, which have a market value, which compared to the book value is not significant in respect to the Company's assets taken as a whole.

In relation to other assets, such as marketable securities (shares and promissory notes) with a referential market value, the corresponding provisions have been set up, when the market value is less than the book value.

8. REGULATORY ASPECTS

Fixed Telephony Tariff Decree

Decree No. 187 is in effect as of May 5, 1999. It establishes maximum tariffs for Telefónica CTC Chile for local telephone services and interconnection services for a period of 5 years, which expires on May 5, 2004.

The main services subject to regulation of tariffs are: Telephone Line Service (formerly fixed charge), Local Measured Service, Local Tranche, Access Charges, Communications Service from Public Telephones and Network Unbundling Services.

In relation to the procedure to be followed for setting tariffs for services subject to tariff regulation, on January 13, 2003, Telefónica CTC Chile requested the Antitrust Commission to liberate tariffs in specific geographic areas and to define telephone services which will be subject to tariff regulation in areas where the market conditions are not sufficient to guarantee a freedom of tariffs regime and that they determine that Telefónica CTC Chile has the right to offer alternative tariff plans without prior authorization.

Together with the tariff setting process of Telefónica CTC Chile, Subtel began the tariff setting process for public services provided by Entelphone in Easter Island and the tariffs for interconnection services (access charges) provided by Entelphone, CMET, Telesat and Manquehue Net.

On April 30, Telefónica CTC presented to Subtel its Technical Economic Bases for the Tariff Setting Study for the services provided by Telefónica CTC Chile to other public telephone concessionaries, to intermediate services concessionaries, which provide long distance telephone services, and to suppliers of complementary services.

On May 20, 2003, the Antitrust Commission dictated Resolution No. 686 which defines the services subject to tariff setting by the Ministries of Economy and Transportation and Telecommunications, which are similar to those established for the 1999 – 2004 period. The mentioned Resolution No. 686 rejects the petition for deregulated tariffs for the specific primary zones requested by Telefónica CTC Chile, and in relation to the request for tariff flexibility, informed favorably by the Regulator, the Resolutive Commission did not make a specific pronouncement in spite of the fact that most of its members were in favor of making a pronouncement, whereas the rest of the members considered that such matters did not correspond to that Commission. By request from Telefónica CTC Chile, the Resolutive Commission clarified Resolution No. 686, dictating to this effect Resolution No. 709, which disposed that notwithstanding the rate setting by the administrative authority, the dominant operators could offer lower tariffs or different plans under the conditions defined by the respective authority.

On May 30, 2003, Subtel submitted to Telefónica CTC Chile the Preliminary Technical Economic Basis. Telefónica CTC Chile formulated 84 controversies to the Preliminary Technical Economic Basis of Subtel and requested the

formation of an Experts Commission as defined by law and in the Regulations that govern the procedure, advertising and participation of the tariff setting process.

16

Management Discussion and Analysis of the Consolidated Financial Statements (Continued)

The Experts Commission was officially formed on June 17, composed of experts designated by Telefónica CTC Chile and Subtel, and issued its report on July 17, 2003, making a unanimous pronouncement on all the controversies, with the exception of only one which was approved by majority.

On July 25, 2003, Subtel issued Exempt Resolution No. 827 of 2003 which sets the Final Technical Economic Basis that guides the tariff study to set the levels, structure and indexation mechanisms of the services provided by Telefónica CTC Chile that are subject to tariff setting.

Entelphone, CMET, Manquehue Net and Telesat did not formulate controversies to the Preliminary TEB. Consequent with the above, Subtel dictated the Final Technical Economic Basis for the respective companies.

On November 6, 2003 Telefónica CTC Chile, presented the Tariff Study that sets the levels, structure and indexation mechanisms of the services subject to tariff regulation.

On March 5, 2004, the Ministries presented their Report on Objections and Counterproposals to the Tariff Study filed by Telefónica CTC Chile on November 6, 2003. The Company requested the formation of an Expert Commission, which was officially established on March 12. This Commission issued its report on April 2, ruling on the queries posed by Telefónica CTC Chile.

On April 4, 2004, Telefónica CTC Chile filed its Report on Amendments and Reiteration for the Tariff Study with the Ministries. This report included the recommendations of the Expert Commission and reiterated support for those matters not subject to the Commission's opinion.

On May 4, 2004, the Ministries issued Tariff Decree No. 169, which they sent together with the supporting report to the Chilean General Comptroller for legislative review.

On June 2, 2004, Telefónica CTC Chile filed two presentations with the Chilean General Comptroller as part of the decree's legislative review process. The first reported mathematical errors in the decree and requested that the authorities correct them. The second presentation outlined legal objections regarding the conceptual aspects of the decree affecting the definition and the scope of the services included therein. Both presentations expressly reserved the Company's right to take action before the competent courts.

Entel, Chilesat and Telmex filed a complaint with the Chilean General Comptroller against Tariff Decree No. 169, objecting to the assignment of costs of access charges and the criteria for cost assignment of the different tariffs.

On September 16, 2004, the Ministries of Transport and Telecommunications and of Economy, Development and Reconstruction, issued their report to Chilean General Comptroller in response to the appeals formulated by Telefónica CTC Chile, Chilesat, Entel and Telmex. In this respect, the Ministries informed that as a result of the review of the tariff model many of the mathematical errors claimed by Telefónica CTC Chile were corrected and they also made further corrections to the Tariff Decree.

In turn the Ministries defended the assignment of cost of access charges in T.D. 169, stating that such criteria has been made in conformity with the resolutions of antitrust organizations and those prescribed by the Technical Economic Basis established for this tariff process.

With regard to the conceptual aspects claimed by Telefónica CTC Chile affecting the definition and scope of the services included in the decree, the Ministries rejected them along with the appeals of Entel , Chilesat and Telmex.

On October 4, 2004, Telefónica CTC Chile appealed again to the Chilean General Comptroller in order to request the correction of mathematical errors incurred by the Ministries precisely at the moment of correcting the errors denounced by Telefónica CTC Chile. Likewise, there was insistence on certain conceptual aspects.

Subtel once again submitted Decree No. 169 to the Chilean General Comptroller on December 30, 2004, modifying certain tariffs of network unbundling services, in the item "Adjustment

17

Management Discussion and Analysis of the Consolidated Financial Statements (Continued)

of Civil Works". Likewise, Subtel once again modified among other tariffs those of item "Adjustment of Civil Works", resubmitted Decree No. 169 to the Chilean General Comptroller on January 14, 2005.

In addition, in January 2005, Entel and Telmex filed new presentations to the Chilean General Comptroller, where Entel objects to the tariffs set by the Ministries for providing "Adjustment of Civil Works" and on its part Telmex accompanies information that sustains that access charge tariffs must be based on direct cost.

As to January 31, 2005, the Chilean General Comptroller had not made a pronouncement on Tariff Decree No. 169, the report of the Ministries, objections formulated by Telefónica CTC Chile and by the telecommunications companies indicated above.

On February 11, 2005, Tariff Decree No. 169 was published in the Official Gazette resulting in the following tariffs for the five year period, beginning on May 6, 2004.

Telefonica CTC Chile will apply the new tariffs retroactively to customers beginning May 6, 2004.

Tariff Flexibility

By means of Resolution No. 709 of October 13, 2003, the Resolutive Commission decided to: "Accept the request on fs 476 of Compañía de Telecomunicaciones de Chile S.A., only in respect to that it is necessary to clarify Resolution No. 686, of May 20, 2003, recorded on fs. 440, in the sense that the resolution implies that the market conditions are insufficient to ensure a free pricing system, therefore a maximum rate must be set. Lower tariffs or plans may be offered, but the conditions of these, which protect and provide due guarantees to the user from those in dominant positions in the market, must be regulated by the respective authority."

The Official Gazette of February 26, 2004, published Decree No. 742, of December 24, 2003, issued by the Ministry of Transport and Telecommunications, which establishes the regulations that govern, without restrictions as to levels or structure, the conditions under which various plans and joint offers can be offered by the dominant operators of the local telephone public service.

Tariff flexibility allows Telefónica CTC Chile to offer its customers diverse commercial plans other than the regulated plan, stipulated by the authority, in accordance with the conditions so defined for that purpose by the respective authority.

Telefónica CTC Chile started offering alternatives to the regulated plan in order to adapt to customer's needs.

Mobile Telephony Tariff Decree

Decree No. 97 is in effect as of February 12, 1999. It establishes maximum tariffs for Telefónica Móvil S.A for interconnection services, including mobile access charges, for a period of five years, which expired on February 12, 2004.

On July 25, 2003, Telefónica Móvil de Chile S.A. presented the Tariff Study to set the tariffs for services subject to regulation.

On January 20, 2004, the Ministries, by means of a decree set the levels, structure and indexation mechanisms of the services subject to tariff setting. That decree was submitted for acceptance by the Chilean General Comptroller, together with the supporting report.

On April 12, 2004, the Chilean General Comptroller accepted the decrees that set the tariffs for access charges for mobile telephony companies. The tariff decrees were published in the Official Gazette of April 14, 2004.

Modifications to the Regulatory Framework

Telephone attention of complaints and gratuity of communications destined to emergency services

Decree No. 590 of the Ministry of Transportation and Telecommunications mandated free access for communications destined to levels of emergency services 131, 132 and 133 and communications

destined to emergency services are exempt from service disconnection; the obligation of the telephone companies to attend to complaints through the telephone is established and a new 105 number for special services is created to his purpose. In this respect, Telefónica CTC Chile had already incorporated the gratuity of those communications as of May 6, 2004 based on the coming into force of tariff decree No. 169 and, in turn, attention of claims by telephone had been established since the end of 2000 through its special 107 number. In terms of enabling emergency communications from lines subject to service disconnection, Telefónica CTC Chile provided this service on lines connected to exchanges that had the capacity and functionality to maintain access to emergency services even when service is cut off due to subscriber delinquency.

New format of Single Telephone Bill.

Decree No. 510 of the Ministry of Transportation and Telecommunications establishes the minimum contents and other elements of the Single Telephone Bill and sets a period of 120 days which expires on April 6, 2005 to apply the dispositions established in the mentioned decree.

Technical Standard that classifies complementary services into categories.

Through Exempt Resolution No. 1319, of October 6, 2004, the Undersecretary of Telecommunications (Subtel) established supplementary services categories and assigned numbers to the respective categories of complementary services to which users can access through the public telephone network.

Public consultation regarding regulatory projects.

In July and August, Subtel initiated a process of public inquiries with the operators in the telecommunications sector for regulatory proposals for Network Unbundling and IP Telephony, respectively.

The Network Unbundling proposal (that was subjected to a new public inquiry in December), defines the services, their operating conditions and adds new services that modify the conditions already defined in the tariff decree, defining new obligations which renders additional burdens to companies subject to network unbundling (obligation to invest, new rights to clients, discrimination in the obligations according to the technology used, etc.). Additionally, the obligation of resale is established for mobile companies and the resale conditions are regulated for wholesalers of alternative tariff plans offered by Telefónica CTC Chile. The Company participated in the mentioned public inquiries making their observations and formulating their legal objections, emphasizing that the majority proposals are a matter of law and not a matter of resolution, while other aspects of the regulatory proposal could not even be addressed as a law since they affect the rights that are guaranteed by the Chilean Constitution.

The proposal for IP Telephony defines a special type of telephony over broadband, which is provided over existing infrastructure and with lower regulatory requirements than traditional telephony (for example: the multicarrier system for domestic long distance is not applied). This discriminates traditional local operators, for which different conditions apply for the same service. The company along with other operators presented its observations and legal objections to the proposal, considering it among others, discriminatory as well as inhibits investment in new infrastructure and broadband.

As of January 31, 2005, Subtel has not ruled on the comments and legal objections by Telefónica CTC Chile and the other companies, nor has it issued final regulations.

Lawsuit against the State of Chile

On October 31, 2001, Telefónica CTC Chile, seeking to correct errors in Tariff Decree No. 187 of 1999, filed a motion for reconsideration with the Ministries requesting corrections to the 1999 Tariff

Decree No. 187. On January 29, 2002, the Ministries issued a joint rejection of this request, explaining that "having carefully evaluated, only the feasibility and timeliness of the petition made, considering the set of circumstances in the problem and the prudence that must orient public actions", and that the rejection "has had no other motivation than to protect the general interest and progress of the telecommunications services".

Having exhausted all administrative remedies aimed at correcting the illegal actions taken in the tariff-setting process of May 1999, in March 2002, Telefónica CTC Chile filed lawsuit for the damages against the Government in the

amount of Ch\$ 181,038,411,056 plus readjustments and interest, covering past and future damages incurred up to May 2004.

Proceedings are currently underway and expert reports have been presented on various aspects of the case supporting the position held by Telefónica CTC Chile.

9. ANALYSIS OF THE MARKETS, COMPETITION AND RELATIVE PARTICIPATION

Relevant aspects of the industry.

During 2004, the Telecommunications industry maintained the dynamism that characterizes it, with important events such as mergers and acquisitions and the constant changes in consumer choices for telecommunications services .

It is estimated that lines in service during 2004 reached 3.3 million reflecting a 2% increase in respect to the same period last year, likewise, voice services show annual variations of approximately -5% in local, -9.4% in DLD and -0.1% in ILD.

It is estimated that in 2004 the mobile telephony market reached a total of 9.5 million subscribers, which represents accumulated growth in the order of 28% as of December 2004.

During 2004, the Internet market shows a migration from narrowband with a total of 6,415 million minutes and a 42% increase in the Broadband market which, as of December 2004, reaches 506 thousand accesses, 53% using ADSL.

Relevant aspects in the competitive arena.

Telefónica Móviles S.A. (TEM) acquires the assets of Bellsouth in Latin America and the mobile subsidiary of Telefónica CTC Chile.

On March 8, 2004, Telefónica Móviles S.A. announced a purchase agreement for the assets of Bellsouth Corporation in Latin America. This agreement includes Bellsouth's mobile operations in Chile which operates on a 25 Mhz spectrum in the 800 Mhz band with TDMA and 10 Mhz in the 1900 Mhz band with CDMA.

On May 18, 2004, the Board of Directors of Telefónica CTC Chile unanimously approved the offer made by Telefónica Móviles S.A., to purchase 100% of the mobile subsidiary of Telefónica CTC Chile, subject to the approval of the Shareholders' Meeting.

On July 15, 2004, the Shareholders' Meeting was held to decide on the sale of the mobile subsidiary of Telefónica CTC Chile, in which the shareholders made a counteroffer that meant that Telefónica Móviles S.A had to assume payment of the taxes derived from the operation.

On July 23, 2004, the sales contract was signed for all the shares of the subsidiary; with which, Telefónica CTC Chile no longer participates in the mobile business.

2004, signed with Bellsouth Corporation, through which it acquires all the telephone assets of the latter within Central and South America, among which is its indirect participation in 100% of Bellsouth Chile S.A., current mobile telephone operator in the Chilean market.

On January 4, 2005 the Antitrust Commission approved the consultation of Telefónica Móviles S.A., subsidiary of Telefónica S.A., setting a series of conditions for the merger. One of these conditions directly affects Telefónica CTC Chile, establishing that, all joint offers for regular and mobile telephone services, commercialized by the merged company and which considers regular telephone services provided by Telefónica CTC Chile, will be understood as a joint offer made by Telefónica CTC Chile and therefore must be regulated by Decree No. 742 of the Undersecretary of Telecommunications of Chile, published on February 26, 2004.

Telmex enters the domestic market with the purchase of AT&T LA and Chilesat.

In April 2003, AT&T Latin America, owner of AT&T Chile, filed to reorganize its operations Chapter 11 of the Bankruptcy Law of the United States. This process derived in a private auction in October 2003 which was granted to Telmex who take over the operation in the first quarter of 2004. At the end of April 2004, Telmex announced the acquisition of Chilesat Corp (third long distance operator), which was completed in June 2004. After the operation Telmex owns 99% of Chilesat; beginning the integration of the operations of the acquired companies.

Liberty Media takes control of United Global Com, Head Office of VTR.

On January 5, 2004 Liberty Media, owner of 50% of Metrópolis Intercom in association with the Claro Group, announced the takeover of the management of United Global Com, owner of 100% of VTR Chile. After that operation, Liberty requested the Antitrust Commission analyze the possibility of merging VTR and Metrópolis Intercom. Both companies concentrate 98% of the Cable TV market in Chile (over 90% in Pay TV) and are relevant competitors in the broadband market providing cable modem. Likewise, VTR is the second operator of local telephone services in the country.

On June 9, 2004 the National Economic Attorney General's Office issued its report to the Antitrust Commission recommending the authorization of the merger subject to compliance with a series of restrictions.

On October 25, 2004, the Antitrust Commission resolved to approve the merger of VTR and Metrópolis Intercom, requiring certain conditions, of distribution of contents, prices and quality of service and opening of cable network broadband to other ISP. These conditions are applied to ensure development of effective competition in the pay TV market in the short-term.

Operators double Broadband speed at the same price.

On September 24, 2004, Telefónica CTC Chile announced it would double the connection speed for all its broadband customer, maintaining the same prices. This commercial offer was subsequently followed by the other operators.

Analysis of relative market share

Local Telephone Service.

This market contemplates providing local telephone services inside the primary areas, interconnection with other telecommunications companies and other unregulated local telephone services. Concessions granted by the

Undersecretary of Telecommunications and the Ministry of Transport and Telecommunications (Subtel) are the entry barriers to this industry.

The fixed telephony segment is comprised of eight urban and three rural companies operating under license. Market penetration in terms of lines in service stood at 20.8 per 100 inhabitants at December 2004, a slight increase compared to 20.5% in 2003.

21

Management Discussion and Analysis of the Consolidated Financial Statements (Continued)

Long Distance.

This market contemplates communications services between primary areas (DLD) and international communications (ILD), also known as intermediate services.

On March 9, 1994 Law No. 19,302 came into effect. It establishes the application of a multicarrier system for domestic and international long distance. This law allows local telephone operators to participate in the long distance market through an independent subsidiary subject to a series of requirements.

In this market there are currently 15 companies operating with 18 carrier codes. Traffic in the DLD market, through fixed telephone lines recorded a drop estimated at 12.2% in the fourth quarter of 2004 compared to the fourth quarter of 2003. In the same period a decrease of 4.5% of market ILD traffic is estimated. In the year end 2004, Telefónica CTC Chile, through its subsidiaries Telefónica Mundo 188 and Globus 120, reached an estimated 45.2% market share in domestic long distance and 30.0% in outgoing international long distance. Likewise, in annual terms, Telefónica CTC Chile reached an estimated market share of 44.4% in domestic long distance and 31.2% in outgoing international long distance.

Corporate Communications.

This business area provides circuit and data services (Datared, E1, ATM, Frame Relay), IP network solutions, Hosting, ASP and advanced telecommunications solutions for companies with Internet service providers (ISPs). Likewise includes commercialization of advanced equipment (multiple lines and PABx, among others).

In this business Telefónica CTC Chile competes with 8 companies in the private services arena and in the hosting business with at least 10 companies, reaching a market share of revenues of approximately 47% as of the third quarter of 2004, including sales of advanced equipment to companies.

Mobile Communications.

Provides mobile communication services (cellular telephones, pagers, trunking and wireless data transmission). There are four mobile telephone operators, one smaller operator of mobile satellite communications and one operator that offers digital trunking which is authorized to interconnect to the public mobile network.

Telefónica CTC Chile stopped offering mobile telephone services in July 2004. It currently maintains the relationship with this sector through incoming and outgoing local telephone network services. Fixed-mobile traffic from January to December 2004 has stayed at a similar level as the same period last year, with an upward trend since the second half

of 2004, mainly due to the 27% decrease in access charges to mobile networks and the increase in mobile telephone subscribers. On the contrary, mobile-fixed traffic increased by +9% between both years.

Pay TV.

The pay television market is composed of two main competitors in a merger process (VTR and Metrópolis Intercom) who jointly have over 90% of the Pay TV market with 764,946 connections as of September 2004, two satellite TV operators and close to 20 Cable TV operators in specific areas, which altogether do not exceed 4% of the market share.

Internet Access.

In this market there are currently approximately 35 ISPs operating effectively, with three of these concentrating 82% of switchboard traffic. IP traffic (switchboard) accumulated from January to December 2004 in the network of Telefónica CTC Chile reached the order of 6,415 million minutes with a 23% drop with respect to the same period in 2003, mainly due to migration of users to broadband.

22

Management Discussion and Analysis of the Consolidated Financial Statements (Continued)

Telefónica CTC Chile continues with an intensive deployment of Internet access through ADSL broadband, directly to the customer and through a wholesale model in the ISP industry. As of December 2004, Telefónica CTC Chile broadband connections in service reached 200,794 with a growth of 60% in respect to December 2003, achieving an estimated broadband market share of 40% (considering speeds equal to or exceeding 128 kbps).

Other Businesses.

Comprises the Public Telephone market, in which Telefónica CTC Chile participates through its subsidiary CTC Equipos. There are seven nationwide companies of which CTC Equipos, as of December 2004 has approximately 25% market share considering 10,288 public telephones. Additionally, Telefónica CTC Chile has another 17,991 community telephones installed.

On November 20, 2001 a new subsidiary was formed to commercialize and install security and monitoring systems for residential and corporate customers, providing surveillance services and any other service relating to the above. As of September 2004 it is estimated that Telefónica CTC Chile has a market share of 30% in this service.

10. ANALYSIS OF MARKET RISK

Financial Risk Coverage

With the attractive interest rates in certain periods, the Company has obtained financing abroad, denominated primarily in dollars and euros and in certain cases, at a variable interest rate. For this reason the Company is exposed to two types of financial risks, the risk of exchange rate fluctuations and the risk of interest rate fluctuations.

Financial risk due to foreign currency fluctuations

The Company has exchange rate hedging instruments, the purpose of reducing the negative impact of the dollar and euro fluctuations on its results. The percentage of interest bearing debt exposure is defined and continuously reviewed, basically considering the volatility of the exchange rate, its trend, and the cost and availability of hedging instruments for different terms.

The main hedging instruments used are dollar/UF and dollar/peso exchange instruments.

As of December 31, 2004, total interest bearing debt was US\$ 1,086.8 million, including US\$ 731.0 million in financial liabilities in dollars, US\$ 259.9 million in debt denominated in "unidades de fomento" and US\$ 95.8 million of debt in Chilean pesos. In this manner US\$ 731.0 million corresponded to debt exposed to foreign currencies and therefore directly or indirectly exposed to the variations of the dollar.

Simultaneously, the Company had dollar/UF, dollar/peso exchange insurance and assets in dollars that resulted, (at the end of the fourth quarter of 2004), in exposure to foreign exchange, close to 0%.

Financial risk due to floating interest rate fluctuations

The policy for hedging interest rates seeks to reduce the negative impact on financial expenses due to increases in interest rate.

As of December 31, 2004, the Company had debts at variable interest rates, Libor, Euro Libor and TAB mainly for syndicated loans.

To protect the Company from increases in the variable (floating) interest rates, derivative financial instruments have been used, particularly Forward Rate Agreements (which protect the Libor rate), to limit the future fluctuations of interest rates. As of December 31, 2004 this has allowed the Company to end with an exposure of 70% of total interest bearing debt.
