PERFORMANCE DATA QUOTED REPRESENTS PAST PERFORMANCE, WHICH IS NO GUARANTEE OF FUTURE RESULTS, AND CURRENT PERFORMANCE MAY BE LOWER OR HIGHER THAN THE FIGURES SHOWN. FOR THE MOST RECENT MONTH-END PERFORMANCE FIGURES, PLEASE VISIT VANKAMPEN.COM OR SPEAK WITH YOUR FINANCIAL ADVISOR. INVESTMENT RETURNS AND PRINCIPAL VALUE WILL FLUCTUATE AND TRUST SHARES, WHEN REDEEMED, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST.

The NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the trust at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions. Total return assumes an investment at the beginning of the period, reinvestment of all distributions for the period in accordance with the trust's dividend reinvestment plan, and sale of all shares at the end of the period.

Trust Report

# Edgar Filing: VAN KAMPEN SENIOR INCOME TRUST - Form N-CSRS

FOR THE SIX-MONTH PERIOD ENDED JANUARY 31, 2005

Van Kampen Senior Income Trust is managed by the Adviser's Senior Loans team, led by Howard Tiffen, Managing Director of the Adviser. (1)

## MARKET OVERVIEW

The semiannual period ended January 31, 2005 saw a continuation of the favorable backdrop for the senior-loan market that has prevailed for much of the last two years. The economy maintained a path of healthy growth, inflation remained modest, and the long-awaited increase in long-term interest rates failed to materialize. All of these factors continued to support corporate financial performance, which has been further aided by the strides in efficiency many companies made over the past several years in response to an increasingly competitive environment. The significant decline of the U.S. dollar over the last two-plus years has provided an additional boost to the competitiveness of many of the companies that underlie the senior loan market, as a weaker dollar makes foreign goods more expensive to U.S. consumers and U.S. exports of manufactured goods more competitive. The end result of strong corporate profitability has been improving credit quality, which has supported the senior-loan market's performance.

Yield spreads in the senior-loan market began the semiannual period near historical lows and remained there throughout the period. These narrow spreads continued to allow a greater range of companies to access the senior-loan market at very favorable terms. At the same time, an expanding array of institutional investors has been attracted to the asset class in view of its improved credit quality, which has been reflected in significantly lower default rates. In fact, while senior loans have traditionally been considered somewhat speculative, there is growing appreciation of the asset class' defensive characteristics. As a result, demand for and inflows into senior loans remained strong, and investors readily absorbed the healthy supply of new issues that came to market during the period. In both the primary and secondary markets, demand has continued to outstrip supply, which has supported the continued narrowing of spreads.

## PERFORMANCE ANALYSIS

A closed-end fund's return can be calculated either upon the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of shares outstanding, while market price reflects the supply and demand for the shares. As a result, the two returns can differ significantly, as they did during the reporting period.

For the six months ended January 31, 2005, the trust returned -0.21 percent on a market price basis, and 3.05 percent on an NAV basis.

## Edgar Filing: VAN KAMPEN SENIOR INCOME TRUST - Form N-CSRS

We believe that the trust's performance over the period reflects the resources we have dedicated to performing fundamental research and analysis on the companies held in the portfolio. We continue to focus on identifying those companies that exhibit strong management, solid and predictable cash flows, and collateral that is sufficient to provide a healthy backstop in the event of default.

In addition to a strong focus on fundamental company analysis, we continued to maintain a high level of diversification in the trust's portfolio during the period in order to minimize the risk of over-concentration in any one sector or security. We follow a bottom-up security-selection process and generally do not practice sector rotation. However, we will move to limit the portfolio's exposure to certain industries facing ongoing challenges. For example, we continued to minimize the trust's exposure to the auto industry during the period. We believe that as that industry continues the process of sorting out the winners from the losers, the risks to auto manufacturers and their suppliers dictate a cautious approach. We have followed a similar path in telecommunications, which is experiencing ongoing problems with overcapacity. In addition, within the healthcare sector, we have avoided exposure to companies which rely on Medicare reimbursement rates for revenues. Federal budget constraints put at risk the maintenance of existing reimbursement rates.

The trust also continued to benefit during the period from our use of leverage. This strategy involves borrowing at a short-term lending rate such as LIBOR and reinvesting the proceeds at a spread above that rate. We use leverage on an ongoing basis in an effort to enhance the trust's dividend, as it did during the reporting period. Unlike with other fixed-income asset classes, using this strategy in conjunction with a portfolio of senior loans does not involve risk from rising short-term interest rates, since the income from senior loans adjusts in tandem with rates that determine our borrowing costs. We are likely to reduce leverage in periods of weaker credit quality conditions to prevent magnifying erosion of the trust's net asset value.

3

Looking ahead, while growth in corporate profits is showing signs of slowing, we believe profitability and pricing power for the borrowers that underlie the senior loan market may remain strong. As a result, we expect these companies will potentially be able to continue to generate free cash-flow and that credit quality will not deteriorate in any meaningful way. For these reasons, we believe the environment for senior loans may continue to be quite favorable in the coming months. We will continue to pursue a disciplined investment approach, that seeks to balance attractive yields with a relatively stable net asset value for the trust.

There is no guarantee that any securities will continue to perform well or be held by the trust in the future.

in its semiannual and annual reports within 60 days of the end of the trust's second and fourth fiscal quarters by filing the schedule electronically with the Securities and Exchange Commission (SEC). The semiannual reports are filed on Form N-CSRS and the annual reports are filed on Form N-CSR. Van Kampen also delivers the semiannual and annual reports to trust shareholders, and makes these reports available on its public web site, [www.vankampen.com](http://www.vankampen.com). In addition to the semiannual and annual reports that Van Kampen delivers to shareholders and makes available through the Van Kampen public web site, each trust files a complete schedule of portfolio holdings with the SEC for the trust's first and third fiscal quarters on Form N-Q. Van Kampen does not deliver the reports for the first and third fiscal quarters to shareholders, nor are the reports posted to the Van Kampen public web site. You may, however, obtain the Form N-Q filings (as well as the Form N-CSR and N-CSRS filings) by accessing the SEC's web site, <http://www.sec.gov>. You may also review and copy them at the SEC's Public Reference Room in Washington, DC. Information on the operation of the SEC's Public Reference Room may be obtained by calling the SEC at 1-800-SEC-0330. You can also request copies of these materials, upon payment of a duplicating fee, by electronic request at the SEC's e-mail address ([publicinfo@sec.gov](mailto:publicinfo@sec.gov)) or by writing the Public Reference section of the SEC, Washington, DC 20549-0102.

In addition to filing a complete schedule of portfolio holdings with the SEC each fiscal quarter, each Van Kampen trust makes portfolio holdings information available by periodically providing the information on its public web site, [www.vankampen.com](http://www.vankampen.com). Each Van Kampen trust provides a complete schedule of portfolio holdings on the public web site on a calendar-quarter basis approximately 30 days after the close of the calendar quarter. Van Kampen closed-end funds do not presently provide partial lists of their portfolio holdings on a monthly basis, but may do so in the future.

You may obtain copies of a trust's fiscal quarter filings, or its monthly or calendar-quarter web site postings, by contacting Van Kampen Client Relations at 1-800-847-2424.

### INVESTMENT POLICY CHANGES

At a meeting held March 2 and March 3, 2005 the Board of Trustees approved a change to the Trust's respective investment policies regarding the current investment requirements for senior notes. The changes modify the current limitation on senior notes. Such modification allows investments in senior notes provided that senior notes represent the only form of senior debt financing in the borrower's capital structure or enjoy a *par passu* position with other senior loans in the borrower's

capital structure with respect to collateral only and not with respect to the other covenants and terms.

PORTFOLIO OF INVESTMENTS -- JANUARY 31, 2005 (UNAUDITED) continued

(b) 144A Securities are those which are exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These securities may only be resold in transactions exempt from registration which are normally transactions with qualified institutional buyers.

(c) This borrower has filed for protection in federal bankruptcy court.

Edgar Filing: VAN KAMPEN SENIOR INCOME TRUST - Form N-CSRS

- (d) Affiliated company. See Notes to Financial Statements.
- (e) Non-income producing security as this stock or warrant currently does not declare dividends.
- (f) Restricted Security. Securities were acquired through the restructuring of senior loans. These securities are restricted as they are not allowed to be deposited via the Depository Trust Company. If at a later point in time, the company wishes to register, the issuer will bear the costs associated with registration. The aggregate value of restricted securities represents 0.27% of the net assets applicable to common shares of the Trust.
- (g) The borrower is in the process of restructuring or amending the terms of this loan.
- (h) Variable rate security. Interest rate shown is that in effect at January 31, 2005.
- (i) All or a portion of this security is designated in connection with unfunded loan commitments.
- (j) This borrower is currently in liquidation.
- (k) Payment-in-kind security.
- \* Senior Loans in the Trust's portfolio generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a Borrower to prepay, prepayments of Senior Loans in the Trust's portfolio may occur. As a result, the actual remaining maturity of Senior Loans held in the Trust's portfolio may be substantially less than the stated maturities shown. Although the Trust is unable to accurately estimate the actual remaining maturity of individual Senior Loans, the Trust estimates that the actual average maturity of the Senior Loans held in its portfolio will be approximately 18-24 months.
- \*\* Senior Loans in which the Trust invests generally pay interest at rates which are periodically redetermined by reference to a base lending rate plus a premium. These base lending rates are generally (i) the lending rate offered by one or more major European banks, such as the London Inter-Bank Offered Rate ("LIBOR"), (ii) the prime rate offered by one or more major United States banks and (iii) the certificate of deposit rate. The interest rates shown are those in effect on January 31, 2005. Senior Loans are generally considered to be restricted in that the Trust ordinarily is contractually obligated to receive approval from the Agent Bank and/or Borrower prior to the disposition of a Senior Loan.

\* If certain expenses had not been voluntarily assumed by Van Kampen, total return would have been lower and the Ratio of Operating Expenses to Average Net Assets, Ratio of Gross Expenses to Average Net Assets and the Ratio of Net Investment Income to Average Net Assets would have been 1.21%, 1.49% and 6.90% for the period ended July 31, 1998.

\*\* Non-Annualized

(a) Net asset value on June 24, 1998 of \$10.00 is adjusted for common share offering costs of \$.013.

(b) Total return based on common share market price assumes an investment at the common share market price at the beginning of the period indicated, reinvestment of all distributions for the period in accordance with the Trust's dividend reinvestment plan, and sale of all shares at the closing common share market price at the end of the period indicated.

(c) Calculation includes the proceeds from principal repayments and sales of variable rate senior loan interests.

(d) Calculated by subtracting the Trust's total liabilities (not including the Borrowings) from the Trust's total assets and dividing by the total number of senior indebtedness units, where one unit equals \$1,000 of senior indebtedness.

(e) As required, effective August 1, 2001, the Trust has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began amortizing premium on fixed income securities. The effect of this change for the year ended July 31, 2002 was to decrease the ratio of net investment income to average net asset applicable to common shares by .01%. Net investment income per share and net realized and unrealized gains and losses per share were unaffected by the adjustments. Per share, ratios and supplemental data for the periods prior to July 31, 2002 have not been restated to reflect this change in presentation.

(f) Ratios do not reflect the effect of distributions to preferred shareholders.

(g) Ratios reflect the effect of distributions to preferred shareholders.

(h) Calculated by subtracting the Trust's total liabilities (not including the preferred shares) from the Trust's total assets and dividing this by the number of preferred shares outstanding.

VAN KAMPEN SENIOR INCOME TRUST

NOTES TO FINANCIAL STATEMENTS -- JANUARY 31, 2005 (UNAUDITED)

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Senior Income Trust (the "Trust") is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Trust's investment objective is to provide a high level of current income, consistent with preservation of capital. The Trust seeks to

## Edgar Filing: VAN KAMPEN SENIOR INCOME TRUST - Form N-CSRS

achieve its objective by investing primarily in a portfolio of interests in floating or variable rate senior loans to corporations, partnerships and other entities which operate in a variety of industries and geographical regions. The Trust borrows money for investment purposes which will create the opportunity for enhanced return, but also should be considered a speculative technique and may increase the Trust's volatility. The Trust commenced investment operations on June 24, 1998.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION The Trust's Senior Loans are valued by the Trust following valuation guidelines established and periodically reviewed by the Trust's Board of Trustees. Under the valuation guidelines, Senior Loans for which reliable market quotes are readily available are valued at the mean of such bid and ask quotes. Where reliable market quotes are not readily available, Senior Loans are valued, where possible, using independent market indicators provided by independent pricing sources approved by the Board of Trustees. Other Senior Loans are valued by independent pricing sources approved by the Board of Trustees based upon pricing models developed, maintained and operated by those pricing sources or valued by Van Kampen Asset Management (the "Adviser") by considering a number of factors including consideration of market indicators, transactions in instruments which the Adviser believes may be comparable (including comparable credit quality, interest rate, interest rate redetermination period and maturity), the credit worthiness of the Borrower, the current interest rate, the period until next interest rate redetermination and the maturity of such Senior Loan. Consideration of comparable instruments may include commercial paper, negotiable certificates of deposit and short-term variable rate securities which have adjustment periods comparable to the Senior Loans in the Trust's portfolio. The fair value of Senior Loans are reviewed and approved by the Trust's Valuation Committee and the Board of Trustees.

Equity securities are valued on the basis of prices furnished by pricing services or as determined in good faith by the Adviser under the direction of the Board of Trustees.

Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value. Short-term loan participations are valued at cost in the absence of any indication of impairment.

The Trust may invest in repurchase agreements, which are short-term investments in which the Trust acquires ownership of a debt security and the seller agrees to repurchase the security at a future time and specified price. Repurchase agreements are fully collateralized by the underlying debt security. The Trust will make payment for such securities only upon physical delivery or evidence of book entry transfer to the account of the custodian bank.

The seller is required to maintain the value of the underlying security at not

Edgar Filing: VAN KAMPEN SENIOR INCOME TRUST - Form N-CSRS

less than the repurchase proceeds due the Trust.

B. SECURITY TRANSACTIONS Investment transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. Legal expenditures that are expected to result in the restructuring of or a plan of reorganization for an investment are recorded as realized losses.

C. INVESTMENT INCOME Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Facility fees received are treated as market discounts. Market premiums are amortized and discounts are accreted over the stated life of each applicable senior loan, note, or other fixed income security. Other income is comprised primarily of amendment fees which are recorded when received. Amendment fees are earned as compensation for agreeing to changes in loan agreements.

D. FEDERAL INCOME TAXES It is the Trust's policy to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

The Trust intends to utilize provisions of the federal income tax laws which allow it to carry a realized capital loss forward for eight years following the year of the loss and offset such losses against any future realized capital gains. At July 31, 2004, the Trust had an accumulated capital loss carryforward for tax purposes of \$209,217,198, which will expire according to the following schedule.

AMOUNT	EXPIRATION
\$ 4,851,995.....	July 31, 2009
122,716,095.....	July 31, 2010
52,014,750.....	July 31, 2011
29,634,358.....	July 31, 2012

At January 31, 2005, the cost and related gross unrealized appreciation and depreciation are as follows:

Cost of investments for tax purposes.....	\$2,784,943,950
	=====
Gross tax unrealized appreciation.....	\$ 54,941,542
Gross tax unrealized depreciation.....	(62,609,162)
	-----
Net tax unrealized depreciation on investments.....	\$ ( 7,667,620)
	=====

E. DISTRIBUTION OF INCOME AND GAINS The Trust intends to declare and pay monthly dividends from net investment income to common shareholders. Net realized gains, if any, are to be distributed at least annually to common shareholders. Distributions from net realized gains for book purposes may include short term capital gains, which are included as ordinary income for tax purposes.

# Edgar Filing: VAN KAMPEN SENIOR INCOME TRUST - Form N-CSRS

NOTES TO FINANCIAL STATEMENTS -- JANUARY 31, 2005 (UNAUDITED) continued

The tax character of distributions paid for the year ended July 31, 2004 was as follows:

Distributions paid from:	
Ordinary income.....	\$75,570,307
Long-term capital gain.....	-0-
	-----
	\$75,570,307
	=====

As of July 31, 2004, the components of distributable earnings on a tax basis were as follows:

Undistributed ordinary income.....	\$1,498,215
------------------------------------	-------------

Net realized gains and losses may differ for financial and tax reporting purposes primarily as a result of the deferral of losses resulting from wash sale transactions.

## 2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Trust's Investment Advisory Agreement, the Adviser will provide investment advice and facilities to the Trust for an annual fee of .85% of the average daily managed assets. Managed assets are defined as the gross asset value of the Trust minus the sum of accrued liabilities, other than the aggregate amount of borrowings undertaken by the Trust. In addition, the Trust will pay a monthly administrative fee to Van Kampen Investments Inc., the Trust's Administrator, at an annual rate of .20% of the average daily managed assets of the Trust. The administrative services provided by the Administrator include monitoring the provisions of the loan agreements and any agreements with respect to participations and assignments, record keeping responsibilities with respect to interests in Variable Rate Senior Loans in the Trust's portfolio and providing certain services to the holders of the Trust's securities.

For the six months ended January 31, 2005, the Trust recognized expenses of approximately \$52,600 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom LLP, counsel to the Trust, of which a trustee of the Trust is a partner of such firm and he and his law firm provide legal services as legal counsel to the Trust.

Under a Legal Services agreement, the Adviser provides legal services to the Trust. The Adviser allocates the cost of such services to each Trust. For the six months ended January 31, 2005, the Trust recognized expenses of approximately \$47,700 representing Van Kampen Investments Inc.'s or its affiliates' (collectively "Van Kampen") cost of providing legal services to the Trust, which are reported as "Legal" expenses in the Statement of Operations.

Certain officers and trustees of the Trust are also officers and directors of Van Kampen. The Trust does not compensate its officers or trustees who are also officers of Van Kampen.

The Trust provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a

## Edgar Filing: VAN KAMPEN SENIOR INCOME TRUST - Form N-CSRS

later date. Benefits under the retirement plan are payable for a ten-year period and are based upon each trustee's years of service to the Trust. The maximum annual benefit per trustee under the plan is \$2,500.

### 3. INVESTMENT TRANSACTIONS

During the period, the costs of purchases and proceeds from investments sold and repaid, excluding short-term investments, were \$1,413,699,787 and \$1,352,461,403, respectively.

### 4. COMMITMENTS

Pursuant to the terms of certain of the Variable Rate Senior Loan agreements, the Trust had unfunded loan commitments of approximately \$175,644,025 as of January 31, 2005. The Trust intends to reserve against such contingent

## Edgar Filing: VAN KAMPEN SENIOR INCOME TRUST - Form N-CSRS

obligations by segregating cash, liquid securities and liquid Senior Loans as a reserve.

### 5. SENIOR LOAN PARTICIPATION COMMITMENTS

The Trust invests primarily in participations, assignments, or acts as a party to the primary lending syndicate of a Variable Rate Senior Loan interest to United States and foreign corporations, partnerships, and other entities. When the Trust purchases a participation of a Senior Loan interest, the Trust typically enters into a contractual agreement with the lender or other third party selling the participation, but not with the borrower directly. As such, the Trust assumes the credit risk of the borrower, selling participant or other persons interpositioned between the Trust and the borrower.

At January 31, 2005, the following sets forth the selling participants with respect to interests in Senior Loans purchased by the Trust on a participation basis.

SELLING PARTICIPANT	PRINCIPAL AMOUNT (000)	VALUE (000)
Bank of America.....	\$4,100	\$4,121

### 6. BORROWINGS

As of April 29, 2004, the shareholders approved amending the Trust's fundamental investment restriction regarding the Trust's use of financial leverage. The Trust is now able to utilize financial leverage to the maximum extent allowable under the Investment Company Act of 1940, as amended. Under the 1940 Act, a fund generally may not (i) borrow money greater than 33 1/3% of the fund's total assets or (ii) issue preferred shares greater than 50% of the fund's total assets. In using a combination of borrowing money and issuing preferred shares, the maximum allowable leverage is somewhere between 33 1/3% and 50% (but in no event more than 50%) of the Fund's total assets based on the relative amounts borrowed or preferred shares issued.

The Trust has entered into a \$700 million revolving credit and security agreement. Annual commitment fees of .13% are charged on the unused portion of the credit line. This revolving credit agreement is secured by the assets of the Trust. For the six months ended January 31, 2005, the average daily balance of borrowings under the revolving credit agreement was \$491,114,130 with a weighted average interest rate of 1.94%.

### 7. PREFERRED SHARES ISSUANCE

As of February 20, 2004, the Trust issued 5,600 shares each of Series M, Series T, Series W, Series TH and Series F Auction Preferred Shares ("APS"), \$.01 Par Value, \$25,000 liquidation Preference, for a total issuance of \$700 million. Dividends are cumulative and the dividend rates are generally reset every seven days through an auction process. The average rate in effect on January 31, 2005 was 2.44%. During the six months ended January 31, 2005, the rates ranged from

## Edgar Filing: VAN KAMPEN SENIOR INCOME TRUST - Form N-CSRS

1.49% to 2.91%.

The Trust pays annual fees equivalent to .25% of the preferred share liquidation value for the remarketing efforts associated with the preferred auctions. These fees are included as a component of the "Preferred Share Maintenance" expense in the Statement of Operations.

The APS are redeemable at the option of the Trust in whole or in part at the liquidation value of \$25,000 per share plus accumulated and unpaid dividends. The Trust is subject to certain asset coverage tests and the APS are subject to mandatory redemption if the tests are not met.

### 8. INDEMNIFICATIONS

The Trust enters into contracts that contain a variety of indemnifications. The Trust's maximum exposure under these arrangements is unknown. However, the Trust has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.
