ITEM 1. REPORTS TO SHAREHOLDERS.

The Fund's semi-annual report transmitted to shareholders pursuant to Rule 30e-1 under the Investment Company Act of 1940 is as follows:

Welcome, Shareholder

In this report, you'll learn about how your investment in Van Kampen Bond Fund performed during the semiannual period. The portfolio management team will provide an overview of the market conditions and discuss some of the factors that affected investment performance during the reporting period. In addition, this report includes the fund's financial statements and a list of fund investments as of December 31, 2005.

MARKET FORECASTS PROVIDED IN THIS REPORT MAY NOT NECESSARILY COME TO PASS. THERE IS NO ASSURANCE THAT THE FUND WILL ACHIEVE ITS INVESTMENT OBJECTIVE. FUNDS ARE SUBJECT TO MARKET RISK, WHICH IS THE POSSIBILITY THAT THE MARKET VALUES OF SECURITIES OWNED BY THE FUND WILL DECLINE AND THAT THE VALUE OF THE FUND SHARES MAY THEREFORE BE LESS THAN WHAT YOU PAID FOR THEM. ACCORDINGLY, YOU CAN LOSE MONEY INVESTING IN THIS FUND.

PERFORMANCE DATA QUOTED REPRESENTS PAST PERFORMANCE, WHICH IS NO GUARANTEE OF FUTURE RESULTS, AND CURRENT PERFORMANCE MAY BE LOWER OR HIGHER THAN THE FIGURES SHOWN. FOR THE MOST RECENT MONTH-END PERFORMANCE FIGURES, PLEASE VISIT VANKAMPEN.COM OR SPEAK WITH YOUR FINANCIAL ADVISOR. INVESTMENT RETURNS, NET ASSET VALUE (NAV) AND COMMON SHARE MARKET PRICE WILL FLUCTUATE AND FUND SHARES, WHEN SOLD, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST.

The NAV per share is determined by dividing the value of the fund's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the fund at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions. Total return assumes an investment at the beginning of the period, reinvestment of all distributions for the period in accordance with the fund's dividend reinvestment plan, and sale of all shares at the end of the period.

The Lehman Brothers BBB Corporate Bond Index is generally representative of corporate bonds. The index does not include any expenses, fees or sales charges, which would lower performance. The index is unmanaged and should not be considered an investment. It is not possible to invest directly in an index.

MARKET CONDITIONS

As was widely anticipated, the Federal Open Market Committee (the Fed) continued to raise the federal funds target rate during the reporting period. At each of its meetings in the second half of 2005, the Fed raised the benchmark overnight rate by 25 basis points, bringing it to 4.25 percent as of year-end. The minutes from the Fed's December meeting, however, indicated that this "measured pace" of increases may slow in the future. In addition, these minutes were noticeably missing the term "accommodation" in reference to the Fed's policy, implying that the Committee may believe the fed funds rate is no longer at a level that stimulates economic growth.

In the wake of Hurricane Katrina, some observers initially believed that the economy would suffer lingering after effects. As the weeks progressed, however, it became apparent that the impact on the economy could be smaller and more temporary than anticipated. Even sharply higher energy prices failed to interrupt the positive economic momentum, and real gross domestic product growth averaged near 4 percent throughout the year.

In response to stronger-than-expected economic data and the Fed's ongoing tightening, U. S. Treasury yields continued to rise in the second half of the year. However, short- and intermediate-term yields rose more than long-term yields, which caused the yield curve to flatten.

Within the investment-grade corporate sector, higher quality corporate bonds generally outperformed lower credit quality bonds. Among the corporate sub-sectors, utilities, energy, and banking issues posted the highest returns, while the industrial sector posted the lowest returns.

2

PERFORMANCE ANALYSIS

The fund's return can be calculated based upon either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the fund's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding, while market price reflects the supply and demand for the shares. As a result, the two returns can differ, as they did during the reporting period. On an NAV basis, the fund outperformed its benchmark index, the Lehman Brothers BBB Corporate Bond Index. On a market price basis, the fund underperformed its benchmark.

TOTAL RETURNS FOR THE SIX-MONTH PERIOD ENDED DECEMBER 31, 2005

	BASED ON MARKET PRICE	LEHMAN BROTHERS BBB CORPORATE BOND INDEX
BASED ON NAV	-1.78%	-0.58%

Performance data quoted represents past performance, which is no guarantee of future results, and current performance may be lower or higher than the figures shown. Investment return, net asset value and common share market price will fluctuate and fund shares, when sold, may be worth more or less than their

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

original cost. See Performance Summary for additional performance information and index definition.

Although the fund invested modestly in high yield securities, the bulk of the portfolio focused on investment-grade bonds. Within the investment-grade portion, the fund gained from its security selection in the insurance sector, which outperformed other sectors for the period. Additionally, a focus on higher-quality credits, strong security selection in the energy sector, and an underweight to the automotive sector further enhanced performance.

During the period, we kept the fund's overall interest-rate exposure well below that of its benchmark. This posture was beneficial as interest rates rose across the short-term and intermediate-term portions of the curve. However, in periods of rate declines, such as we saw periodically during the reporting period, this defensive positioning detracted from relative performance.

There is no guarantee that any sectors mentioned will continue to perform well or that securities in such sectors will be held by the fund in the future.

- (a) As required, effective July 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began amortizing premium on fixed income securities. The effect of this change for the year ended June 30, 2002 was to decrease net investment income per share by \$.04, increase net realized and unrealized gains and losses per share by \$.04 and decrease the ratio of net investment income to average net assets by .24%. Per share, ratios and supplemental data for periods prior to June 30, 2002 have not been restated to reflect this change in presentation.
- (b) Total return based on common share market price assumes an investment at the common share market price at the beginning of the period indicated, reinvestment of all distributions for the period in accordance with the Fund's dividend reinvestment plan, and sale of all shares at the closing common share market price at the end of the period indicated.

VAN KAMPEN BOND FUND

NOTES TO FINANCIAL STATEMENTS -- DECEMBER 31, 2005 (UNAUDITED)

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Bond Fund (the "Fund") is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940 (the "1940 Act"), as amended. The Fund's investment objective is to seek interest income while conserving capital through investing in a diversified portfolio consisting primarily of high-quality debt securities.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Fixed income investments are stated at value using market quotations or indications of value obtained from an independent pricing service. Investments in securities listed on a securities exchange are valued at their last sales price as of the close of such securities exchange. Listed securities and unlisted securities for which the last sales price is not available are valued at the mean of the bid and asked prices. For those securities where quotations or prices are not available as noted above, valuations are determined in accordance with procedures established in good faith by the Board of Trustees. Futures contracts are valued at the settlement price established each day on the exchange on which they are traded. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

basis. Realized gains and losses are determined on an identified cost basis. The Fund may purchase and sell securities on a "when-issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Fund will segregate assets with its custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At December 31, 2005, the Fund had \$20,040,725 of when-issued or delayed delivery purchase commitments.

The Fund may invest in repurchase agreements, which are short-term investments in which the Fund acquires ownership of a debt security and the seller agrees to repurchase the security at a future time and specified price. The Fund may invest independently in repurchase agreements, or transfer uninvested cash balances into a pooled cash account along with other investment companies advised by Van Kampen Asset Management (the "Adviser") or its affiliates, the daily aggregate of which is invested in repurchase agreements. Repurchase agreements are fully collateralized by the underlying debt security. The Fund will make payment for such securities only upon physical delivery or evidence of book entry transfer to the account of the custodian bank. The seller is required to maintain the value of the underlying security at not less than the repurchase proceeds due the Fund.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis and dividend income is recorded on the ex-dividend date. Premiums are amortized and discounts are accreted over the expected life of each applicable security.

17

VAN KAMPEN BOND FUND

NOTES TO FINANCIAL STATEMENTS -- DECEMBER 31, 2005 (UNAUDITED) continued

D. FEDERAL INCOME TAXES It is the Fund's policy to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

The Fund intends to utilize provisions of the federal income tax laws which allow it to carry a realized capital loss forward for eight years following the year of the loss and offset these losses against any future realized capital gains. At June 30, 2005, the Fund had an accumulated capital loss carryforward for tax purposes of \$1,768,004, which will expire on June 30, 2011.

At December 31, 2005, the cost and related gross unrealized appreciation and depreciation are as follows:

Cost of investments for tax purposes.....	\$235,293,054
	=====
Gross tax unrealized appreciation.....	\$ 3,910,851
Gross tax unrealized depreciation.....	(3,156,764)

Net tax unrealized appreciation on investments.....	\$ 754,087
	=====

E. DISTRIBUTION OF INCOME AND GAINS The Fund declares and pays quarterly dividends from net investment income. Net realized gains, if any, are distributed annually. Distributions from net realized gains for book purposes may include short-term capital gains and gains on futures transactions. All

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

short-term capital gains and a portion of futures gains are included in ordinary income for tax purposes.

The tax character of distributions paid during the year ended June 30, 2005 was as follows:

	2005
Distributions paid from:	
Ordinary income.....	\$11,599,970
Long-term capital gain.....	-0-

	\$11,599,970
	=====

As of June 30, 2005, the components of distributable earnings on a tax basis were as follows:

Undistributed ordinary income..... \$157,731

Net realized gains or losses may differ for financial and tax reporting purposes primarily as a result of the deferral of losses relating to wash sale transactions.

F. EXPENSE REDUCTIONS During the six months ended December 31, 2005, the Fund's custody fee was reduced by \$178 as a result of credits earned on cash balances.

18

VAN KAMPEN BOND FUND

NOTES TO FINANCIAL STATEMENTS -- DECEMBER 31, 2005 (UNAUDITED) continued

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Fund's Investment Advisory Agreement, the Adviser will provide investment advice and facilities to the Fund for an annual fee payable monthly as follows:

AVERAGE DAILY NET ASSETS	% PER ANNUM
First \$500 million.....	.42%
Over \$500 million.....	.35%

For the six months ended December 31, 2005, the Fund recognized expenses of approximately \$5,300 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom LLP, of which a trustee of the Fund is a partner of such firm and he and his law firm provide legal services as legal counsel to the Fund.

Under separate Accounting Services and Chief Compliance Officer ("CCO") Employment agreements, the Adviser provides accounting services and the CCO

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

provides compliance services to the Fund. The costs of these services are allocated to each fund. For the six months ended December 31, 2005, the Fund recognized expenses of approximately \$7,600, representing Van Kampen Investments Inc.'s or its affiliates' (collectively "Van Kampen") cost of providing accounting services to the Fund, as well as, the salary, benefits and related costs of the CCO and related support staff paid by Van Kampen. Services provided pursuant to the Accounting Services and CCO Employment agreement are reported as part of "Other" expenses on the Statement of Operations.

Certain officers and trustees of the Fund are also officers and directors of Van Kampen. The Fund does not compensate its officers or trustees who are also officers of Van Kampen.

The Fund provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Fund. The maximum annual benefit per trustee under the plan is \$2,500.

3. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments and U.S. Government securities, were \$25,626,668 and \$38,702,566, respectively. The cost of purchases and proceeds from sales of long-term U.S. Government securities for the period were \$41,667,821 and \$25,171,658, respectively.

4. DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument in very general terms refers to a security whose value is "derived" from the value of an underlying asset, reference rate or index.

The Fund has a variety of reasons to use derivative instruments, such as to attempt to protect the Fund against possible changes in the market value of its portfolio or to generate potential gain. All of the Fund's portfolio holdings, including derivative instruments, are marked to market each day with the change in value reflected in the unrealized appreciation/depreciation. Upon disposition, a realized gain or loss is recognized accordingly, except when taking delivery of a security underlying a futures contract. In this instance, the recognition of gain or loss is postponed until the disposal of the security underlying the

19

VAN KAMPEN BOND FUND

NOTES TO FINANCIAL STATEMENTS -- DECEMBER 31, 2005 (UNAUDITED) continued

futures contract. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts.

During the period, the Fund invested in futures contracts, a type of derivative. A futures contract is an agreement involving the delivery of a particular asset on a specified future date at an agreed upon price. The Fund generally invests in exchange traded futures on U.S. Treasury Bonds and Notes and typically closes the contract prior to delivery date. Upon entering into futures contracts, the Fund maintains an amount of cash or liquid securities with a value equal to a percentage of the contract amount with either a futures commission merchant pursuant to rules and regulations promulgated under the 1940

Act, as amended, or with its custodian in an account in the broker's name. This amount is known as initial margin. During the period the futures contract is open, payments are received from or made to the broker based upon changes in the value of the contract (the variation margin). The risk of loss associated with a futures contract is in excess of the variation margin reflected on the Statement of Assets and Liabilities.

Transactions in futures contracts for the six months ended December 31, 2005, were as follows:

	CONTRACTS
Outstanding at June 30, 2005.....	400
Futures Opened.....	1,275
Futures Closed.....	(1,243)

Outstanding at December 31, 2005.....	432

5. INDEMNIFICATIONS

The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

Van Kampen mutual funds, unit investment trusts, and related companies.

This Policy is not applicable to partnerships, corporations, trusts or other non-individual clients or account holders, nor is this Policy applicable to individuals who are either beneficiaries of a trust for which we serve as trustee or participants in an employee benefit plan administered or advised by us. This Policy is, however, applicable to individuals who select us to be a custodian of securities or assets in individual retirement accounts, 401(k) accounts, 529 Educational Savings Accounts, accounts subject to the Uniform Gifts to Minors Act, or similar accounts.

Please note that we may amend this Policy at any time, and will inform you of any changes to this Policy as required by law.

WE RESPECT YOUR PRIVACY

We appreciate that you have provided us with your personal financial information. We strive to maintain the privacy of such information while we help you achieve your financial objectives. This Policy describes what non-public personal information we collect about you, why we collect it, and when we may share it with others.

We hope this Policy will help you understand how we collect and share non-public personal information that we gather about you. Throughout this Policy, we refer to the non-public information that personally identifies you or your accounts as "personal information."

1. WHAT PERSONAL INFORMATION DO WE COLLECT ABOUT YOU?

To serve you better and manage our business, it is important that we collect and maintain accurate information about you. We may obtain this information from applications and other forms you submit to us, from your dealings with us, from consumer reporting agencies, from our Web sites and from third parties and other sources.

other financial institutions, or as otherwise required or permitted by law. For example, some instances where we may disclose information about you to non-affiliated third parties include: for servicing and processing transactions, to offer our own products and services, to protect against fraud, for institutional risk control, to respond to judicial process or to perform services on our behalf. When we share personal information with these companies, they are required to limit their use of personal information to the particular purpose for which it was shared and they are not allowed to share personal information with others except to fulfill that limited purpose.

3. HOW DO WE PROTECT THE SECURITY AND CONFIDENTIALITY OF PERSONAL INFORMATION WE COLLECT ABOUT YOU?

We maintain physical, electronic and procedural security measures to help safeguard the personal information we collect about you. We have internal policies governing the proper handling of client information. Third parties that provide support or marketing services on our behalf may also receive personal information, and we require them to adhere to confidentiality standards with respect to such information.
