-

Item 7.01. Regulation FD Disclosure.

The following information is furnished pursuant to Regulation FD.

Emerson GAAP Underlying Orders 3 Month Summary

(Percent change. Trailing 3-month average versus prior year.)

	<u>February 10</u>	<u>March 10</u>	<u>April 10</u>
Process Management	-10 to -5	+10	+5 to +10
Industrial Automation	+5	+10 to +15	>+20
Network Power	+5 to +10	+10	+5 to +10
Climate Technologies	>+20	>+20	>+20
Appliance and Tools	0 to +5	0 to +5	+5 to +10
Total Emerson	+5 to +10	+10 to +15	+15 to +20

April 2010 Order Comments:

Emerson orders continued to strengthen and increased approximately 16 percent, with currency contributing approximately 2 percentage points to the growth. Order growth was solid for all five business segments, with particular strength in the Climate Technologies and Industrial Automation businesses.

Process Management trailing three-month underlying orders, excluding currency, strengthened as MRO demand continued and energy related end markets showed improvement. Due to the strengthening of the U.S. dollar, there was a much smaller positive impact from currency (2 percentage points) in the GAAP order rate this month versus the prior month (8 percentage points).

Industrial Automation order rates continued to strengthen and were up greater than ten percent across all businesses within the segment. The power generating alternator business order growth was in excess of twenty percent in the trailing three-month period.

Network Power trailing three-month underlying order trends excluding currency remained at levels similar to the prior month, but due to the recent weakening of the Euro, currency had a smaller positive impact. Growth in the embedded power, inbound power and embedded computing businesses was partially offset by modest declines in the network power business in Asia and the uninterruptible power supply and precision cooling business.

Order growth for Climate Technologies remained high across all businesses. Strong growth continued in Asia driven by stimulus programs and upcoming energy-efficiency legislation. Europe order rates are starting to recover with positive impacts in refrigeration. The U.S. strength was driven by the residential replacement market and stationary refrigeration in food retail outlets.

Appliance and Tools order trends improved and were up 5 to 10 percent. Strength in the tools business and improvement in the commercial motors and appliance components businesses were partially offset by weakness in the storage business.

Upcoming Investor Events:

May 19, 2010 2010 Electrical Products Group Conference

Location: Longboat Key, Florida

Time: 10:45 a.m. to 11:25 a.m. Eastern Daylight Time
