Cautionary Language Concerning Forward-Looking Statements

In addition to historical information, this document contains forward-looking statements regarding events and financial trends that may affect our future operating results, financial position and cash flows. These statements are based on our assumptions and estimates and are subject to risks and uncertainties. For these statements, we claim the protection of the safe harbor for forward-looking statements provided by the Private Securities Litigation Reform Act of 1995.

There are possible developments that could cause our actual results to differ materially from those forecast or implied in the forward-looking statements. You are cautioned not to place undue reliance on these forward-looking statements, which are current only as of the date of this filing. We disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

While the below list of cautionary statements is not exhaustive, some factors that could affect future operating results, financial position and cash flows and could cause actual results to differ materially from those expressed in the forward-looking statements are:

a change in economic conditions in domestic or international markets where we operate or have material investments which would affect demand for our services;

significant deterioration in foreign currencies relative to the U.S. dollar in foreign countries in which we operate;

changes in U.S. or foreign laws or regulations, or in their interpretations, which could result in the loss, or reduction in value, of our licenses, concessions or markets, or in an increase in competition, compliance costs or capital expenditures;

a decrease in the growth rate of demand for the services which we offer;

the intensity of competitive activity and its resulting impact on pricing strategies and new product offerings;

protracted delay in our entry into the interLATA long distance market;

higher than anticipated start-up costs or significant up-front investments associated with new business initiatives;

the outcome of pending litigation;

unanticipated higher capital spending from, or delays in, the deployment of new technologies;

the impact of terrorist attacks on our business; and

the impact of the wireless joint venture with SBC Communications, known as Cingular Wireless, including marketing and product development efforts and financial capacity.
