Report of Independent Registered Public Accounting Firm

Plan Administration Committee

HCA Inc.

We have audited the accompanying statements of net assets available for benefits of the HCA 401(k) Plan as of December 31, 2005 and 2004, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2005 and 2004, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

As described in Note 2 to the financial statements, the Company changed to the accrual basis of accounting from the modified cash basis of accounting, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2005 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

HCA 401(k) Plan
Notes to Financial Statements
December 31, 2005

1. Description of the Plan

The following description of the HCA 401(k) Plan (the Plan) provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, established January 1, 1983, which provides retirement benefits for all eligible employees of HCA Inc. or its affiliates (the Company or HCA), and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Effective January 1, 2005, participants are eligible to participate on the first day of the month following two months of continuous employment and upon attaining age eighteen. Prior to January 1, 2005, the age for eligibility was twenty-one.

Contributions and Vesting

Participants may defer from 1% to 50% of eligible salary to the Plan subject to Internal Revenue Code limitations. Such amounts, along with earnings thereon, are fully vested at all times. The Company, in its sole discretion, may limit the contributions of highly compensated employees. Participants who have attained age 50 before the close of the Plan year are eligible to make catch-up contributions subject to Internal Revenue Code limitations.

The Company contributes to the Plan a matching employer contribution of \$0.50 for every dollar of participant deferrals, up to the first 3.0% of eligible compensation deferred (Matching Contribution). The Company may, at its sole discretion, make a Stock Bonus Contribution or a Profit Sharing Contribution to the Plan for any Plan year, which will be shared among active participants, as defined in the Plan document, for the Plan year. Participants are 100% vested in all Company Matching Contributions after earning three years of vesting service. The Plan provides for a vesting schedule relative to the Stock Bonus Contribution and Profit Sharing Contribution that occurs ratably beginning with three years of vesting service, with 100% vesting occurring after seven years of vesting service. Participants will be fully vested upon retirement, death or disability, without regard to years of vesting service.

Table of Contents

HCA 401(k) Plan
Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participant Loans

Participants may borrow from their accounts a minimum of \$1,000, but borrowings may not exceed the lesser of \$50,000, reduced by all other outstanding loans, or 50% of the participant's total vested account balance. Loan terms range from one to five years (ten years if loan is used to acquire a principal residence). The loans are secured by the balance in the respective participant's account and bear interest at rates commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions. Additionally, each participant's account is credited/charged with Plan earnings/losses and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Benefit Payments

A participant can only receive a distribution in the form of a lump sum payment. Upon the death of a participant, the vested account balance will be distributed in a single lump sum. Hardship withdrawals are permitted under the Plan.

Administrative Expenses

In accordance with the Plan document, expenses incurred to administer the Plan are paid by the Plan unless paid by the Company, at the Company's discretion.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan, subject to the provisions of ERISA. Upon termination of the Plan, each participant will be fully vested in the value of his/her account after payment of any accrued expenses and liabilities of the Plan.

Table of Contents

HCA 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)**Plan Merger**

The Healthtrust, Inc. 401(k) Retirement Program and the EPIC Healthcare Group, Inc. Profit Sharing Plan, which were participants in the Master Trust, merged into the Plan effective midnight December 31, 2003. On January 1, 2004, the Plan reflected assets transferred in at fair value of \$474,655,201. The MCA 401(k) Plan merged into the Plan effective October 1, 2005. The assets transferred to the Plan reflected fair value of \$29,913,312.

2. Summary of Significant Accounting Policies**Basis of Accounting**

For the year ended December 31, 2005, the accompanying financial statements and supplemental schedule are prepared on the accrual basis of accounting. Accordingly, participants' and employer contribution receivables and other expenses payable are reflected in the statement of net assets available for benefits. The effect of the change on current year and prior year net assets and the changes thereto is not material. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

For the year ended December 31, 2004, the accompanying financial statements were prepared using the modified cash basis of accounting, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles. Under this basis, investment assets are reported at fair value, net realized and unrealized appreciation (depreciation) in fair value of investments is recognized, contributions are recognized when received rather than as earned, and benefits and expenses are recognized when paid.

Valuation of Investments

The Plan's investments in the HCA Inc. Master Retirement Trust (Master Trust) are participant directed and stated at fair value, except for certain investment contracts held in the Interest Income Pool. Securities traded on a national securities exchange, including HCA Inc. common stock, are valued at the last reported sales price on the primary exchange on the last business day of the Plan year. Investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices. When such prices are unavailable, The Northern Trust Company (the Trustee) determines a valuation from the market maker dealing in that particular security. Joint ventures and other limited partnerships owned by the Master Trust are valued at the appraised values available as of the last business day of the Plan year. The fair value of participation units owned by the Master Trust in the collective trust funds are based on quoted redemption values on the last business day of the Plan year. Investments in the insurance general account are reported at contract value. Participant loans are valued at their outstanding balance, which approximates fair value.

Table of Contents

HCA 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)**Valuation of Investments (Continued)**

Investment contracts held in the Master Trust are wrapper contracts with insurance companies that generally change the investment characteristic of underlying securities (such as U.S. government securities) to those of guaranteed investment contracts. The investment contracts are fully benefit-responsive and are recorded at their contract values. The contract values represent participant contributions (less any participant withdrawals), reinvested income and accruals. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. However, withdrawals influenced by Company-initiated events, such as in connection with the sale of a business, may result in a distribution at other than contract value. There are no reserves against contract values for credit risk of contract issuers or otherwise. The contract value of the investment contracts at December 31, 2005 and 2004 was \$251,383,316 and \$235,963,009, respectively. The fair value of the investment contracts at December 31, 2005 and 2004 was \$263,710,152 and \$261,581,824, respectively. The crediting interest rate for these investment contracts is reset quarterly by the issuer and ranged from 6.255% to 6.705% during 2005 and 5.702% to 6.391% during 2004. The average yield was 6.535% and 5.934%, respectively, during 2005 and 2004. The crediting interest rates were 6.255% at December 31, 2005, and 6.391% at December 31, 2004.

Derivative Financial Instruments

The Master Trust, through activities of certain of its investment managers, uses derivative financial instruments in connection with its normal trading activities in an effort to improve investment returns, manage exposure to fluctuations in interest rates or otherwise manage risk. A derivative financial instrument is a security or contractual agreement that derives its value from some other security, commodity, currency or index. The Master Trust is invested in various types of derivative financial instruments including forward contracts, futures contracts, swaps, options, investment contracts and collateralized mortgage obligations.

The Master Trust's equity and fixed income investment managers are permitted to hedge the currency risks of their foreign security investments. In addition, certain equity and fixed income investment managers are permitted to use derivative instruments as part of their investment strategies. These strategies use derivative instruments to replicate the risk/return profile of assets, asset classes, equity or fixed income market indices and to assist in the management of the risk exposure of the investment portfolio. The investment managers are prohibited from using derivatives for speculative purposes and any hedged positions are not permitted to exceed the level of exposure in the related Master Trust assets. Changes in fair value of the derivative financial instruments are recorded separate from the related investment (see Note 3 -

Table of Contents

HCA 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Derivative Financial Instruments (continued)

Investments). As such, a change in fair value of the derivative financial instruments, including associated investment income (loss), may offset or reflect an inverse relationship with a change in fair value, including associated investment income (loss), in the related investment. The Master Trust's investment managers are required to combine such changes in the fair value, including associated investment income (loss), of the derivative financial instruments with those of the related investments to determine the effectiveness of their strategies.

The Master Trust is exposed to risks from unfavorable changes in interest rates or market values of the securities underlying the derivative financial instruments. The Master Trust is also exposed to credit risk in the event of nonperformance by the counterparties to the derivative instruments. However, the Master Trust seeks to minimize its exposure to credit loss by requiring settlement with the counterparties as frequently as daily and/or requiring settlement based upon pre-established dollar amount limits with those counterparties. The Master Trust does not anticipate nonperformance by the counterparties and generally does not require counterparty collateral.

Use of Estimates

The preparation of financial statements requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

Table of Contents

HCA 401(k) Plan
Notes to Financial Statements (continued)

3. Investments

All of the Plan's investments (except participant loans) are in the Master Trust, which invests in a variety of investments and was established for the investment of assets of the Plan and several other Company-sponsored retirement plans. The Master Trust includes several Master Trust Investment Accounts (or Investment Pools). Each participating retirement plan has an undivided interest in the Investment Pools selected by the Plan. The Investment Pools that the Plan invests in are disclosed separately. At December 31, 2005 and 2004, the Plan's interest in the net assets of the Master Trust was approximately 63.52% and 62.18%, respectively. Investment income and expenses are allocated to the Plan based upon each plan's share of elected investments and the income and expenses earned/charged on those investments.

Notes to Financial Statements (continued)

4. Securities Lending

The Trustee is authorized to engage in the lending of certain Master Trust assets. Securities lending is an investment management strategy that utilizes the existing securities (government bonds, corporate bonds or equities) of the Master Trust to earn additional income. It involves the loaning of securities to a select group of approved broker-dealers. In return for the loaned securities, the Trustee simultaneously receives collateral in the form of cash or U.S. Treasury bills as a safeguard against possible default of any borrower on the return of the loan. Each security lending transaction is collateralized by a margin requirement, as specified in the terms of the securities borrowing agreements, from a minimum of 102% to a maximum of 105% of the fair value of the securities loaned plus accrued interest. The collateral is marked-to-market on a daily basis to maintain the margin requirement. The Master Trust accounts for its securities lending activities in accordance with Statement of Financial Accounting Standards No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*, (FASB 140). At December 31, 2005 and 2004, the Master Trust had securities on loan of \$711,741,278 and \$516,868,774, respectively. At December 31, 2005 and 2004, debtors provided the Trustee with cash collateral totaling \$710,261,287 and \$492,522,476, respectively. Cash received by the Trustee is invested in money market securities by the Master Trust and accordingly, recorded at fair value in the financial statements with a corresponding obligation to repay the collateral in accordance with the securities borrowing agreements. Noncash collateral provided to the Master Trust (U.S. Treasury bills) at December 31, 2005 and 2004 was \$23,279,230 and \$38,230,142, respectively, and in accordance with FASB 140, is not recorded in the investments of the Master Trust. The income earned by the Master Trust under the securities lending program with the Trustee in 2005 and 2004 was \$1,337,754 and \$815,877, respectively.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Income Tax Status

The Plan has received its most recent determination letter from the Internal Revenue Service dated September 29, 2005, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of this determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Company

Table of Contents

HCA 401(k) Plan
Notes to Financial Statements (continued)

6. Income Tax Status (continued)

believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

7. Commitments and Contingencies

On November 22, 2005, Brenda Thurman, a former employee of an HCA affiliate, filed a complaint in the United States District Court for the Middle District of Tennessee on behalf of herself, the HCA Savings and Retirement Program, and a class of Participants in the HCA Savings and Retirement Program, who held an interest in HCA common stock, against HCA Inc., HCA's Chairman and Chief Executive Officer, President and Chief Operating Officer, Executive Vice President and Chief Financial Officer, and other unnamed individuals. The lawsuit, filed under sections 502(a)(2) and 502(a)(3) of the ERISA, 29 U.S.C. §§ 1132(a)(2) and (3), alleges that defendants breached their fiduciary duties owed to the HCA Savings and Retirement Program and its participants.

On January 13, 2006, the court stayed all proceedings and discovery in this matter, pending resolution of a motion to dismiss the consolidated amended complaint in the related federal securities class action against HCA. On January 17, 2006, the magistrate judge (i) consolidated Thurman's cause of action with all other future actions making the same claims and arising out of the same operative facts, (ii) appointed Thurman as lead plaintiff, and (iii) appointed Thurman's attorneys as lead counsel and liaison counsel. On January 26, 2006, the court reassigned the case to United States District Court Judge William J. Haynes, Jr., who has been presiding over certain related federal securities class action and federal derivative lawsuits.

8. Transactions with Parties-In-Interest

Transactions with parties-in-interest include purchases and sales of assets through the Trustee, contributions from the Company, dividends received on HCA Inc. common stock and fees paid during the year for accounting and other services.

9. Subsequent Event

Effective January 1, 2006, the Plan was amended to automatically enroll an employee in the Plan upon becoming eligible to participate unless the employee notifies the Plan that he or she will not participate. An employee thus enrolled will be deemed to have elected a deferral rate of 3%, unless the employee notifies the Plan that he or she elects a different percentage. Each participant's deferral election will increase by 1% each year up to a maximum of 15%, unless the participant directs otherwise.
