**COLE CREDIT PROPERTY TRUST II, INC.
SUPPLEMENT NO. 2 DATED JULY 23, 2007
TO THE PROSPECTUS DATED MAY 11, 2007**

This document supplements, and should be read in conjunction with, the prospectus of Cole Credit Property Trust II, Inc. dated May 11, 2007 and Supplement No. 1 dated May 16, 2007. Unless otherwise defined in this supplement, capitalized terms used in this supplement shall have the same meanings as set forth in the prospectus.

The purpose of this supplement is to describe the following:

- (1) the status of the offering of shares in Cole Credit Property Trust II, Inc.;
- (2) recent real property investments;
- (3) potential real property investments; and
- (4) updated annual operating results of prior real estate programs.

Status of Our Public Offerings

We commenced our initial public offering on June 27, 2005. We terminated our initial public offering on May 22, 2007. As of the close of business on May 22, 2007, we had issued a total of 54,838,315 shares in our initial public offering, including 53,909,877 shares sold in the primary offering and 928,438 shares sold pursuant to our distribution reinvestment plan, resulting in gross offering proceeds to us of approximately \$547 million.

We commenced our follow-on offering of 150,000,000 shares of common stock on May 23, 2007. Of these shares, we are offering 125,000,000 shares in a primary offering and 25,000,000 shares pursuant to our distribution reinvestment plan. As of July 17, 2007, we had accepted investors' subscriptions for, and issued, approximately 8,000,000 shares of our common stock in the follow-on offering, resulting in gross proceeds to us of approximately \$80 million. Combined with our initial public offering, we had raised a total of approximately \$627 million as of July 17, 2007.

*The following information supplements, and should be read in conjunction with, the section of our prospectus captioned **Investment Objectives and Policies - Real Property Investments** beginning on page 84 of the prospectus.*

Real Property Investments

We engage in the acquisition and ownership of commercial properties throughout the United States. We invest primarily in income-generating retail properties, net leased to investment grade and other creditworthy tenants.

As of July 23, 2007, we, through separate wholly-owned limited partnerships or limited liability companies, had acquired a 100% fee simple interest in 216 properties consisting of approximately 9.0 million gross rentable square feet located in 42 states and the U.S. Virgin Islands. The properties generally were acquired through the use of mortgage notes payable and proceeds from our ongoing public offering of our common stock.

The fixed rate debt mortgage notes require monthly interest-only payments with the principal balance due on various dates from May 2012 through August 2017. The variable rate debt mortgage notes bear interest at the one-month LIBOR rate plus 200 basis points and require monthly interest-only payments and generally mature within 90 days. Each of the mortgage notes are secured by the respective property. The mortgage notes are generally non-recourse to us and Cole Op II, but both are liable for customary non-recourse carveouts.

The fixed rate mortgage notes generally may not be prepaid, in whole or in part, except under the following circumstances: (i) full prepayment may be made on any of the three (3) monthly payment dates occurring immediately prior to the maturity date, and (ii) partial prepayments resulting from the application of insurance or condemnation proceeds to reduce the outstanding principal balance of the mortgage notes. Notwithstanding the prepayment limitations, we may sell the properties to a buyer that assumes the respective mortgage loan. The transfer would be subject to the conditions set forth in the individual property's mortgage note document, including without limitation, the lender's approval of the proposed buyer and the payment of the lender's fees, costs and expenses associated with the sale of the property and the assumption of the loan.

In the event that a mortgage note is not paid off on the respective maturity date, each mortgage note includes hyperamortization provisions. The interest rate during the hyperamortization period shall be the fixed interest rate as stated on the respective mortgage note agreement plus two percent (2.0%). The individual mortgage note maturity date, under the hyperamortization provisions, will be extended by twenty (20) years. During such period, the lender will apply 100% of the rents collected to (i) all payments for escrow or reserve accounts, (ii) payment of interest at the original fixed interest rate, (iii) payments for the replacement reserve account, (iv) any other amounts due in accordance with the mortgage note agreement other than any additional interest expense, (v) any operating expenses of the property pursuant to an approved annual budget, (vi) any extraordinary expenses, (vii) payments to be applied to the reduction of the principal balance of the mortgage note, and (viii) any additional interest expense, which is not paid will be added to the principal balance of the mortgage note.

For federal income tax purposes, the preliminary depreciable basis in the properties noted above is approximately \$246.9 million in total. When we calculate depreciation expense for tax purposes, we will use the straight-line method. We depreciate buildings and improvements based upon estimated useful lives of 40 years, respectively. The depreciable basis in the properties noted above are detailed as follows:

Tenant Lease Expirations

The following table sets forth, as of July 23, 2007, lease expirations of the properties owned for each of the next ten years assuming no renewal options are exercised. For purposes of the table, the total annual base rent column represents annualized base rent, based on rent in effect on January 1 of the respective year, for each lease which expires during the respective year.

Potential Property Investments

Our advisor has identified the following property as a potential suitable investments for us. The acquisition of the property is subject to a number of conditions. A significant condition to acquiring this potential acquisition is our ability to raise sufficient proceeds in this offering to pay a portion of the purchase price. An additional condition to acquiring this property will be our securing debt financing to pay the balance of the purchase price. Such financing may not be available on acceptable terms or at all.

Our evaluation of a property as a potential acquisition, including the appropriate purchase price, will include our consideration of a property condition report; unit-level store performance; property location, visibility and access; age of the property, physical condition and curb appeal; neighboring property uses; local market conditions, including vacancy rates; area demographics, including trade area population and average household income; neighborhood growth patterns and economic conditions; and the presence of demand generators.

We will decide whether to acquire these properties generally based upon:

satisfaction of the conditions to the acquisitions contained in the respective contracts;

no material adverse change occurring relating to the properties, the tenants or in the local economic conditions;

our receipt of sufficient net proceeds from the offering of our common stock to the public and financing proceeds to make these acquisitions; and

our receipt of satisfactory due diligence information including appraisals, environmental reports and tenant and lease information.

Other properties may be identified in the future that we may acquire before or instead of this property. Due to the considerable conditions to the consummation of the acquisition of these properties, we cannot make any assurances that the closing of these acquisitions is probable.

Property	Expected Acquisition Date	Seller (1) A&R Development II, LLC	Approximate Purchase Price (2)	Approximate Compensation to Sponsor (3)
Fed Ex Walker, MI	7/25/2007		7,575,000	202,850
			\$7,575,000	\$ 202,850

(1) Seller is an unaffiliated third party.

(2) Approximate purchase price does not include acquisition costs which we expect to be approximately 3.0% of the contract purchase price.

(3) Amounts include acquisition fees payable to an

affiliate of our advisor for acquisition fees in connection with the property acquisition and payments to our advisor for finance coordination fees for services in connection with the origination or assumption of debt financing to acquire the respective property.

Each potential property acquisition is subject to a net lease, pursuant to which the tenants are required to pay substantially all operating expenses and capital expenditures in addition to base rent. In the case of a multi-tenant commercial property the tenants are also required to pay a proportionate amount of common area maintenance charges in addition to the items listed above.

	Property	Major Tenants*	Guarantor	Total Square Feet Leased	% of Total Square Feet Leased
Fed Ex	Walker, MI	Fed Ex Ground Package System, Inc.	N/A	78,034	100%
				78,034	

* Major tenants are those tenants that occupy greater than 10.0% of the rentable square of their respective property.

The table below provides leasing information for the major tenants at each respective property:

Property	Major Tenants*	Renewal Options	Annual Base Rent	Base Rent per Square Foot	Lease Term		
					Beginning	To	
Fed Ex	Walker, MI	Fed Ex Ground Package System, Inc.	2/5 yr.	380,736	4.88	2/22/02	5/31/17

\$ 380,736

The following table outlines the anticipated loan terms on debt financing to be secured in connection with the purchase of the potential property acquisition our advisor has identified for us. Generally, we expect the loans to have a fixed rate, with interest only payments and a five to ten-year maturity.

	Property	Debt Financing	Type	Rate	Maturity Date
Fed Ex	Walker, MI	5,135,000	Interest Only	5.98%	July 25, 2012
		\$ 5,135,000			

Each of our properties is adequately covered by insurance and we intend to obtain adequate insurance coverage for all future properties that we acquire.

The following table replaces in its entirety Table III of our Prior Performance Tables on Pages A-42 through A-68 of the prospectus.

TABLE III**ANNUAL OPERATING RESULTS OF PRIOR REAL ESTATE PROGRAMS (UNAUDITED)**

The following sets forth the unaudited operating results of Prior Real Estate Programs sponsored by affiliates of the sponsor of this program, the offerings of which have been closed since January 1, 2002. NOTES TO TABLE III

- (1) Cole Credit Property Trust, Inc. and Cole Credit Property Trust II, Inc. maintain their books on a GAAP basis of accounting rather than a tax basis.
- (2) Investors in this program receive interest at a specified rate per annum, which is included in interest expense. Therefore, tax and cash distribution data per \$1,000 invested is not applicable.
- (3) Amortization of organizational costs is computed over a period of 60 months. Depreciation of commercial real property is determined on the straight-line method over an estimated useful life of 39 years. Leasehold interest are amortized over the life of the lease.
- (4) Operating expenses include management fees paid to affiliates for such services as accounting, property supervision, etc.
- (5) Cash generated from operations generally includes net income plus depreciation and amortization plus any decreases in accounts receivable and accrued rental income or increases in accounts payable minus any increases in accounts receivable and accrued rental income or decreases in accounts payable. In addition, cash generated from operations is reduced for any property costs related to development projects and is increased by proceeds when the project is sold (usually in less than twelve months).
- (6) The partnerships maintain their books on a tax basis of accounting rather than a GAAP basis. There are several potential differences in tax and GAAP basis, including, among others; (a) tax basis accounting does not take certain income or expense accruals into consideration at the end of each fiscal year, (b) rental income is recorded on a tax basis, as it is received where it is accrued on a straight-line basis over the life of the lease for GAAP, and (c) all properties are recorded at cost and depreciated over their estimated useful life on a tax basis even if they qualify as a direct financing lease for GAAP purposes. These differences generally result in timing differences between fiscal years but total operating income over the life of the partnership will not be significantly different between the two basis of accounting.

Past performance is not necessarily indicative of future results.
