AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(In millions, except share and per share data)

1. INTERIM FINANCIAL STATEMENTS

Business and Basis of Presentation

AutoNation, Inc., through its subsidiaries, is the largest automotive retailer in the United States. As of June 30, 2008, we owned and operated 319 new vehicle franchises from 242 stores located in major metropolitan markets, predominantly in the Sunbelt region of the United States. We offer a diversified range of automotive products and services, including new vehicles, used vehicles, vehicle maintenance and repair services, vehicle parts, extended service contracts, vehicle protection products, and other aftermarket products. We also arrange financing for vehicle purchases through third-party finance sources. For convenience, the terms AutoNation, Company, and we are used to refer collectively to AutoNation, Inc. and its subsidiaries, unless otherwise required by the context. Our dealership operations are conducted by our subsidiaries.

The accompanying Unaudited Condensed Consolidated Financial Statements include the accounts of AutoNation, Inc. and its subsidiaries; all significant intercompany accounts and transactions have been eliminated. The accompanying Unaudited Condensed Consolidated Financial Statements have been prepared by us pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Accordingly, certain information related to our organization, significant accounting policies, and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States has been condensed or omitted. These Unaudited Condensed Consolidated Financial Statements reflect, in the opinion of management, all material adjustments (which include only normal recurring adjustments) necessary to fairly state, in all material respects, our financial position and results of operations for the periods presented.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. In preparing these financial statements, management has made its best estimates and judgments of certain amounts included in the financial statements, giving due consideration to materiality. We base our estimates and judgments on historical experience and other assumptions that we believe are reasonable. However, application of these accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ materially from these estimates. We periodically evaluate estimates and assumptions used in the preparation of the financial statements and make changes on a prospective basis when adjustments are necessary. Significant estimates made by AutoNation in the accompanying Unaudited Condensed Consolidated Financial Statements include allowances for doubtful accounts, accruals for chargebacks against revenue recognized from the sale of finance and insurance products, certain assumptions related to goodwill, intangible, and long-lived assets, accruals related to self-insurance programs, certain legal proceedings, estimated tax liabilities, estimated losses from disposals of discontinued operations, and certain assumptions related to stock option compensation.

Operating results for interim periods are not necessarily indicative of the results that can be expected for a full year. These interim financial statements should be read in conjunction with our audited consolidated financial statements and notes thereto included in our most recent Annual Report on Form 10-K.

Certain reclassifications of amounts previously reported have been made to the accompanying Unaudited Condensed Consolidated Financial Statements in order to maintain consistency and comparability between periods presented. We reclassified certain amounts within the Cash Provided by (Used in) Operating Activities section of our Unaudited Condensed Consolidated Statements of Cash Flows to separately present our deferred income tax provision.

New Accounting Pronouncements

In December 2007, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 141 (revised 2007), Business Combinations (SFAS No. 141R). SFAS No. 141R is a revision to SFAS No. 141 and includes substantial changes to the acquisition method used to account for business combinations

(formerly the purchase accounting method), including broadening the definition of a business, as well as revisions to accounting methods for contingent consideration and other contingencies related to the acquired business, accounting for transaction costs, and accounting for adjustments to provisional amounts recorded in connection with acquisitions. SFAS No. 141R retains the fundamental requirement of SFAS No. 141 that the acquisition method of accounting be used for all business combinations and for an acquirer to be identified for each business combination. SFAS No. 141R will be applied prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. We are currently evaluating the impact of adopting SFAS No. 141R.

Table of Contents

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115* (SFAS No. 159). SFAS No. 159 permits entities to choose to measure certain financial assets and liabilities at fair value. Unrealized gains and losses, arising subsequent to adoption, are reported in earnings. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. We adopted SFAS No. 159 effective January 1, 2008, and have elected not to measure any of our current eligible financial assets or liabilities at fair value upon adoption.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157). In February 2008, the FASB amended SFAS No. 157 by issuing FASB Staff Position (FSP) FAS 157-1, *Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13*, which states that SFAS No. 157 does not address fair value measurements for purposes of lease classification or measurement. FSP FAS 157-1 does not apply to assets acquired and liabilities assumed in a business combination that are required to be measured at fair value under SFAS No. 141 or SFAS No. 141(R), regardless of whether those assets and liabilities are related to leases. In February 2008, the FASB also issued FSP FAS 157-2, *Effective Date of FASB Statement No. 157*, which delayed the effective date of SFAS No. 157 to fiscal years beginning after November 15, 2008, for nonfinancial assets and liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis. SFAS No. 157 defines fair value and applies to other accounting pronouncements that require or permit fair value measurements and expands disclosures about fair value measurements. SFAS No. 157 was effective for financial assets and liabilities in fiscal years beginning after November 15, 2007.

Our adoption of the provisions of SFAS No. 157 on January 1, 2008, with respect to financial assets and liabilities measured at fair value, did not have a material impact on our fair value measurements or our financial statements for the three and six months ended June 30, 2008. In accordance with FSP FAS 157-2, we are currently evaluating the potential impact of applying the provisions of SFAS No. 157 to our nonfinancial assets and liabilities beginning in 2009, including (but not limited to) the valuation of our single reporting unit for the purpose of assessing goodwill impairment, the valuation of our franchise rights when assessing franchise impairments, the valuation of property and equipment when assessing long-lived asset impairment, and the valuation of assets acquired and liabilities assumed in business combinations.

Table of Contents

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

2. RECEIVABLES, NET

The components of receivables, net of allowance for doubtful accounts, are as follows:

	June 30, 2008	December 31, 2007
Trade receivables	\$ 103.0	\$ 118.7
Manufacturer receivables	114.0	138.1
Other	41.5	54.8
	258.5	311.6
Less: Allowances	(7.0)	(6.4)
	251.5	305.2
Contracts-in-transit and vehicle receivables	277.5	379.8
Income tax refundable (See Note 6)	29.6	21.9
Receivables, net	\$ 558.6	\$ 706.9

Contracts-in-transit and vehicle receivables primarily represent receivables from financial institutions for the portion of the vehicle sales price financed by our customers.

3. INVENTORY AND VEHICLE FLOORPLAN PAYABLE

The components of inventory are as follows:

	June 30, 2008	December 31, 2007
New vehicles	\$ 1,860.5	\$ 1,824.2
Used vehicles	288.0	308.6
Parts, accessories, and other	146.9	148.7
	\$ 2,295.4	\$ 2,281.5

The components of vehicle floorplan payables are as follows:

	June 30, 2008	December 31, 2007
Vehicle floorplan payable trade	\$ 1,733.8	\$ 1,691.0
Vehicle floorplan payable non-trade	511.2	451.7
	\$ 2,245.0	\$ 2,142.7

Vehicle floorplan payable-trade reflects amounts borrowed to finance the purchase of specific new vehicle inventories with the corresponding manufacturers' captive finance subsidiaries (trade lenders). Vehicle floorplan payable-non-trade represents amounts borrowed to finance the purchase of specific new and, to a lesser extent, used

vehicle inventories with non-trade lenders. Changes in vehicle floorplan payable-trade are reported as operating cash flows and changes in vehicle floorplan payable non-trade are reported as financing cash flows in the accompanying Unaudited Condensed Consolidated Statements of Cash Flows.

During the second quarter of 2008, we entered into separate floorplan credit arrangements with various lenders to provide a total of \$180.0 million to finance a portion of our used vehicle inventory, of which \$137.2 million was outstanding at June 30, 2008.

Table of Contents

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

Floorplan facilities are due on demand, but in the case of new vehicle inventories, are generally paid within several business days after the related vehicles are sold. Our manufacturer agreements generally require that the manufacturer have the ability to draft against the new floorplan facilities so the lender directly funds the manufacturer for the purchase of new vehicle inventory. Floorplan facilities are primarily collateralized by vehicle inventories and related receivables.

Our vehicle floorplan facilities, which utilize LIBOR-based interest rates, averaged 4.0% for the six months ended June 30, 2008, and 6.3% for the six months ended June 30, 2007. At June 30, 2008, aggregate capacity under the floorplan credit facilities to finance vehicles was approximately \$3.8 billion, of which \$2.2 billion total was outstanding.

4. GOODWILL AND INTANGIBLE ASSETS

Goodwill and intangible assets, net, consist of the following:

	June 30, 2008	December 31, 2007
Goodwill	\$ 3,025.3	\$ 3,004.0
Less: accumulated amortization	(265.8)	(265.8)
Goodwill, net	\$ 2,759.5	\$ 2,738.2
Franchise rights indefinite-lived	\$ 318.6	\$ 316.4
Other intangibles	11.0	7.9
	329.6	324.3
Less: accumulated amortization	(5.0)	(4.4)
Other intangibles, net	\$ 324.6	\$ 319.9

Goodwill and intangibles with indefinite lives are tested for impairment annually or more frequently when events or circumstances indicate that an impairment may have occurred. During 2008, we changed our annual impairment test date from June 30 to April 30, as this date provides additional time to complete the impairment testing and report the results of those tests in our June 30 Quarterly Report on Form 10-Q.

We completed our annual impairment tests as of April 30, 2008, for goodwill and intangibles with indefinite lives. The goodwill test includes determining the estimated fair value of our single reporting unit and comparing it to the carrying value of the net assets allocated to the reporting unit. No goodwill impairment charges resulted from the required goodwill impairment test.

Our principal identifiable intangible assets are individual store rights under franchise agreements with vehicle manufacturers. The test for intangibles with indefinite lives requires the comparison of estimated fair value to its carrying value by store. Fair values of rights under franchise agreements are estimated by discounting expected future cash flows of the store. During the six months ended June 30, 2008, we recorded \$5.1 million (\$3.0 million, net of tax) of impairment charges related to rights under two stores' franchise agreements to reduce the carrying value of those stores' franchise agreements to estimated fair value. During the six months ended June 30, 2007, we recorded \$1.0 million (\$0.6 million, net of tax) of impairment charges related to rights under one of the same store's franchise agreement to reduce the carrying value of that store's franchise agreement to estimated fair value. The decline in the fair value of rights under these stores' franchise agreements reflects the underperformance relative to expectations of

these stores since our acquisition of them, as well as our expectations for the stores' future prospects. These factors resulted in a reduction in forecasted cash flows and growth rates used to estimate fair value. This non-cash impairment charge is classified as other expenses, net in the accompanying Unaudited Condensed Consolidated Income Statement.

5. NOTES PAYABLE AND LONG-TERM DEBT

Notes payable and long-term debt consist of the following:

	June 30, 2008	December 31, 2007
Floating rate senior unsecured notes, due 2013	\$ 300.0	\$ 300.0
7% senior unsecured notes, due 2014	300.0	300.0
Term loan facility, due 2012	600.0	600.0
Revolving credit facility, due 2012		260.0
9% senior unsecured notes, due 2008	14.1	14.1
Mortgage facility, due 2017	236.5	239.7
Other debt, due from 2010 to 2025	67.5	62.0
	1,518.1	1,775.8
Less: current maturities	(37.2)	(23.9)
Long-term debt, net of current maturities	\$ 1,480.9	\$ 1,751.9

Senior Unsecured Notes and Credit Agreement

We have \$300.0 million of floating rate senior unsecured notes due April 15, 2013, and \$300.0 million of 7% senior unsecured notes due April 15, 2014, in each case at par. The floating rate senior unsecured notes bear interest at a rate equal to three-month LIBOR plus 2.0% per annum, adjusted quarterly, and may be redeemed by us currently at 103% of principal, on or after April 15, 2009, at 102% of principal, on or after April 15, 2010, at 101% of principal, and on or after April 15, 2011, at 100% of principal. The 7% senior unsecured notes may be redeemed by us on or after April 15, 2009, at 105.25% of principal, on or after April 15, 2010, at 103.5% of principal, on or after April 15, 2011, at 101.75% of principal, and on or after April 15, 2012, at 100% of principal.

Under our amended credit agreement which terminates on July 18, 2012, we have a \$700.0 million revolving credit facility that provides for various interest rates on borrowings generally at LIBOR plus 0.725% and a \$600.0 million term loan facility bearing interest at a rate equal to LIBOR plus 0.875%. We also have a letter of credit sublimit as part of our revolving credit facility. The amount available to be borrowed under the revolving credit facility is reduced on a dollar-for-dollar basis by the cumulative amount of any outstanding letters of credit, which totaled \$78.8 million at June 30, 2008. As of June 30, 2008, we had no borrowings outstanding under the revolving credit facility, leaving \$621.2 million of borrowing capacity. As of June 30, 2008, this borrowing capacity was limited under the maximum consolidated leverage ratio contained in our amended credit agreement to approximately \$215 million.

The credit spread charged for the revolving credit facility and term loan facility is impacted by our senior unsecured credit ratings from Standard & Poor's (BB+, with negative outlook) and Moody's (Ba2, with stable outlook). For instance, under the current terms of our amended credit agreement, a one-notch downgrade of our senior unsecured credit rating by either Standard & Poor's or Moody's would result in a 20 basis point increase in the credit spread under our revolving credit facility and a 25 basis point increase in the credit spread under our term loan facility. On November 29, 2007, Standard & Poor's revised its outlook for AutoNation to negative from stable.

Our senior unsecured notes and borrowings under the credit agreement are guaranteed by substantially all of our subsidiaries. Within the meaning of Regulation S-X, Rule 3-10, AutoNation, Inc. (the parent company) has no independent assets or operations, the guarantees of its subsidiaries are full and unconditional and joint and several, and any subsidiaries other than the guarantor subsidiaries are minor.

Other Debt

At June 30, 2008, we also had \$14.1 million of 9% senior unsecured notes due August 1, 2008. The 9% senior unsecured notes are guaranteed by substantially all of our subsidiaries.

Table of Contents

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

At June 30, 2008, we had \$236.5 million outstanding under a mortgage facility with an automotive manufacturer's captive finance subsidiary due December 1, 2017. The mortgage facility was refinanced under a new facility in November 2007 to provide a fixed interest rate (5.864%) and provide financing secured by 10-year mortgages on certain of our store properties. Prior to this refinancing, the facility utilized short-term LIBOR-based interest rates, which averaged 6.7% for the six months ended June 30, 2007.

Restrictions and Covenants

Our amended credit agreement, the indenture for our floating rate and 7% senior unsecured notes, our vehicle floorplan payable facilities, and our mortgage facility contain numerous customary financial and operating covenants that place significant restrictions on us, including our ability to incur additional indebtedness or prepay existing indebtedness, to create liens or other encumbrances, to sell (or otherwise dispose of) assets, and to merge or consolidate with other entities.

For example, under the amended credit agreement, we are required to maintain a maximum consolidated leverage ratio, as defined (3.0 times through September 30, 2009, after which it will revert to 2.75 times). As of June 30, 2008, the borrowing capacity under our revolving credit facility was limited by this ratio to approximately \$215 million. In March 2008, we amended our credit agreement to provide that non-cash impairment losses associated with goodwill and intangible assets as well as certain other non-cash charges would be excluded from the computation of the maximum consolidated leverage ratio. We are also required to maintain a maximum capitalization ratio (65%), as defined. A significant non-cash impairment charge associated with goodwill and other intangible assets could have an adverse impact on our ability to satisfy this financial ratio, unless we obtain an amendment or waiver of our amended credit agreement.

In addition, the indenture for the floating rate and 7% senior unsecured notes contains a debt incurrence restriction based on a minimum fixed charge coverage ratio (2:1), and the mortgage facility contains covenants regarding maximum cash flow leverage and minimum interest coverage.

Covenants related to the 9% senior unsecured notes were substantially eliminated as a result of the successful completion of the debt tender offer and consent solicitation performed in April 2006.

Our failure to comply with the covenants contained in our debt agreements could permit acceleration of all of our indebtedness. Our debt agreements have cross-default provisions that trigger a default in the event of an uncured default under other material indebtedness of AutoNation.

In the event of a downgrade in our senior unsecured credit ratings, none of the covenants described above would be impacted. In addition, availability under the amended credit agreement described above would not be impacted should a downgrade in the senior unsecured debt credit ratings occur. Certain covenants in the indenture for the floating rate and 7% senior unsecured notes would be eliminated with an upgrade of our senior unsecured credit ratings to investment grade by either Standard & Poor's or Moody's.

6. INCOME TAXES

Income taxes refundable included in Accounts Receivable totaled \$29.6 million at June 30, 2008, and \$21.9 million at December 31, 2007.

We file income tax returns in the U.S. federal jurisdiction and various states. As a matter of course, various taxing authorities, including the IRS, regularly audit us. Currently, the IRS is auditing the tax years from 2002 to 2006. These audits may result in proposed assessments where the ultimate resolution may result in our owing additional taxes. We believe that our tax positions comply with applicable tax law and that we have adequately provided for these matters.

We adopted the provisions of FASB Interpretation No. 48 (FIN 48) on January 1, 2007. FIN 48 clarifies the accounting for income taxes by prescribing a minimum recognition threshold a tax position is required to meet before being recognized. FIN 48 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure, and transition. As a result of the implementation of FIN 48, we recognized an increase of approximately \$2.0 million (net of tax effect) in the liability for unrecognized tax benefits which was accounted for as a reduction to the January 1, 2007, balance of retained earnings. It is our continuing policy to account

for interest and penalties associated with income tax obligations as a component of provision for income taxes in the accompanying Unaudited Condensed Consolidated Financial Statements.

Table of Contents

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

We recognized an \$8.6 million benefit (net of tax effect) during the six months ended June 30, 2007, related to the resolution of certain tax matters, changes in certain state tax laws, and other adjustments.

7. SHAREHOLDERS EQUITY

We repurchased 3.8 million shares of our common stock for an aggregate purchase price of \$54.1 million (average purchase price per share of \$14.37) during the six months ended June 30, 2008. As of June 30, 2008, \$142.7 million remained available for share repurchases under the existing repurchase program approved by our Board of Directors. Future share repurchases are subject to limitations contained in the indenture relating to our senior unsecured notes. As of July 1, 2008, approximately \$35 million remained available for share repurchases and other restricted payments under the indenture relating to our senior unsecured notes.

We issued 0.1 million shares of common stock in connection with the exercise of stock options during the six months ended June 30, 2008, and 6.2 million shares during the six months ended June 30, 2007. The proceeds from the exercise of stock options were \$1.0 million (average exercise price per share of \$10.85) during the six months ended June 30, 2008, and \$88.6 million (average exercise price per share of \$14.31) during the six months ended June 30, 2007.

8. EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share are computed by dividing net income (loss) by the weighted-average number of common shares outstanding during the period. Diluted earnings (loss) per share are based on the combined weighted-average number of common shares and common share equivalents outstanding, which includes, where appropriate, the assumed exercise of dilutive options.

The computation of weighted-average common and common equivalent shares used in the calculation of basic and diluted earnings per share is as follows:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2008	2007	2008	2007
Weighted average shares outstanding used in calculating basic earnings per share	178.0	206.8	179.0	207.4
Effect of dilutive options	0.7	1.8	0.6	2.3
Weighted average common and common equivalent shares used in calculating diluted earnings per share	178.7	208.6	179.6	209.7

We had approximately 13.6 million stock options outstanding at June 30, 2008, and 13.2 million stock options outstanding at June 30, 2007, of which 9.0 million for the six months ended June 30, 2008, and 4.4 million for the six months ended June 30, 2007, have been excluded from the computation of diluted earnings per share since they are anti-dilutive.

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

9. STOCK BASED COMPENSATION

On March 14, 2008, our Board of Directors, upon the recommendation of its Compensation Committee, approved a new employee equity and incentive plan (2008 Plan), which was approved by our stockholders at our Annual Meeting of Stockholders held on May 7, 2008. The 2008 Plan provides for the grant of stock options, stock appreciation rights, restricted stock, restricted stock units, and other stock-based and cash-based awards. A maximum of 12.0 million shares may be issued under the 2008 Plan, provided that no more than 2.0 million shares may be issued pursuant to the grant of awards, other than options or stock appreciation rights, that are settled in shares. Under the 2008 Plan, options and stock appreciation rights will be granted at a price equal to or above the closing price of our common stock on the date such awards are granted, or if the date of grant is not a trading day, on the next trading day. No awards have been granted under the 2008 Plan as of June 30, 2008.

We may also issue stock options to non-employee directors under the AutoNation, Inc. 2007 Non-Employee Director Stock Option Plan (Non-Employee Director Plan). The exercise price of all stock options granted under the Non-Employee Director Plan is equal to or above the closing price of our common stock on the trading day immediately prior to the date of grant.

No additional shares may be issued under our other employee stock option plans (Prior Plans), pursuant to which employee stock options were previously granted prior to the adoption of the 2008 Plan. Under our Prior Plans, employee stock options were granted with exercise prices equal to or above the closing price of our common stock on the trading day immediately prior to the date of grant.

Stock options granted under all plans are non-qualified. Upon exercise, shares of common stock are issued from our treasury stock. Generally, employee stock options have a term of 10 years from the date of grant and vest in increments of 25% per year over a four-year period on the yearly anniversary of the grant date. Stock options granted to non-employee directors have a term of 10 years from the date of grant and vest immediately upon grant.

Certain of our equity-based compensation plans contain provisions that provide for vesting of awards upon retirement. Accordingly, the related compensation cost for awards granted subsequent to our adoption on January 1, 2006, of SFAS No. 123 (revised 2004), *Shared-Based Payment*, must be recognized over the shorter of the stated vesting period or the period until employees become retirement-eligible. During the second quarter of 2008, we corrected our expense attribution method to reflect this requirement and recognized \$5.3 million (\$3.1 million after-tax) of additional stock compensation expense. This correction was immaterial to all prior and current quarterly and annual periods.

The following table summarizes the compensation expense (included in Selling, General and Administrative expenses in the 2008 and 2007 Unaudited Condensed Consolidated Income Statement) attributable to stock options granted or vested subsequent to December 31, 2005:

	Three Months		Six Months Ended	
	Ended		June 30,	
	June 30,		June 30,	
	2008	2007	2008	2007
Pre-tax expense	\$ 8.5	\$ 5.0	\$ 12.3	\$ 8.0
After-tax expense	\$ 5.0	\$ 3.1	\$ 7.3	\$ 5.1

Table of Contents

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

A summary of stock option activity is as follows for the six months ended June 30, 2008:

	Shares (in millions)	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value (in millions)
Options outstanding at January 1	14.2	\$ 16.68		
Granted	0.1	\$ 15.66		
Exercised	(0.1)	\$ 10.85		
Forfeited	(0.2)	\$ 19.58		
Expired	(0.4)	\$ 19.04		
Options outstanding at June 30	13.6	\$ 16.58	5.7	\$ 3.3
Options exercisable at June 30	8.9	\$ 14.90	4.3	\$ 3.3
Options available for future grants at June 30	13.7			

The total intrinsic value (which equals the spread between the market value of the stock and the exercise price) of stock options exercised was \$0.3 million during the six months ended June 30, 2008, and \$48.0 million during the six months ended June 30, 2007. As of June 30, 2008, there was \$18.0 million of total unrecognized compensation cost related to non-vested stock options, which is expected to be recognized over a weighted average period of 1.5 years.

10. COMPREHENSIVE INCOME

Comprehensive income is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
Net income	\$ 51.8	\$ 77.3	\$ 102.5	\$ 154.9
Other comprehensive income (loss)	(0.1)	(0.1)		0.1
Comprehensive income	\$ 51.7	\$ 77.2	\$ 102.5	\$ 155.0

11. ACQUISITIONS

We acquired one automotive retail franchise and related assets during each of the six months ended June 30, 2008 and 2007. Acquisitions are included in the Unaudited Condensed Consolidated Financial Statements from the date of acquisition.

We paid \$29.4 million during the six months ended June 30, 2008, and \$0.8 million during the six months ended June 30, 2007, for acquisitions. The purchase price allocation for the business combination for the six months ended June 30, 2008, is subject to final adjustment.

Responsibility for the vehicle floorplan payable is assumed by us in acquisition transactions. Typically, we refinance the vehicle floorplan payable in which case the initial refinancing is accounted for as a vehicle floorplan payable-non-trade.

12. COMMITMENTS AND CONTINGENCIES

Legal Proceedings

We are involved, and will continue to be involved, in numerous legal proceedings arising out of the conduct of our business, including litigation with customers, employment related lawsuits, class actions, purported class actions, and actions brought by governmental authorities.

Table of Contents

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

We are a party to numerous legal proceedings that arose in the conduct of our business. We do not believe that the ultimate resolution of these matters will have a material adverse effect on our results of operations, financial condition, or cash flows. However, the results of these matters cannot be predicted with certainty, and an unfavorable resolution of one or more of these matters could have a material adverse effect on our financial condition, results of operations, and cash flows.

Other Matters

AutoNation, acting through its subsidiaries, is the lessee under many real estate leases that provide for the use by our subsidiaries of their respective dealership premises. Pursuant to these leases, our subsidiaries generally agree to indemnify the lessor and other related parties from certain liabilities arising as a result of the use of the leased premises, including environmental liabilities, or a breach of the lease by the lessee. Additionally, from time to time, we enter into agreements with third parties in connection with the sale of assets or businesses in which we agree to indemnify the purchaser or related parties from certain liabilities or costs arising in connection with the assets or business. Also, in the ordinary course of business in connection with purchases or sales of goods and services, we enter into agreements that may contain indemnification provisions. In the event that an indemnification claim is asserted, liability would be limited by the terms of the applicable agreement.

From time to time, primarily in connection with dispositions of automotive stores, our subsidiaries assign or sublet to the dealership purchaser the subsidiaries' interests in any real property leases associated with such stores. In general, our subsidiaries retain responsibility for the performance of certain obligations under such leases to the extent that the assignee or sublessee does not perform, whether such performance is required prior to or following the assignment or subletting of the lease. Additionally, AutoNation and its subsidiaries generally remain subject to the terms of any guarantees made by us and our subsidiaries in connection with such leases. Although we generally have indemnification rights against the assignee or sublessee in the event of non-performance under these leases, as well as certain defenses, we estimate that lessee rental payment obligations during the remaining terms of these leases are approximately \$83 million at June 30, 2008. Our exposure under these leases is difficult to estimate and there can be no assurance that any performance of AutoNation or its subsidiaries required under these leases would not have a material adverse effect on our business, financial condition, and cash flows.

At June 30, 2008, surety bonds, letters of credit, and cash deposits totaled \$116.7 million, including \$78.8 million of letters of credit. In the ordinary course of business, we are required to post performance and surety bonds, letters of credit, and/or cash deposits as financial guarantees of our performance. We do not currently provide cash collateral for outstanding letters of credit.

In the ordinary course of business, we are subject to numerous laws and regulations, including automotive, environmental, health and safety, and other laws and regulations. We do not anticipate that the costs of such compliance will have a material adverse effect on our business, consolidated results of operations, cash flows, or financial condition, although such outcome is possible given the nature of our operations and the extensive legal and regulatory framework applicable to our business. We do not have any material known environmental commitments or contingencies.

AUTONATION, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

13. DISCONTINUED OPERATIONS

Discontinued operations are related to stores that were sold or terminated, that we have entered into an agreement to sell or terminate, or for which we otherwise deem a proposed sales transaction or termination to be probable, with no material changes expected. Generally, the sale of a store is completed within 60 to 90 days after the date of a sale agreement.

We received proceeds (net of cash relinquished) of \$12.3 million during the six months ended June 30, 2008, and \$36.1 million during the same period in 2007 related to discontinued operations. We classified five stores as discontinued operations during the six months ended June 30, 2008, and nine stores during the same period in 2007.

The accompanying Unaudited Condensed Consolidated Financial Statements for all the periods presented have been adjusted to classify these stores as discontinued operations. Selected income statement data for our discontinued operations is as follows:

	Three Months Ended June		Six Months Ended June	
	30,		30,	
	2008	2007	2008	2007
Total revenue	\$ 27.8	\$ 134.5	\$ 72.7	\$ 287.6
Pre-tax loss from discontinued operations	\$ (2.7)	\$ (2.0)	\$ (4.8)	\$ (3.1)
Pre-tax gain (loss) on disposal of discontinued operations	1.4	(0.3)	2.4	(1.8)
	(1.3)	(2.3)	(2.4)	(4.9)
Income tax expense (benefit)	(0.5)	(0.3)	3.6	2.1
Loss from discontinued operations, net of income taxes	\$ (0.8)	\$ (2.0)	\$ (6.0)	\$ (7.0)

A summary of the total assets and liabilities of discontinued operations included in Other Current Assets and Other Current Liabilities is as follows:

	June	December
	30,	31,
	2008	2007
Inventory	\$ 24.4	\$ 52.1
Other current assets	5.7	11.0
Property and equipment, net	23.7	29.2
Goodwill	23.1	28.6
Other non-current assets		0.1
Total assets	\$ 76.9	\$ 121.0
Vehicle floorplan payable-trade	\$ 10.6	\$ 33.3
Vehicle floorplan payable-non-trade	10.5	12.2
Other current liabilities	4.8	6.6
Total liabilities	\$ 25.9	\$ 52.1

Responsibility for our vehicle floorplan payable at the time of divestiture is assumed by the buyer. Cash received from business divestitures is net of vehicle floorplan payable assumed by the buyer.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion should be read in conjunction with the Unaudited Condensed Consolidated Financial Statements and notes thereto included under Item 1. In addition, reference should be made to our audited consolidated financial statements and notes thereto and related Management's Discussion and Analysis of Financial Condition and Results of Operations included in our most recent Annual Report on Form 10-K.

Certain amounts have been reclassified from the previously reported financial statements to conform to the financial statement presentation of the current period.

Overview

AutoNation, Inc., through its subsidiaries, is the largest automotive retailer in the United States. As of June 30, 2008, we owned and operated 319 new vehicle franchises from 242 dealerships located in major metropolitan markets, predominantly in the Sunbelt region of the United States. Our stores, which we believe include some of the most recognizable and well known in our key markets, sell 39 different brands of new vehicles. The core brands of vehicles that we sell, representing approximately 96% of the new vehicles that we sold during the six months ended June 30, 2008, are manufactured by Toyota, Ford, Honda, Nissan, General Motors, Daimler, Chrysler, and BMW.

We operate in a single operating and reporting segment, automotive retailing. We offer a diversified range of automotive products and services, including new vehicles, used vehicles, vehicle maintenance and repair services, vehicle parts, extended service contracts, vehicle protection products, and other aftermarket products. We also arrange financing for vehicle purchases through third-party finance sources. We believe that the significant scale of our operations and the quality of our managerial talent allow us to achieve efficiencies in our key markets by, among other things, leveraging our market brands and advertising, improving asset management, implementing standardized processes, and increasing productivity across all of our stores.

For the six months ended June 30, 2008, new vehicle sales accounted for approximately 55% of our total revenue, but approximately 22% of our total gross margin. Our parts and service and finance and insurance operations, while comprising approximately 20% of total revenue for the six months ended June 30, 2008, contributed approximately 64% of our gross margin for the same period.

We believe that many factors affect sales of new vehicles and automotive retailers' gross profit margins in the United States and in our particular geographic markets, including the economy, inflation, recession or economic slowdown, consumer confidence, housing markets, fuel prices, credit availability, the level of manufacturers' production capacity, manufacturer incentives (and consumers' reaction to such offers), intense industry competition, interest rates, the prospects of war, other international conflicts or terrorist attacks, severe weather conditions, the level of personal discretionary spending, product quality, affordability and innovation, employment/unemployment rates, the number of consumers whose vehicle leases are expiring, and the length of consumer loans on existing vehicles. Changes in interest rates could significantly impact industry new vehicle sales and vehicle affordability, due to the direct relationship between interest rates and monthly loan payments, a critical factor for many vehicle buyers, and the impact interest rates can have on customers' borrowing capacity and disposable income. In periods where there is a decline in the availability of credit, particularly in the sub-prime lending market, the ability of certain consumers to purchase vehicles will be limited, resulting in a decline in sales or profits. Sales of certain new vehicles, particularly larger trucks and sports utility vehicles that historically have provided us with higher gross margins, also are impacted by fuel prices and the level of construction activity.

During the three months ended June 30, 2008, we had net income from continuing operations of \$52.6 million and diluted earnings per share of \$0.29, as compared to net income from continuing operations of \$79.3 million and diluted earnings per share of \$0.38, during the same period in 2007. During the six months ended June 30, 2008, we had net income from continuing operations of \$108.5 million and diluted earnings per share of \$0.60, as compared to net income from continuing operations of \$161.9 million and diluted earnings per share of \$0.77 during the same period in 2007.

Results for the three and six months ended June 30, 2008, were impacted by a stock compensation expense adjustment of \$5.3 million (\$3.1 million after-tax), or \$0.02 per share, and franchise impairments of \$5.1 million (\$3.0 million after-tax), or \$0.02 per share. See further discussion of these adjustments in Note 9, Stock-Based

Compensation, and Note 4, Goodwill and Intangible Assets, of the Notes to Unaudited Condensed Consolidated Financial Statements. Results for the three months ended June 30, 2007, included favorable tax adjustments of \$3.5 million, or \$0.02 per share. Results for the six months ended June 30, 2007, included favorable tax adjustments of \$8.6 million, or \$0.04 per share.

Table of Contents

Market Challenges

Results for the three and six months ended June 30, 2008, were adversely impacted by a challenging automotive retail environment, which resulted in a decline in vehicle sales and lower gross profit for vehicles sold. Our operating income decreased by approximately \$91 million, or 25%, for the six months ended June 30, 2008, compared to the same period in 2007. A significant portion of this decline is attributable to our domestic franchises. Overall, the decline in vehicle sales was driven by the current unfavorable economic conditions in the United States, including continued weakness in the housing market, the increase in fuel prices, and tightening in the automotive retail credit market. We now anticipate that full-year industry new vehicle sales will decline from the low-16 million unit level in 2007 to the low-14 million unit level for 2008. However, actual sales may materially differ.

In continuing response to the ongoing macroeconomic and industry challenges, we are executing a cost reduction plan with a targeted annualized run rate savings of approximately \$100 million on a pre-tax basis. During the six months ended June 30, 2008, we achieved approximately \$25 million of this benefit. In the third and fourth quarters of 2008, we expect to achieve approximately \$50 million of savings, for a full-year 2008 impact of approximately \$75 million on a pre-tax basis. Our targeted annualized cost savings include a \$30 million reduction in advertising spending, a \$20 million reduction in corporate overhead expense, and a \$50 million reduction in store compensation and other selling, general, and administrative expenses. We do not expect significant severance or other exit costs associated with these actions.

Critical Accounting Policies and Estimates

We prepare our Unaudited Condensed Consolidated Financial Statements in conformity with accounting principles generally accepted in the United States, which require us to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. We evaluate our estimates on an ongoing basis, and we base our estimates on historical experience and various other assumptions we believe to be reasonable. Actual outcomes could differ materially from those estimates in a manner that could have a material effect on our Unaudited Condensed Consolidated Financial Statements. For a complete discussion of our critical and significant accounting policies, please see Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the fiscal year ended December 31, 2007.

Goodwill and franchise rights assets are tested for impairment annually or more frequently when events or circumstances indicate that impairment may have occurred. We are subject to financial statement risk to the extent that goodwill, franchise rights assets, or other intangible assets become impaired due to decreases in the fair value of the related underlying business.

The risk of goodwill and franchise rights impairment losses may increase to the extent that our sales and earnings and/or market capitalization decline. A decrease in our market capitalization, including due to a short-term decrease in our stock price, or a negative long-term performance outlook, could cause the carrying value of our reporting unit to exceed its fair value, which may result in an impairment loss. As of June 30, 2008, we have \$2.8 billion of goodwill and \$318.6 million of franchise rights on our Consolidated Balance Sheet.

Table of Contents

The test for goodwill impairment, as defined by Statement of Financial Accounting Standards No. 142, *Goodwill and Other Intangible Assets* (SFAS No. 142), is a two-step approach. In the first step of the impairment test, we are required to determine if the fair value of our single reporting unit is less than its carrying value. If so, we are required to proceed to the second step, which involves an analysis reflecting the allocation of the fair value determined in the first step (as if it was the purchase price in a business combination). This process results in the determination of a new amount of goodwill. The calculated fair value of the goodwill resulting from this allocation would be compared to the carrying value of the goodwill in the reporting unit with the difference reflected as a non-cash impairment loss. The purpose of the second step is only to determine the amount of goodwill that should be recorded on the balance sheet. The recorded amounts of other items on the balance sheet are not adjusted.

We estimate the fair value of our reporting unit using market and income valuation approaches. The market valuation approach estimates our enterprise value, which is comprised of our market capitalization and the market value of our debt. The income valuation approach estimates our enterprise value using a net present value model, which discounts projected free cash flows (DCF) of our business at our weighted average cost of capital as the discount rate. We also consider a control premium that represents the estimated amount an investor would pay for our equity securities to obtain a controlling interest.

The forecasted cash flows used in the DCF model contain inherent uncertainties, including significant estimates and assumptions related to growth rates, margins, working capital requirements, capital expenditures and cost of capital, which we base upon our five year business plans that we update annually, and long-term growth rate assumptions. We evaluate the estimates and assumptions we use in our DCF model on an ongoing basis and base them on our historical experience, third-party industry projections, economic forecasts, and other marketplace data we believe to be reasonable.

The requirements of the goodwill impairment testing process are such that, in our situation, if the first step of the impairment testing process indicates that the fair value of the reporting unit is below its carrying value (even by a relatively small amount), the requirements of the second step of the test would result in a significant decrease in the amount of goodwill recorded on the balance sheet.

This is due to the fact that, prior to our adoption on July 1, 2001, of Statement of Financial Accounting Standards No. 141, *Business Combinations*, and in accordance with applicable accounting standards, we did not separately identify franchise rights associated with the acquisition of dealerships as separate intangible assets. In performing the second step, we are required by SFAS No. 142 to assign value to any previously unrecognized identifiable intangible assets (including such franchise rights, which are substantial) even though such amounts are not separately identified on our Consolidated Balance Sheet. Due to the fact that we would be required to allocate significant value to these franchise rights assets for the purpose of conducting the second step of the impairment testing, but we would not be permitted to record the franchise rights assets on the balance sheet, the remaining fair value that would be allocated to goodwill would be significantly reduced. In effect, we will be required by the second step of the impairment testing under SFAS No. 142 to reduce our goodwill by the amount of these previously unrecognized franchise rights assets, which are substantial (in addition to other adjustments to goodwill resulting from the impairment testing).

Accordingly, if in future periods we are required to apply the second step of the impairment test, we believe that we would incur a significant non-cash impairment charge related to goodwill, which would likely have a material adverse impact on our Consolidated Financial Statements. A significant non-cash impairment charge, unless we obtain an amendment or waiver of our debt agreements, could also have an adverse impact on our ability to satisfy the financial ratios or other covenants under our debt and other agreements.

During 2008, we changed our annual impairment test date from June 30 to April 30, as this date provides additional time to complete the impairment testing and report the results of those tests in our June 30 Quarterly Report on Form 10-Q.

We completed our annual impairment test for goodwill as of April 30, 2008, and no goodwill impairment charges resulted from the required impairment test. If our market valuation approach had been a hypothetical 10% lower as of April 30, 2008, we would not have been required to complete the second step of the goodwill impairment test. If our income valuation approach had been a hypothetical 10% lower as of April 30, 2008, we would not have been required to complete the second step of the goodwill impairment test. These effects of a hypothetical 10% decrease in valuation

estimates are not intended to provide a sensitivity analysis of every potential outcome.

We also completed our annual impairment test for intangibles with indefinite lives as of April 30, 2008. We recorded \$5.1 million (\$3.0 million, net of tax) of impairment charges related to rights under franchise agreements to reduce the carrying value of franchise agreements to estimated fair value. See Note 4, Goodwill and Intangible Assets, of the Notes to Unaudited Condensed Consolidated Financial Statements for additional information.

Additionally, we are required to complete interim tests for impairment of goodwill and other intangible assets when events occur or circumstances change between annual tests that indicate that the assets might be impaired. We face a challenging automotive retail environment and an uncertain economic environment in general. As a result of these conditions, there can be no assurance that a material impairment charge will not occur in a future period. We will continue to monitor events in future periods to determine if additional asset impairment testing should be performed.

Same store new vehicle revenue decreased \$418.6 million or 16.2% for the three months ended June 30, 2008, and \$654.1 million or 13.1% for the six months ended June 30, 2008, as compared to the same periods in 2007, primarily as a result of a continued challenging automotive retail environment, which resulted in decreased same store unit volume. Same store revenue per new vehicle retailed decreased 3.9% during the three months ended June 30, 2008, and 2.6% during the six months ended June 30, 2008, as compared to the same periods in 2007. We believe these results were driven by the current unfavorable economic conditions in the United States, including continued weakness in the housing market and tightening in the automotive retail credit market. Additionally, the increase in fuel prices has caused a shift in consumer demand toward more fuel-efficient vehicles. The average revenue per vehicle retailed has declined due to the relatively lower selling prices of these vehicles. To the extent that we continue to see unfavorable economic conditions, we anticipate that the automotive retail market will remain challenging in 2008. Accordingly, we expect the decline in our sales to continue in 2008.

Same store gross profit per new vehicle retailed decreased 8.3% during the three months ended June 30, 2008, and 9.2% during the six months ended June 30, 2008, as compared to the same periods in 2007, due to increased pricing pressure as a result of a competitive retail environment, tightening in the automotive retail credit market, and increasing margin pressure on less fuel-efficient trucks and sport utility vehicles due to rising fuel costs. We expect continued margin pressure in 2008.

Our new vehicle inventories were \$1.9 billion or 62 days supply at June 30, 2008, as compared to new vehicle inventories of \$1.8 billion or 52 days supply at December 31, 2007, and \$1.8 billion or 55 days at June 30, 2007. The increase in our new vehicle inventory days supply is primarily due to lower than expected sales during the three months ended June 30, 2008.

The following table details net new vehicle inventory carrying cost, consisting of new vehicle floorplan interest expense, net of floorplan assistance earned (amounts received from manufacturers specifically to support store financing of new vehicle inventory). Floorplan assistance is accounted for as a component of new vehicle gross profit.

	Three Months Ended June 30,			Six Months Ended June 30,		
	2008	2007	Variance	2008	2007	Variance
(\$ in millions)						
Floorplan assistance	\$ 19.6	\$ 24.3	\$ (4.7)	\$ 40.6	\$ 48.4	\$ (7.8)
Floorplan interest expense (new vehicles)	(20.8)	(32.4)	11.6	(45.9)	(64.0)	18.1
Net new vehicle inventory carrying cost	\$ (1.2)	\$ (8.1)	\$ 6.9	\$ (5.3)	\$ (15.6)	\$ 10.3

The net new vehicle inventory carrying cost (new vehicle floorplan interest expense net of floorplan assistance from manufacturers) decreased \$6.9 million for the three months ended June 30, 2008, and \$10.3 million for the six months ended June 30, 2008, as compared to the same periods in 2007, primarily as a result of a decrease in new vehicle floorplan interest expense due to lower floorplan interest rates, partially offset by a decrease in floorplan assistance due to lower new vehicle sales.

Revenue per vehicle retailed								
Gross profit per vehicle retailed	\$ 1,627	\$ 1,774	\$ (147)	(8.3)	\$ 1,643	\$ 1,834	\$ (191)	(10.4)
Gross profit as a percentage of revenue	10.3%	10.7%			10.3%	11.2%		

Same store retail used vehicle revenue decreased \$75.5 million or 8.8% for the three months ended June 30, 2008, and \$126.8 million or 7.4% for the six months ended June 30, 2008, as compared to the same periods in 2007, primarily as a result of a reduction in revenue per vehicle retailed and a decrease in same store unit volume. Same store unit volume decreased as a result of a challenging retail environment driven by the current unfavorable economic conditions in the United States, including continued weakness in the housing market, the increase in fuel prices, and tightening in the automotive retail credit market. The decrease in used vehicle sales volumes was also driven in part by a decrease in trade-in volume associated with new vehicle sales. To the extent that we continue to see unfavorable economic conditions, we anticipate that the automotive retail market will remain challenging in 2008.

Same store gross profit per used vehicle retailed decreased 8.3% during the three months ended June 30, 2008, and 10.4% during the six months ended June 30, 2008, as compared to the same periods in 2007, due to increased pricing pressure as a result of a competitive retail environment, tightening in the automotive retail credit market, and increasing margin pressure on less fuel-efficient trucks and sport utility vehicles due to rising fuel costs.

Used vehicle inventories were \$288.0 million or 42 days supply at June 30, 2008, compared to \$308.6 million or 44 days supply at December 31, 2007, and \$361.6 million or 44 days at June 30, 2007.

Gross profit as a percentage of revenue	43.5%	43.8%			43.4%	43.7%		

Parts and service revenue is primarily derived from vehicle repairs paid directly by customers or via reimbursement from manufacturers and others under warranty programs.

Same store parts and service revenue decreased \$7.4 million or 1.2% during the three months ended June 30, 2008, as compared to the same period in 2007, due primarily to a \$5.9 million decrease in warranty revenue and a \$3.6 million decrease in revenues associated with the preparation of vehicles for sale. Partially offsetting these decreases were a \$1.8 million increase in customer-paid revenue for parts and service, and smaller increases in other parts and service revenues. Additionally, during the three months ended June 30, 2008, we experienced a 1.6% increase in parts and service revenues and a 1.1% increase in gross profit related to volume imports and premium luxury vehicles, as compared to a 4.4% decrease in revenues and a 6.3% decrease in gross profit related to parts and service for domestic vehicles.

Same store parts and service revenue decreased \$2.2 million or 0.2% during the six months ended June 30, 2008, as compared to the same period in 2007, due to an \$8.1 million decrease in warranty revenue and a \$4.6 million decrease in revenues associated with the preparation of vehicles for sale. Partially offsetting these decreases were a \$7.1 million increase in customer-paid revenue for parts and service, a \$1.4 million increase in wholesale parts sales, and smaller increases in other parts and service revenues, such as retail parts sales. Additionally, during the six months ended June 30, 2008, we experienced a 2.1% increase in parts and service revenues and a 1.3% increase in gross profit related to volume imports and premium luxury vehicles, as compared to 2.7% decrease in revenues and a 4.1% decrease in gross profit related to parts and service for domestic vehicles.

Warranty declines were driven in part by improved quality of vehicles manufactured in recent years, as well as changes to certain manufacturers' warranty and prepaid service programs and lower vehicle sales volume. These declines were only minimally offset by the increases in our customer-paid business. Customer-paid business growth was constrained by economic pressures on consumer spending.

Same store gross profit as a percentage of revenue decreased to 43.5% during the three months ended June 30, 2008, compared to 43.8% during the same period in 2007, and 43.4% during the six months ended June 30, 2008, compared to 43.7% during the same period in 2007. The decrease in gross profit as a percentage of revenue is primarily due to a shift in business from repair work to routine maintenance, which typically has lower margins. This shift is due to both the increased reliability of vehicles manufactured in recent years and our success in capturing more of the total service business of our customers through our standardized service process and marketing communications initiatives.

Table of Contents**Finance and Insurance**

(\$ in millions, except per vehicle data)	Three Months Ended June 30,				Six Months Ended June 30,			
	2008	2007	Variance Favorable/ (Unfavorable)	% Variance	2008	2007	Variance Favorable/ (Unfavorable)	% Variance
Reported:								
Revenue and gross profit	\$ 136.0	\$ 150.1	\$ (14.1)	(9.4)	\$ 280.9	\$ 296.3	\$ (15.4)	(5.2)
Gross profit per vehicle retailed	\$ 1,099	\$ 1,103	\$ (4)	(0.4)	\$ 1,141	\$ 1,109	\$ 32	2.9
Same Store:								
Revenue and gross profit	\$ 135.4	\$ 150.1	\$ (14.7)	(9.8)	\$ 279.8	\$ 296.3	\$ (16.5)	(5.6)
Gross profit per vehicle retailed	\$ 1,099	\$ 1,103	\$ (4)	(0.4)	\$ 1,141	\$ 1,109	\$ 32	2.9

Same store finance and insurance revenue and gross profit decreased \$14.7 million or 9.8% during the three months ended June 30, 2008, and \$16.5 million or 5.6% during the six months ended June 30, 2008, as compared to the same periods in 2007, primarily due to lower new and used sales volumes.

Same store finance and insurance revenue and gross profit per vehicle retailed was relatively flat during the three months ended June 30, 2008, and increased 2.9% during the six months ended June 30, 2008, compared to the same periods in 2007. We believe these results were driven by an increase in finance and insurance products sold per customer, offset by the current unfavorable economic conditions in the United States, including the tightening in the automotive retail credit market.

Table of Contents**Operating Expenses*****Selling, General, and Administrative Expenses***

During the three months ended June 30, 2008, selling, general, and administrative expenses decreased \$18.6 million or 3.7%. As a percentage of total gross profit, selling, general, and administrative expenses increased to 75.5% for the three months ended June 30, 2008, from 71.1% for the same period in 2007, resulting from a deleveraging of our cost structure due to the decline in vehicle sales. Decreases in selling, general, and administrative expenses during the three months ended June 30, 2008, are primarily due to a \$13.0 million decrease in compensation expense, and a \$7.8 million decrease in gross advertising expenditures, partially offset by a \$1.6 million decrease in advertising reimbursements from manufacturers.

During the six months ended June 30, 2008, selling, general, and administrative expenses decreased \$31.6 million or 3.1%. As a percentage of total gross profit, selling, general, and administrative expenses increased to 74.9% for the six months ended June 30, 2008, from 71.1% for the same period in 2007, resulting from a deleveraging of our cost structure due to the decline in vehicle sales. Decreases in selling, general, and administrative expenses during the six months ended June 30, 2008, are primarily due to a \$24.3 million decrease in compensation expense, and an \$11.6 million decrease in gross advertising expenditures, partially offset by a \$2.4 million decrease in advertising reimbursements from manufacturers.

Compensation expense for the three and six months ended June 30, 2008, includes a \$5.3 million non-cash stock compensation expense adjustment as discussed in Note 9, Stock-Based Compensation, of the Notes to Unaudited Condensed Consolidated Financial Statements.

For a discussion of our cost reduction plan with a targeted annualized run rate savings of approximately \$100 million on a pre-tax basis, please refer to *Market Challenges* above.

Non-Operating Income (Expense)***Floorplan Interest Expense***

Floorplan interest expense was \$21.5 million for the three months ended June 30, 2008, as compared to \$32.6 million for the same period in 2007, and \$46.8 million for the six months ended June 30, 2008, as compared to \$64.3 million for the same period in 2007. The decreases in floorplan interest expense of \$11.1 million for the three months ended June 30, 2008, and \$17.5 million for the six months ended June 30, 2008, are primarily the result of lower short-term LIBOR interest rates, partially offset by higher average vehicle floorplan balances and the additional floorplan interest expense incurred in connection with the floorplan credit agreements we entered into during the second quarter of 2008 to finance a portion of our used vehicle inventory.

Other Interest Expense

Other interest expense was incurred primarily on borrowings under our term loan facility, mortgage facility, revolving credit facility, and outstanding senior unsecured notes. Other interest expense was \$21.6 million for the three months ended June 30, 2008, and \$26.4 million for the same period in 2007. The decrease in other interest expense of \$4.8 million during the three months ended June 30, 2008, as compared to 2007, is primarily due to a \$6.3 million decrease in interest expense resulting from lower interest rates on our term loan facility and floating rate senior notes, partially offset by a \$2.3 million increase in interest expense related to higher levels of debt outstanding during the period associated with our mortgage facility and other indebtedness.

Other interest expense was \$48.4 million for the six months ended June 30, 2008, and \$52.8 million for the same period in 2007. The decrease in other interest expense of \$4.4 million during the six months ended June 30, 2008, as compared to 2007, is due to a \$10.0 million decrease in interest expense resulting from lower interest rates on our term loan facility and floating rate senior notes, partially offset by a \$5.6 million increase in interest expense related to higher levels of debt outstanding during the period associated with our mortgage facility, our revolving credit facility, and other indebtedness.

Provision for (Benefit from) Income Taxes

Our effective income tax rate was 41.0% for the three months ended June 30, 2008, and 37.3% for the three months ended June 30, 2007. Our effective income tax rate was 40.8% for the six months ended June 30, 2008, and 36.6% for the six months ended June 30, 2007. We recognized an \$8.6 million benefit (net of tax effect) during the six months ended June 30, 2007, related to the resolution of certain tax matters, changes in certain state tax laws, and other

adjustments. Income taxes are provided based upon our anticipated underlying annual blended federal and state income tax rates adjusted, as necessary, for any other tax matters occurring during the period. As we operate in various states, our effective tax rate is also dependent upon our geographic revenue mix. We expect our underlying tax rate to be approximately 40% on an ongoing basis, excluding the impact of any potential tax adjustments in the future.

Table of Contents**Discontinued Operations**

Discontinued operations are related to stores that were sold or terminated, that we have entered into an agreement to sell or terminate, or for which we otherwise deem a proposed sales transaction or termination to be probable, with no material changes expected. We had a loss from discontinued operations totaling \$0.8 million during the three months ended June 30, 2008, and \$2.0 million during the three months ended June 30, 2007, net of income taxes. We had a loss from discontinued operations totaling \$6.0 million during the six months ended June 30, 2008, and \$7.0 million during the six months ended June 30, 2007, net of income taxes. Certain amounts reflected in the accompanying Unaudited Condensed Consolidated Financial Statements for the three and six months ended June 30, 2008 and 2007, have been adjusted to classify the results of these stores as discontinued operations.

Liquidity and Capital Resources

We believe that our funds generated through future operations and availability of borrowings under our secured floorplan facilities (for new vehicles) and revolving credit facility will be sufficient to service our debt and fund our working capital requirements, pay our tax obligations and commitments and contingencies, and meet any seasonal operating requirements for the foreseeable future. For information regarding compliance with our covenants, refer to the discussion under the heading *Restrictions and Covenants* below.

At June 30, 2008, we had \$42.1 million of unrestricted cash and cash equivalents. In the ordinary course of business, we are required to post performance and surety bonds, letters of credit, and/or cash deposits as financial guarantees of our performance. At June 30, 2008, surety bonds, letters of credit, and cash deposits totaled \$116.7 million, including \$78.8 million of letters of credit. We do not currently provide cash collateral for outstanding letters of credit.

See the table at the beginning of Note 5, Notes Payable and Long-Term Debt, of the Notes to Unaudited Condensed Consolidated Financial Statements for the amounts of our notes payable and long-term debt as of June 30, 2008, and December 31, 2007.

Senior Unsecured Notes and Credit Agreement

We have \$300.0 million of floating rate senior unsecured notes due April 15, 2013, and \$300.0 million of 7% senior unsecured notes due April 15, 2014, in each case at par. The floating rate senior unsecured notes bear interest at a rate equal to three-month LIBOR plus 2.0% per annum, adjusted quarterly. The floating rate senior unsecured notes may be redeemed by us currently at 103% of principal, on or after April 15, 2009, at 102% of principal, on or after April 15, 2010, at 101% of principal, and on or after April 15, 2011, at 100% of principal. The 7% senior unsecured notes may be redeemed by us on or after April 15, 2009, at 105.25% of principal, on or after April 15, 2010, at 103.5% of principal, on or after April 15, 2011, at 101.75% of principal, and on or after April 15, 2012, at 100% of principal. We may from time to time purchase our outstanding senior unsecured notes in open market purchases or privately negotiated transactions. Such repurchases, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions, and other factors.

Under our amended credit agreement which terminates on July 18, 2012, we have a \$700.0 million revolving credit facility that provides for various interest rates on borrowings generally at LIBOR plus 0.725% and a \$600.0 million term loan facility bearing interest at a rate equal to LIBOR plus 0.875%. We also have a letter of credit sublimit as part of our revolving credit facility. The amount available to be borrowed under the revolving credit facility is reduced on a dollar-for-dollar basis by the cumulative amount of any outstanding letters of credit, which was \$78.8 million at June 30, 2008. As of June 30, 2008, we had no borrowings outstanding under the revolving credit facility, leaving \$621.2 million of borrowing capacity. As of June 30, 2008, this borrowing capacity was limited under the maximum consolidated leverage ratio contained in our amended credit agreement to approximately \$215 million.

The credit spread charged for the revolving credit facility and term loan facility is impacted by our senior unsecured credit ratings from Standard & Poor's (BB+, with negative outlook) and Moody's (Ba2, with stable outlook). For instance, under the current terms of our amended credit agreement, a one-notch downgrade of our senior unsecured credit rating by either Standard & Poor's or Moody's would result in a 20 basis point increase in the credit spread under our revolving credit facility and a 25 basis point increase in the credit spread under our term loan facility. On November 29, 2007, Standard & Poor's revised its outlook for AutoNation to negative from stable, indicating concerns that our results in 2008 could be pressured by lower vehicle sales. Credit ratings could be lowered if new

vehicle demand worsens significantly, threatening our earnings and cash flow, or if we increase our financial leverage through acquisitions or share repurchases. The outlook could be revised back to stable if market demand returns in the near term or if we demonstrate our ability to maintain reasonable profitability, cash flow, and leverage measures despite the ongoing revenue pressures.

Table of Contents***Other Debt***

At June 30, 2008, we had \$14.1 million of 9% senior unsecured notes due August 1, 2008. The 9% senior unsecured notes are guaranteed by substantially all of our subsidiaries.

At June 30, 2008, we had \$236.5 million outstanding under a mortgage facility with an automotive manufacturer's captive finance subsidiary due December 1, 2017. The mortgage facility was refinanced under a new facility in November 2007 to provide a fixed interest rate (5.864%) and provide financing secured by 10-year mortgages on certain of our store properties. Prior to this refinancing, the facility utilized short-term LIBOR-based interest rates, which averaged 6.7% for the three months ended June 30, 2007.

Vehicle floorplan payable-trade totaled \$1.7 billion at June 30, 2008, and \$1.7 billion at December 31, 2007. Vehicle floorplan payable-trade reflects amounts borrowed to finance the purchase of specific new vehicle inventories with manufacturers' captive finance subsidiaries. Vehicle floorplan payable-non-trade totaled \$511.2 million at June 30, 2008, and \$451.7 million at December 31, 2007, and represents amounts payable borrowed to finance the purchase of specific new and, to a lesser extent, used vehicle inventories with non-trade lenders. All the floorplan facilities are at one-month LIBOR-based rates of interest.

Floorplan facilities are due on demand, but in the case of new vehicle inventories, are generally paid within several business days after the related vehicles are sold. Our manufacturer agreements generally require that the manufacturer have the ability to draft against the new floorplan facilities so the lender directly funds the manufacturer for the purchase of new vehicle inventory. Floorplan facilities are primarily collateralized by vehicle inventories and related receivables.

Share Repurchases and Dividends

During the six months ended June 30, 2008, we repurchased 3.8 million shares of our common stock for an aggregate purchase price of \$54.1 million (average purchase price per share of \$14.37). As of June 30, 2008, \$142.7 million remained available for share repurchases under the existing repurchase program approved by our Board of Directors.

Future share repurchases are subject to limitations contained in the indenture relating to our floating rate and 7% senior unsecured notes. As of July 1, 2008, approximately \$35 million remained available for share repurchases and other restricted payments under the indenture relating to our senior unsecured notes. This amount will increase in future periods by 50% of our cumulative consolidated net income (as defined in the indenture), the net proceeds of stock option exercises, and certain other items, and decrease by the amount of future share repurchases and other restricted payments subject to these limitations. While we expect to continue repurchasing shares in the future, the decision to make additional share repurchases will be based on such factors as the market price of our common stock versus our view of its intrinsic value, the potential impact on our capital structure (including compliance with the maximum consolidated leverage ratio discussed below under *Restrictions and Covenants*), and the expected return on competing uses of capital such as dealership acquisitions, capital investments in our current businesses, or repurchases of our debt.

We have not declared or paid any cash dividends on our common stock during our three most recent fiscal years. We do not anticipate paying cash dividends in the foreseeable future. The indenture for our floating rate and 7% senior unsecured notes restricts our ability to declare cash dividends.

Restrictions and Covenants

Our amended credit agreement, the indenture for our floating rate and 7% senior unsecured notes, our vehicle floorplan payable facilities, and our mortgage facility contain numerous customary financial and operating covenants that place significant restrictions on us, including our ability to incur additional indebtedness or prepay existing indebtedness, to create liens or other encumbrances, to sell (or otherwise dispose of) assets, and to merge or consolidate with other entities.

Table of Contents

For example, under the amended credit agreement, we are required to maintain a maximum consolidated leverage ratio, as defined (3.0 times through September 30, 2009, after which it will revert to 2.75 times). As of June 30, 2008, the borrowing capacity under our revolving credit facility was limited by this ratio to approximately \$215 million. In March 2008, we amended our credit agreement to provide that non-cash impairment losses associated with goodwill and intangible assets as well as certain other non-cash charges would be excluded from the computation of the maximum consolidated leverage ratio. We are also required to maintain a maximum capitalization ratio (65%), as defined. A significant non-cash impairment charge associated with goodwill and other intangible assets could have an adverse impact on our ability to satisfy this financial ratio, unless we obtain an amendment or waiver of our amended credit agreement.

In addition, the indenture for the floating rate and 7% senior unsecured notes contains a debt incurrence restriction based on a minimum fixed charge coverage ratio (2:1), and the mortgage facility contains covenants regarding maximum cash flow leverage and minimum interest coverage.

The indenture for our floating rate and 7% senior unsecured notes restricts our ability to make payments in connection with share repurchases, dividends, debt retirement, investments, and similar matters to a cumulative aggregate amount that is limited to \$500.0 million plus 50% of our cumulative consolidated net income (as defined in the indenture) since April 1, 2006, the net proceeds of stock option exercises, and certain other items, subject to certain exceptions and conditions set forth in the indenture.

Covenants related to the 9% senior unsecured notes were substantially eliminated as a result of the successful completion of the debt tender offer and consent solicitation performed in April 2006.

Our failure to comply with the covenants contained in our debt agreements could permit acceleration of all of our indebtedness. Our debt agreements have cross-default provisions that trigger a default in the event of an uncured default under other material indebtedness of AutoNation. As of June 30, 2008, we were in compliance with the requirements of all applicable financial and operating covenants.

In the event of a downgrade in our credit ratings, none of the covenants described above would be impacted. In addition, availability under the amended credit agreement described above would not be impacted should a downgrade in the senior unsecured debt credit ratings occur. Certain covenants in the indenture for the floating rate and 7% senior unsecured notes would be eliminated with an upgrade of our senior unsecured notes to investment grade by either Standard & Poor's or Moody's.

Cash Flows

Cash and cash equivalents increased by \$9.1 million during the six months ended June 30, 2008, and decreased by \$21.2 million during the six months ended June 30, 2007. The major components of these changes are discussed below.

Cash Flows - Operating Activities

Net cash provided by operating activities was \$330.4 million during the six months ended June 30, 2008, as compared to net cash used in operating activities of \$33.8 million during the same period in 2007.

Net cash provided by operating activities during the six months ended June 30, 2007, was affected by a change in the classification of borrowings from a floorplan lender, in connection with the sale of a majority stake in General Motors Acceptance Corporation (GMAC) by General Motors (GM), which was GM's wholly-owned captive finance subsidiary prior to this transaction. As a result of this sale, which occurred on November 30, 2006, we have classified new borrowings from GMAC subsequent to this transaction as vehicle floorplan non-trade, with related changes reflected as financing cash flows. Accordingly, net floorplan borrowings from GMAC subsequent to this transaction are reflected as cash provided by financing activities, while repayments in 2007 of amounts due to GMAC prior to this transaction (totaling \$271.8 million during the six months ended June 30, 2007) continue to be reflected as cash used by operating activities. During the six months ended June 30, 2008, all borrowings and repayments related to GMAC were reflected as financing activities, since the repayment of amounts due to GMAC prior to this transaction were completed during 2007. After considering the effect of this reclassification, net cash provided by operating activities during the six months ended June 30, 2008, compared to the same period in 2007, was impacted by an increase in cash provided by changes in working capital, partially offset by a reduction in earnings.

Table of Contents***Cash Flows Investing Activities***

Cash flows from investing activities consist primarily of cash used in capital additions, activity from business acquisitions, property dispositions, purchases and sales of investments, and other transactions as further described below.

Capital expenditures, excluding property operating lease buy-outs, were \$39.6 million during the six months ended June 30, 2008, and \$78.9 million during the six months ended June 30, 2007. We project that 2008 full year capital expenditures will be approximately \$75 million, excluding acquisition related spending, lease buy-outs, and land purchases for future sites. This represents a \$35 million reduction versus our previous estimate for 2008.

Total cash used in business acquisitions, net of cash acquired, was \$29.4 million for the six months ended June 30, 2008, and \$0.8 million during the same period in 2007, when we acquired one automotive retail franchise and related assets in each period.

Cash Flows Financing Activities

Net cash flows from financing activities primarily include treasury stock purchases, stock option exercises, debt activity, and changes in vehicle floorplan payable-non-trade.

We repurchased 3.8 million shares of our common stock for an aggregate purchase price of \$54.1 million during the six months ended June 30, 2008 (average purchase price per share of \$14.37), including repurchases for which settlement occurred subsequent to June 30, 2008. We repurchased 11.0 million shares of our common stock for an aggregate purchase price of \$239.9 million during the six months ended June 30, 2007 (average purchase price per share of \$21.77).

Proceeds from the exercise of stock options were \$1.0 million (average exercise price per share of \$10.85) during the six months ended June 30, 2008, and \$88.6 million (average exercise price per share of \$14.31) during the six months ended June 30, 2007.

During the six months ended June 30, 2008, we borrowed \$519.0 million and repaid \$779.0 million outstanding under our revolving credit facility, for net repayments of \$260.0 million. During the six months ended June 30, 2007, we borrowed \$436.0 million and repaid \$475.0 million outstanding under our revolving credit facility, for net repayments of \$39.0 million.

We repaid \$3.2 million of amounts outstanding under our mortgage facilities during the six months ended June 30, 2008, and \$2.2 million during the same period in 2007.

Cash flows from financing activities include changes in vehicle floorplan payable-non-trade (vehicle floorplan payables with lenders other than the automotive manufacturers captive finance subsidiaries for that franchise) totaling net proceeds of \$56.1 million for the six months ended June 30, 2008, and \$230.5 million for the same period in 2007. As discussed above, the repayment of \$271.8 million of amounts due to GMAC prior to the sale by GM of a majority interest in GMAC were reflected as cash used by operating activities during the six months ended June 30, 2007, while all repayments to GMAC were reflected as cash used by financing activities during the six months ended June 30, 2008. Proceeds received under the floorplan credit arrangements we entered into during the second quarter of 2008 to finance a portion of our used vehicle inventory were reflected as cash provided by financing activities during the six months ended June 30, 2008.

Seasonality

Our operations generally experience higher volumes of vehicle sales and service in the second and third quarters of each year due in part to consumer buying trends and the introduction of new vehicle models. Also, demand for vehicles and light trucks is generally lower during the winter months than in other seasons, particularly in regions of the United States where stores may be subject to adverse winter conditions. Accordingly, we expect our revenue and operating results to be generally lower in the first and fourth quarters as compared to the second and third quarters. However, revenue may be impacted significantly from quarter to quarter by actual or threatened severe weather events, and by other factors unrelated to weather conditions, such as changing economic conditions and automotive manufacturer incentive programs.

Forward-Looking Statements

Our business, financial condition, results of operations, cash flows, and prospects, and the prevailing market price and performance of our common stock, may be adversely affected by a number of factors, including the matters discussed below. Certain statements and information set forth in this Quarterly Report on Form 10-Q, as well as other written or oral statements made from time to time by us or by our authorized executive officers on our behalf, constitute forward-looking statements within the meaning of the Federal Private Securities Litigation Reform Act of 1995. We intend for our forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and we set forth this statement in order to comply with such safe harbor provisions. You should note that our forward-looking statements speak only as of the date of this Quarterly Report on Form 10-Q or when made and we undertake no duty or obligation to update or revise our forward-looking statements, whether as a result of new information, future events, or otherwise. Although we believe that the expectations, plans, intentions, and projections reflected in our forward-looking statements are reasonable, such statements are subject to known and unknown risks, uncertainties, and other factors that may cause our actual results, performance, or achievements to be materially different from any future results, performance, or achievements expressed or implied by the forward-looking statements. The risks, uncertainties, and other factors that our stockholders and prospective investors should consider include, but are not limited to, the following:

The automotive retailing industry is sensitive to changing economic conditions and various other factors. Our business and results of operations are substantially dependent on new vehicle sales levels in the United States and in our particular geographic markets and the level of gross profit margins that we can achieve on our sales of new vehicles, all of which are very difficult to predict.

We are dependent upon the success and continued financial viability of the vehicle manufacturers and distributors with which we hold franchises.

Our new vehicle sales are impacted by the consumer incentive and marketing programs of vehicle manufacturers.

Natural disasters and adverse weather events can disrupt our business.

We are subject to restrictions imposed by, and significant influence from, vehicle manufacturers that may adversely impact our business, financial condition, results of operations, cash flows, and prospects, including our ability to acquire additional stores.

We are subject to numerous legal and administrative proceedings, which, if the outcomes are adverse to us, could materially adversely affect our business, results of operations, financial condition, cash flows, and prospects.

Our operations, including, without limitation, our sales of finance and insurance and vehicle protection products, are subject to extensive governmental laws and regulations. If we are found to be in violation of, or subject to liabilities under, any of these laws or regulations, or if new laws or regulations are enacted that adversely affect our operations, our business, operating results, and prospects could suffer.

Goodwill and other intangible assets comprise a significant portion of our total assets. We must test our intangible assets for impairment at least annually, which may result in a material, non-cash write-down of goodwill or franchise rights and could have a material adverse impact on our results of operations and shareholders' equity.

Our ability to grow our business may be limited by our ability to acquire automotive stores on favorable terms or at all.

We are subject to interest rate risk in connection with our floorplan notes payable, revolving credit facility, term loan facility, and floating rate senior unsecured notes that could have a material adverse effect on our profitability.

Our revolving credit facility, term loan facility, mortgage facility, and the indenture relating to our senior unsecured notes contain certain restrictions on our ability to conduct our business.

Our substantial indebtedness could adversely affect our financial condition and operations and prevent us from fulfilling our debt service obligations. We may still be able to incur more debt, intensifying these risks.

Our largest stockholder, as a result of its voting ownership, may have the ability to exert substantial influence over actions to be taken or approved by our stockholders.

Please refer to our Annual Report on Form 10-K for the fiscal year ended December 31, 2007, and to our subsequent filings with the SEC for additional discussion of the foregoing risks.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our primary market risk exposure is changing LIBOR-based interest rates. Interest rate derivatives may be used to hedge a portion of our variable rate debt when appropriate based on market conditions. At June 30, 2008, our fixed rate debt, primarily consisting of amounts outstanding under senior unsecured notes and mortgages, totaled \$618.1 million and had a fair value of \$582.2 million. At December 31, 2007, our fixed rate debt, primarily consisting of amounts outstanding under senior unsecured notes and mortgages, totaled \$595.2 million and had a fair value of \$578.9 million.

Interest Rate Risk

We had \$2.2 billion of variable rate vehicle floorplan payable at June 30, 2008, and \$2.1 billion at December 31, 2007. Based on these amounts, a 100 basis point change in interest rates would result in an approximate change of \$22.5 million at June 30, 2008, and \$21.4 million at December 31, 2007, to our annual floorplan interest expense. Our exposure to changes in interest rates with respect to total vehicle floorplan payable is partially mitigated by manufacturers' floorplan assistance, which in some cases is based on variable interest rates.

We had \$0.9 billion of other variable rate debt outstanding at June 30, 2008, and \$1.2 billion at December 31, 2007. Based on the amounts outstanding, a 100 basis point change in interest rates would result in an approximate change to interest expense of \$9.0 million at June 30, 2008, and \$11.8 million at December 31, 2007.

Reference is made to our quantitative disclosures about market risk in our Annual Report on Form 10-K for the fiscal year ended December 31, 2007.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)), as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report on Form 10-Q.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

We continue to centralize certain key store-level accounting and administrative activities, which we expect will streamline our internal control over financial reporting. The initial or core phase consists of implementing a standard data processing platform in the store and centralizing to a shared services center certain key accounting processes (non-inventory accounts payable, bank account reconciliations, and certain accounts receivable). We have substantially implemented the core phase in 200 of our 242 stores as of June 30, 2008.

Table of Contents**PART II. OTHER INFORMATION****ITEM 1A. RISK FACTORS**

There have not been any material changes to the risk factors previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2007.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The table below sets forth information with respect to shares of common stock repurchased by AutoNation, Inc. during the three months ended June 30, 2008.

Period	Total Number of Shares Purchased	Avg. Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under The Programs (in millions)(1)(2)
April 1, 2008 to April 30, 2008		\$		\$ 168.9
May 1, 2008 to May 31, 2008	720,000	\$ 16.27	720,000	\$ 157.2
June 1, 2008 to June 30, 2008	1,170,000	\$ 12.44	1,170,000	\$ 142.7
	1,890,000		1,890,000	

- (1) On October 23, 2007, our Board of Directors approved a stock repurchase program (referred to as the October 2007 Program), which authorized AutoNation to repurchase up to \$250 million in shares of our common stock. All of the shares repurchased in April, May, and June 2008 were

repurchased under the October 2007 Program. The October 2007 Program does not have an expiration date.

- (2) Future share repurchases are subject to limitations contained in the indenture relating to our senior unsecured notes. As of July 1, 2008, approximately \$35 million remained available for share repurchases and other restricted payments under the indenture relating to our senior unsecured notes. This amount will increase in future periods by 50% of our cumulative consolidated net income (as defined in the indenture), the net proceeds of stock option exercises, and certain other items, and decrease by the amount of future share repurchases and other restricted

payments
subject to these
limitations. For

Table of Contents**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

At our Annual Meeting of Stockholders held on May 7, 2008, our stockholders voted on the following matters:

1. The election of seven directors, each for a term expiring at the next Annual Meeting or until their successors are duly elected and qualified.
2. The ratification of the selection of KPMG LLP as our independent registered public accounting firm for 2008.
3. The adoption of the AutoNation, Inc. 2008 Employee Equity and Incentive Plan.
4. The adoption of a stockholder proposal regarding special meetings.
5. The adoption of a stockholder proposal regarding a stockholder advisory on executive compensation.

All of the director nominees were elected based on the following votes:

Name	Votes For	Withheld
Rick L. Burdick	158,940,481	5,550,729
William C. Crowley	157,758,313	6,732,897
Kim C. Goodman	162,306,333	2,184,877
Robert R. Grusky	162,304,835	2,186,375
Mike Jackson	161,635,818	2,855,392
Michael E. Maroone	160,741,573	3,749,637
Carlos A. Migoya	162,301,298	2,189,912

The selection of KPMG LLP as our independent registered public accounting firm for 2008 was ratified based on the following votes:

For	Against	Abstain	Broker Non-Votes
163,263,689	364,771	862,750	

The adoption of the AutoNation, Inc. 2008 Employee Equity and Incentive Plan was approved based on the following votes:

For	Against	Abstain	Broker Non-Votes
144,896,580	6,176,012	898,498	12,520,120

The stockholder proposal regarding special meetings was not approved based on the following votes:

For	Against	Abstain	Broker Non-Votes
26,622,925	124,392,373	955,792	12,520,120

The stockholder proposal regarding a stockholder advisory vote on executive compensation was not approved based on the following votes:

For	Against	Abstain	Broker Non-Votes
30,314,887	120,329,140	1,327,063	12,520,120
