REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Participants of
The Pinnacle West Capital Corporation Savings Plan
Phoenix, Arizona

We have audited the accompanying statements of net assets available for benefits of The Pinnacle West Capital Corporation Savings Plan (the Plan) as of December 31, 2005 and 2004, and the related statement of changes in net assets available for benefits for the year ended December 31, 2005. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2005 and 2004, and the changes in net assets available for benefits for the year ended December 31, 2005 in conformity with accounting principles generally accepted in the United States of America. Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2005 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan s management. Such schedule has been subjected to the auditing procedures applied in our audit of the basic 2005 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

THE PINNACLE WEST CAPITAL CORPORATION SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of The Pinnacle West Capital Corporation Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan s provisions.

General

The Plan is a defined contribution plan sponsored by Pinnacle West Capital Corporation (Pinnacle West or the Company). The Plan is made up of two component plans, a profit sharing component with cash or deferred features and a stock bonus component which constitutes an Employee Stock Ownership Plan (ESOP). The ESOP component of the Plan consists of Plan assets invested in the Pinnacle West Stock Fund and the balance of all Plan assets constitutes the profit sharing component. The Plan is administered by a committee appointed by the Pinnacle West Board of Directors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Wells Fargo Bank, Minnesota, N.A. (Trustee) serves as the Trustee of the Plan.

Eligibility

Generally, most active full-time employees of Pinnacle West and its subsidiaries, including Arizona Public Service Company, Pinnacle West Energy Corporation, APS Energy Services Company, Inc., El Dorado Investment Company and the active salaried employees of SunCor Development Company (collectively, the Employer), are eligible to participate in (1) the pre-tax and after-tax features of the Plan on the first day of the month following their attainment of age 18 and Completion of thirty-one consecutive days of employment and (2) the matching feature on the first day of the month following their attainment of age 18 and completion of six months of service. Eligible employees hired in a classification other than regular full-time are eligible to participate upon attainment of age 18 and completion of 1,000 hours of service during a 12 month period of employment beginning on their date of hire or an anniversary of that date. The Plan provides credit for periods of

Table of Contents

employment with an affiliate of Pinnacle West as if the service was performed for the Employer.

Contributions

The Plan allows participants to contribute up to 50% of their base pay on a pre-tax basis or after-tax basis, provided that in no event can the total pre-tax and after-tax contributions made by any participant in any year exceed 50% of his or her base pay. The Plan also allows participants attaining the age of 50 or older by the end of the calendar year to make catch-up contributions in accordance with the provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001. The maximum allowable pre-tax contribution (\$14,000 for 2005) and catch-up contribution (\$4,000 for 2005) will increase \$1,000 per year through 2006, and thereafter will be linked to the cost of living index and could change on an annual basis.

Employer contributions are fixed at 75% of the first 6% of base pay a participant contributes to the Plan on a pre-tax basis (excluding catch-up contributions) for participants (excluding active salaried employees of SunCor Development Company) hired on or after January 1, 2003, for active salaried employees of SunCor Development Company hired on or after January 1, 2006 and for participants electing to participate in the Retirement Account Balance Plan feature of the Pinnacle West Capital Corporation Retirement Plan. Participants hired prior to January 1, 2003 and active salaried employees of SunCor Development Company hired prior to January 1, 2006, not electing to participate in the Retirement Account Balance Plan feature of the Pinnacle West Capital Corporation Retirement Plan receive an employer match of 50% on the first 6% of base pay he or she contributes to the Plan on a pre-tax basis (excluding catch-up contributions).

While the Employer contributions may be in cash, common stock, or other property acceptable to the Trustee, regardless of the form of contribution, contributions are allocated to the Pinnacle West Stock Fund. Non-cash contributions are recorded at fair value.

The Plan allows rollover contributions from other qualified plans subject to certain criteria.

Participants may elect to receive dividends on Pinnacle West stock in their account in the form of cash. If a participant does not elect to receive the dividend in the form of

Table of Contents

cash prior to the dividend payable date for that dividend, it is automatically reinvested in the Pinnacle West Stock Fund.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant has separate accounts (sources of money) that are credited with the participant's pre-tax, after-tax, rollover contributions (if any), the Employer's matching contributions and an allocation of Plan earnings. Each participant's account is charged with withdrawals and an allocation of Plan losses. Allocations of earnings and losses are based on participant account balances. The benefit to which a participant is entitled is the portion of the participant's account that has vested, as defined below.

Investment Choices

Participants direct their contributions into one or more of the following investment options: Fixed Income Fund, Intermediate Bond Fund, Conservative, Moderate, and Aggressive LifeStyle Funds, Index Fund, Large Cap Value Fund, Large Cap Growth Fund, Mid Cap Core Fund, Small Cap Core Fund, International Fund, and the Pinnacle West Stock Fund. Employer contributions are automatically invested in the Pinnacle West Stock Fund. The Plan permits fully vested participants to transfer amounts in their Employer contributions account from the Pinnacle West Stock Fund to one or more of the other investment options available under the Plan. See Note 6 for additional information.

Loan Feature

Participants may borrow money from their pre-tax contributions account, vested Employer contributions account and rollover account (if any). Participants may not borrow against their Employer transfer account, or their after-tax contributions account.

The minimum participant loan allowed is \$1,000, and the maximum available is 50% of the participant's vested account balance, up to \$50,000, reduced by the participant's highest outstanding loan balance in the 12-month period ending on the day before the loan is made. Only one loan per participant may be outstanding at any one time. Loan terms are up to five years, or up to 15 years for the purchase of a principal residence. An administrative fee is charged to the participant's account for each loan.

Table of Contents

The interest rate is determined at the time the loan is requested and is fixed for the life of the loan. The interest rate shall be at least as great as the interest rate charged by the Trustee to its individual clients for an unsecured loan on the date the loan is made. The Trustee currently charges prime interest rate plus one percent, determined as of the first business day of the month in which the loan is issued. Interest rates for loans issued during 2005 were 6.25% to 8%. Interest rates for outstanding loans as of December 31, 2005 and 2004 ranged from 5% to 10.5%.

Loans are treated as an investment of the participant's accounts. To fund the loan, transfers are made from the participant's investment funds on a pro-rata basis. Loan repayments are invested in the participant's investment funds based on the participant's current investment election. Loan repayments, including interest, are generally made through irrevocable semi-monthly payroll deductions. Loans are secured by the participant's account balance.

Vesting

Each participant is fully vested in the participant's pre-tax, after-tax, and rollover contribution (if any) accounts (consisting of the participant's contributions and related income and appreciation or depreciation) and Employer transfer account. The participants become vested in their Employer contributions account (consisting of Employer contributions and related income and appreciation or depreciation) upon the first of the following to occur: termination of service by death; disability or retirement; attaining the age of sixty-five or, if later, completing five years of participation in the Plan; termination of the Plan; or complete discontinuance of Employer contributions. Otherwise, participants vest in graduated amounts with 100 percent vesting after five years of service, beginning with the employee's date of hire. See Note 8 for additional information.

Withdrawals and Distributions

A participant may at any time make a full or partial withdrawal of the balance in the participant's after-tax contribution account and rollover contribution account (if any). No withdrawals prior to termination of service are permitted from a participant's Employer transfer account. No withdrawals prior to termination of service are permitted from the participant's pre-tax contribution account, except under certain limited circumstances

Table of Contents

relating to financial hardship. If an employee withdraws pre-tax contributions, the only earnings on those contributions that can be withdrawn are those credited prior to January 1, 1989. Participants who are fully vested and who have participated in the Plan for five complete plan years may withdraw the amount in their Employer contributions account. When the participant's employment with the Employer is terminated, the participant can elect to receive, as soon as administratively possible, a distribution of the vested portion of his or her Employer contributions account together with the participant's contribution accounts and Employer transfer account. Participants at least age 59-1/2 may withdraw or rollover any portion of their pre-tax contributions or rollover account (if any) while employed. The following are applicable: a maximum of two withdrawals or rollovers may be requested per year; earnings on pre-tax contributions and rollover account are included; there are no restrictions on the reason for withdrawal or rollover (if any), and penalties do not apply.

Forfeitures

Forfeitures of nonvested Employer contributions will occur upon the earlier of distribution following termination of employment with the Employer or the end of the fifth calendar year following the calendar year in which the participant terminated employment. If a former participant who received a distribution becomes reemployed prior to the end of the fifth calendar year following the calendar year in which the participant's earlier termination of employment occurred, the forfeited Employer contributions will be restored to the participant's Employer contribution account; however, the forfeiture is restored only if the participant repays the full amount previously distributed to him or her within five years of his or her date of reemployment or, if earlier, the last day of the fifth calendar year following the calendar year in which the distribution occurred. At December 31, 2005 and 2004, forfeited nonvested accounts totaled \$11,628 and \$109,275, respectively. Forfeitures are used to reduce future Employer contributions to the Plan. During the year ended December 31, 2005, Employer contributions were reduced by \$82,000 from forfeited nonvested accounts.

Table of Contents

Termination of the Plan

It is the Company's present expectation that the Plan and the payment of Employer contributions will be continued indefinitely. However, continuance of any feature of the Plan is not assumed as a contractual obligation. The Company, at its discretion, may terminate the Plan and distribute net assets, subject to the provisions set forth in ERISA and the Internal Revenue Code. In this event, the balance credited to the accounts of participants at the date of termination shall be fully vested and nonforfeitable.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment instruments including: mutual funds, common and collective trust funds, guaranteed investment contracts, stocks and bonds. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, liquidity risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investments

The Plan's investments are stated at fair value except for its benefit-responsive investment contracts, which are valued at contract value (see Note 4). Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. Common

Table of Contents

and collective funds are valued at fair value, as determined by the Trustee, based on market prices of the underlying securities. Participant loans are valued at the outstanding loan balances. Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees are reflected as a reduction of investment return for such investments.

Income Recognition

Investment transactions are recorded as of the trade date. Interest income is recorded on the accrual basis. Dividend income is recorded as of the ex-dividend dates.

Administrative Expenses

Participants pay administrative fees for loans, investment expenses charged by funds which are deducted from income and reflected as a reduction of investment return for the fund, and redemption fees for certain funds when not held for the required period of investment. Pinnacle West pays the remaining Plan administration expenses such as legal expenses of the Plan (See Note 8).

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

3. FEDERAL INCOME TAX STATUS

Plan management received a determination letter dated June 30, 2003 from the Internal Revenue Service indicating that the Plan has been determined to be a qualified plan under the provisions of the Internal Revenue Code. In 2004, management identified an error in the manner that vesting and eligibility service has been credited for employees who originally served as temporary employees through leasing arrangements, prior to being hired as an employee of the Company, which impacts the Plan. Legal counsel for the Company filed a submission with the IRS pursuant to the Employee Plans Compliance Resolution System, seeking IRS approval of the method by which the Company proposes to correct this error. The proposed correction is to restore the accounts of affected employees by making applicable contributions in the estimated amount of \$1,500,000. At December 31, 2005 and 2004, the \$1,500,000 is included in Employer contributions receivable. The proposed methodology for correction was approved by the Internal Revenue Service in a

Table of Contents

Compliance Statement dated June 6, 2006. The Company has committed to correcting all operational deficiencies within 150 days of the date of the Compliance Statement to maintain the Plan's qualified status. Subject to completion of that correction, the Company believes the Plan has maintained its tax-exempt status. Therefore, no provision for income taxes has been included in the Plan's financial statements.

4. GUARANTEED INVESTMENT CONTRACTS

The Plan invests in guaranteed investment contracts (GICs). All investment contracts held by the Plan are considered fully benefit-responsive and are recorded at contract value. A benefit-responsive contract provides for all participant-initiated transactions permitted by the Plan to be executed at contract value with no conditions, limits, or restrictions. Contract value represents contributions made under the contract, plus interest at the contract rate, less withdrawals and administrative expenses.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The weighted-average crediting interest rates for the contracts held by the Plan were 4.49% and 4.40% at December 31, 2005 and 2004, respectively. The crediting interest rates on the GICs are fixed or reset on a quarterly or semi-annual basis, based on the terms of the contract. The average yield for 2005 and 2004 approximated the weighted-average crediting interest rate.

Several of the GICs are synthetic investment contracts. A synthetic GIC is an investment contract that simulates the performance of a traditional GIC through the use of financial instruments. These contracts include underlying assets which are held in a trust owned by the plan and utilize a benefit-responsive wrapper contract issued by a financially responsible third party that provides that participants can, and must, execute plan transactions at contract value.

The fair value of the traditional GICs approximates contract value at December 31, 2005 and 2004. The fair value of the synthetic GICs totaled \$122,772,109 and \$110,805,813 at December 31, 2005 and 2004, respectively. The contract value of the synthetic GICs totaled \$125,746,070 and \$110,062,414 at December 31, 2005 and 2004, respectively.

Table of Contents**5. INVESTMENTS AND UNITS OF PARTICIPATION**

In accordance with the provisions of the Plan, the Trustee maintains separate units of participation in the Plan and related net asset value per unit for the Fixed Income Fund, Intermediate Bond Fund, Conservative, Moderate and Aggressive LifeStyle Funds, Index Fund, Large Cap Value Fund, Large Cap Growth Fund, Mid Cap Core Fund, Small Cap Core Fund, International Fund, and the Pinnacle West Stock Fund. The number of units and the related value of the Plan's net assets available for benefits as of December 31, 2005 and 2004 are as follows:

	2005	Number of Units	Value
Fixed Income Fund		10,445,275	\$ 144,900,495*
Intermediate Bond Fund		1,218,664	12,667,606

Table of Contents

The Plan's investments (including gains and losses on investments purchased and sold, as well as held during the year) appreciated/(depreciated) in value for the year ended December 31, 2005 as follows:

Common and Collective Trusts	\$ 5,916,674
Mutual Funds	17,514,582
Pinnacle West Stock Fund	(10,309,184)
Net appreciation in fair value of investments	\$ 13,122,072

6. NON-PARTICIPANT DIRECTED INVESTMENTS

Information about the net assets and the significant components of the changes in net assets relating to the investments that are not directed by Plan participants (non-participant directed investments) as of and for the year ended December 31, 2005 is as follows:

Pinnacle West Stock Fund Non-Participant Directed Portion of Net Assets, beginning of year	\$ 90,076,264
Changes in net assets during the year:	
Net depreciation in fair value of investments	(2,352,113)
Employer contributions	13,494,349
Benefits paid to participants	(4,522,340)
Transfers to participant directed investments	(7,983,225)
Net Change	(1,363,329)
Pinnacle West Stock Fund Non-Participant Directed Portion of Net Assets, end of year	\$ 88,712,935

7. EXEMPT RELATED PARTY TRANSACTIONS

Certain Plan investments include shares of the Wells Fargo Short Term Investments CI G and Wells Fargo S&P 500 Index Fund CI G that are managed by the Trustee; therefore, these transactions qualify as exempt party-in-interest transactions. In addition, certain Plan investments consist of Pinnacle West common stock, qualifying these transactions as exempt party-in-interest transactions. At December 31, 2005 and 2004, the Plan held 3,486,639 and 3,262,937 units, respectively, of common stock of Pinnacle West, the sponsoring employer, with a cost basis of \$99,481,363 and \$87,447,011, respectively. During the year ended December 31, 2005, the Plan recorded dividend income from Pinnacle West common stock of \$6,388,971.

Table of Contents

8. SUBSEQUENT EVENTS

Effective January 1, 2006, participants' accounts are charged an administrative fee for all withdrawals and distributions.

Effective April 1, 2006, the Plan was amended so that active participants in the Plan and employees hired on or after April 1, 2006, are 100% vested in their Employer contributions account.

Effective April 5, 2006, State Street Bank and Trust Company was appointed as investment manager under the Plan to (1) manage the liquidity of the Pinnacle West Stock Fund, and (2) review and direct the Trustee on voting proxies received for shares of Pinnacle West common stock (except for those shares for which the Trustee receives participant directions) and nine mutual funds held in the Plan.
