Item 5. Other Events.

On August 13, 2002, Registrant issued the following press release reporting second quarter results for the period ended July 31, 2002; earnings in line with expectations.

NEW YORK, August 13, 2002 - Tiffany & Co. (NYSE-TIF) reported today that its net

Edgar Filing: TIFFANY & CO - Form 8-K

sales rose 1 percent and net earnings declined 9 percent in the three months (second quarter) ended July 31, 2002. These results are consistent with the Company's previously published guidance.

In the second quarter, net sales were \$374,427,000 compared with \$371,301,000 in the prior year. On a constant exchange rate basis that excludes translation effects between foreign currencies and the U.S. dollar, net sales increased nil percent and comparable store sales declined 5 percent. Net earnings declined 9 percent to \$32,714,000, or 22 cents per diluted share, from \$36,052,000, or 24 cents per diluted share, in the prior year.

For the six-month period (first half) ended July 31, 2002, net sales of \$721,556,000 were 2 percent higher than \$707,702,000 in the prior year. On a constant exchange rate basis, net sales increased 3 percent and comparable store sales declined 2 percent. Net earnings declined 2 percent to \$65,423,000, or 44 cents per diluted share, compared with \$66,814,000, or 44 cents per diluted share.

Results in Tiffany's three channels of distribution were as follows:

- o U.S. Retail sales rose 1 percent to \$187,218,000 in the second quarter and increased 2 percent to \$352,888,000 in the first half. Comparable store sales declined 2 percent in the second quarter (branch stores declined nil percent and the New York flagship store declined 6 percent) and declined nil percent in the first half (branch stores rose 1 percent and the New York flagship store declined 4 percent). Comparable store sales in the second quarter were primarily affected by a decline in the average transaction size. Sales to foreign tourists in certain markets also declined. The Company opened two U.S. stores in the second quarter in Bellevue, Washington and East Hampton, New York.
 - o International Retail sales declined 1 percent to \$148,462,000 in the second quarter and declined nil percent to \$296,100,000 in the first half. On a constant exchange rate basis, sales declined 3 percent in the second quarter and rose 2 percent in the first half. On that basis, comparable retail store sales in the second quarter and first half declined 13 percent and 7 percent in Japan (total retail sales in Japan declined 6 percent in the quarter and were unchanged in the first half), increased nil percent and 3 percent in other Asia-Pacific markets and declined 10 percent and 8 percent in Europe. This year, the Company has opened department store boutiques in Japan (2), Korea and Taiwan.
- 1 -
- o Direct Marketing sales rose 12 percent to \$38,747,000 in the second quarter and rose 11 percent to \$72,568,000 in the first half. In those respective periods, combined catalog/internet sales rose 27 percent and 32 percent, while Business sales declined 5 percent and 8 percent.

Michael J. Kowalski, president and chief executive officer, said, "These sales results reflect challenging external conditions in the U.S. and in many international markets. However, we are pleased to be maintaining strong levels of profitability, due to increased gross margins and expense control efforts. I am extremely proud of Tiffany's employees and of their ability to weather this difficult environment, while continuing to pursue our long-term growth objectives. The appeal of Tiffany's extraordinary product offerings remains very strong and we look forward to enhancing our leadership position with important new product introductions, supported by increased marketing communications, in the coming months."

Mr. Kowalski added, "It is obviously extremely early in the third quarter, but

Edgar Filing: TIFFANY & CO - Form 8-K

we have seen recent improvement in comparable store sales in our two largest markets. Consistent with the expectation of many economists that the uncertain near-term outlook will soon be followed by more favorable conditions, as well as easing year-over-year comparisons to the prior year, our internal review leads us to maintain our recent expectations that call for improving comparable store sales trends in the U.S. and Japan in the second half of 2002. We are also maintaining our net earnings per diluted share expectations that call for: 18-20 cents in the third quarter (compared with 16 cents); and 64-67 cents in the fourth quarter (compared with 55 cents). Tiffany faces this environment with a strong balance sheet, an experienced worldwide management team and enthusiasm about our growth potential."

The Company also announced that it had repurchased and retired 600,000 shares of its Common Stock in the open market during the second quarter at an average cost of \$28.71 per share. The Company has approximately \$41 million available for future repurchases under its authorized plan.

The Company will host a conference call today at 8:30 a.m. (EST) to review its second quarter results and outlook. Interested parties may listen to a broadcast on the Internet at www.shareholder.com/tiffany, www.vcall.com or www.streetevents.com.

Tiffany & Co. is the internationally renowned jeweler and specialty retailer. Sales are made primarily through company-operated TIFFANY & CO. stores and boutiques in the Americas, Asia-Pacific and Europe. Direct Marketing includes Tiffany's Business Sales division, catalog and Internet sales. Additional information can be found on Tiffany's Web site, www.tiffany.com, and on its shareholder information line (800) TIF-0110.
