REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Participants of
Tiffany & Co. Employee Profit Sharing
and Retirement Savings Plan

We have audited the accompanying statements of net assets available for benefits of Tiffany & Co. Employee Profit Sharing and Retirement Savings Plan (the "Plan") as of January 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended January 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Tiffany & Co. Employee Profit Sharing and Retirement Savings Plan as of January 31, 2009 and 2008, and the changes in its net assets available for benefits for the year ended January 31, 2009, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the 2009 basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the 2009 basic financial statements taken as a whole.

EMPLOYEE PROFIT SHARING AND RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF PLAN

The following description of the Tiffany & Co. Employee Profit Sharing and Retirement Savings Plan (the "Plan") is provided for general informational purposes only. Participants should refer to the Summary Plan Description or the Plan document for complete information.

General

The Plan is a defined contribution plan covering all eligible employees of Tiffany & Co. (the "Company") and its U.S. subsidiaries and has an employee profit-sharing feature ("ESOP"). Effective February 1, 2006, the Plan was amended to provide a defined contribution retirement benefit (the "DCRB") to eligible employees hired on or after January 1, 2006.

The assets of the Plan are maintained and transactions therein are executed by DWS Trust Company (formerly known as Scudder Trust Company), the trustee of the Plan ("Trustee"), an affiliate of Deutsche Bank, Inc. The Plan record keeper is ADP Retirement Services. The Plan is administered by the Employee Profit Sharing and Retirement Savings Plan Committee ("Plan Committee") appointed by the Board of Directors of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Eligibility

Employees automatically become participants in the ESOP feature of the Plan on the February 1st immediately following their initial date of employment. Employees become eligible and are automatically enrolled in the 401(k) feature immediately following their initial date of employment provided the employee is scheduled to work thirty-five or more hours per week on a non-temporary basis, or an employee completes one year of service. Employees may opt-out of 401(k) participation at any time. A year of service is determined by reference to the date on which the participant's employment commenced or recommenced and consists of 12 consecutive-month periods, commencing with such date, during which the employee has attained at least 1,000 hours of service. Officers of the Company (those subject to Section 16 of the Securities Exchange Act of 1934) do not share in contributions made under the ESOP feature of the Plan.

Contributions

The ESOP feature of the Plan is non-contributory on the part of participating employees and is funded by Company contributions of shares of Tiffany & Co. common stock. Employees who have two or more years of service can diversify his or her ESOP contribution into other investment options provided under the Plan. Company contributions to the ESOP, if any, are based upon the achievement of certain targeted earnings objectives by the Company and established by the Board of Directors of the Company in accordance with, and subject to, the terms and limitations of the Plan. Employees must be employed by the Company on the last day of the year and have at least 1,000 hours of employment during the year to receive the ESOP contribution.

The 401(k) feature of the Plan is funded by both employee and employer contributions. With respect to employee contributions, participants may elect, in one percent increments, to have an amount of between one (1) and fifteen (15) percent of their annual compensation, not to exceed $15,500 in 2008 (or $20,500 for individuals over 50 years of age), subject to an annual inflation adjustment, contributed to the 401(k)

feature of the Plan as a tax deferred contribution, subject to certain limitations applicable to highly compensated employees.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

With respect to employer contributions, following the end of each Plan year, a contribution may be made at the discretion of the Company to the account of each employee who was a participant in the 401(k) feature of the Plan as of the end of such Plan year. Such contribution is equal to up to fifty percent (50%) of such participant's total contributions to his or her account during that year, up to three percent (3%) of such participant's compensation over that same year. Employer contributions to a participant's account are allocated among the various investment options in the same proportion as the participant's own contributions.

Under certain circumstances, employee contributions and employer matching contributions may be limited in the case of highly compensated employees.

The DCRB feature of the Plan is non-contributory on the part of participating employees and is funded by employer contributions, following the end of each Plan year, to be invested in a manner similar to the 401(k) retirement savings portion of the Plan. Employer contributions are determined by a formula using the participant's eligible compensation, age and years of service.

Participant Accounts

Each participant's 401(k) and DCRB account is credited with the participant's contribution, if applicable, and employer contributions, and an allocation of each selected fund's earnings, including interest, dividends and net realized and unrealized appreciation in the fair value of investments. Each participant's account is also charged an allocation of net realized and unrealized depreciation in the fair value of investments and investment-related expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Allocations are based on participant account balances.

The Company's contribution for each Plan year under the ESOP feature of the Plan is allocated to participants' accounts on an equal basis.

Vesting

All amounts contributed by employees under the 401(k) feature of the Plan are immediately 100% vested and non-forfeitable at all times. Employer contributions under the 401(k) feature of the Plan become 100% vested and non-forfeitable after the participant has completed two years of service. Employer contributions under the DCRB feature of the Plan become vested based on the following schedule:

Years of Service	Vested Percentage
Less than 2 years	0%
2 years or more	20%
3 years or more	40%
4 years or more	60%
5 years or more	80%
6 years or more	100%

Employees hired from January 1, 2006 through December 31, 2006 will become 100% vested in the DCRB benefit upon completing five (5) years of service.

Contributions to participant accounts associated with the ESOP feature of the Plan become 100% vested and non-forfeitable when the participant has completed two years of service. A participant also becomes vested in his or her ESOP account upon termination of employment by reason of death, retirement or disability. For purposes of the Plan, retirement is defined as termination of employment after age 65.

7

In the event a participant leaves the Company prior to becoming fully vested, the participant will forfeit the shares in his or her ESOP account and such shares will remain in the Plan to be reallocated ratably amongst the remaining participants in the Plan's ESOP feature within the DWS Trust Co. Stable Value Fund. The participant will also forfeit any assets in his or her 401(k) or DCRB account representing unvested employer contributions and such assets will be made available to offset required employer matching contributions to other participants' accounts. Forfeitures relating to the ESOP feature of the Plan totaled $108,588 and $43,851 for the years ended January 31, 2009 and 2008, respectively. Forfeitures of unvested employer contributions in the 401(k) portion of the plan totaled $445,345 and $171,373 at January 31, 2009 and 2008, respectively. Forfeitures of $355,951 and $81,205 were used to reduce employer contributions, which are made in the following year, for the years ended January 31, 2009 and 2008, respectively.

Administrative Expenses

Administrative fees relating to the administration of Tiffany & Co. Common Stock are paid by Tiffany and Company. All other expenses are charged against Plan assets.

Participant Loans and Withdrawals

Participants may borrow from their 401(k) accounts up to a maximum amount of no more than $50,000 or fifty percent (50%) of their total vested 401(k) account balance and employer contributions. In fiscal year 2009, the Plan was amended to permit up to two loans simultaneously. All loans must be repaid within five years unless they are used by the participant to purchase a primary residence. Loans are collaterized by the balance in the participant's account and bear interest at rates commensurate with prevailing market rates as determined by the Plan administrator. Interest rates range from 4.25 percent to 10.50 percent. Principal and interest is paid ratably through payroll deductions.

Participants may also obtain a cash withdrawal of all or a portion of the value of their 401(k) account contributions (excluding employer matching contributions and earnings on contributions) and their rollover contributions, if any, on the basis of hardship as permitted under the Plan.

Payment of Benefits

Distributions of the participant's account may be made upon retirement, death or disability, or upon termination of employment. Participants will receive the full vested balance of their Plan account in a lump sum cash distribution, except with respect to the DCRB account which may be received in the form of either a lump sum or ten substantially equal annual installments and with respect to whole shares held in the ESOP feature of the Plan that are distributed in the form of stock certificates. The balance of the participant's Tiffany & Co. common stock fund account may also be distributed in the form of stock certificates for whole shares if the participant so elects. Subject to certain mandatory distribution provisions, in the event of retirement, a participant may elect to defer his/her distribution until the next Plan year thereby entitling the participant to his or her proportionate share of the Company's contribution to the ESOP feature of the Plan for the Plan year in which the participant retired. In the event of a participant's death, the distribution of the participant's account balance will be made to the participant's designated beneficiary or the participant's estate, if no beneficiary has been so designated.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares of Tiffany & Co. Common Stock allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

New Accounting Standard

In September 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 157, "Fair Value Measurements" which establishes a framework for measuring fair value of assets and liabilities and expands disclosures about fair value measurements. The changes to current practice resulting from the application of SFAS No. 157 relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. In February 2008, the FASB deferred the implementation of the provisions of SFAS No. 157 relating to nonfinancial assets and liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually) to fiscal years beginning after November 15, 2008. The adoption of SFAS No. 157 for financial assets that are recognized at fair value on a recurring basis in 2008 did not have a material impact on the Plan's financial position or earnings (see Note D).

Investment Valuation

Investments in mutual funds are stated at fair value as determined by quoted market prices based on the net asset value of shares held by the Plan at year-end. Investments in Tiffany & Co. common stock are stated at fair value as determined by quoted market prices as of the last day of the Plan year. Investments in common and collective trusts are valued based on the net asset values reported by the trustee of the funds which are based on quoted prices for identical or similar assets in markets that are not active.Participant loans are valued at their outstanding balance, which approximates fair value.

The Plan offers the DWS Trust Co. Stable Value Fund which fully invests its funds into the Pyramid Stable Value Fund. The Pyramid Stable Value Fund invests in one or more agreements, collectively referred to as general account guaranteed investment contracts ("GICs") issued by banks, insurance companies or other financial institutions. The Pyramid Stable Value Fund may also invest in one or more separate account guaranteed investment contracts or in a portfolio of marketable fixed income securities and other financial instruments in order to provide book value liquidity for portfolio securities sold to make participant-directed withdrawals. The contracts are fully benefit-responsive and are recorded at fair value and adjusted to contract value in accordance with FASB Staff Position ("FSP") AAG INV-1 and SOP 94-4-1, "Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans." As described in the FSP, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation/(depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation/(depreciation) on those investments.

Purchases and Sales of Investments

Purchases and sales of investments are recorded on a trade date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded when earned. Cost of securities sold is determined by specific identification method.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from those estimates.

C. INVESTMENTS

Investments that were equal to or exceeded 5% of the current value of the Plan's net assets at January 31, 2009 or 2008 were as follows:

	January 31,	
	2009	
American Funds Growth Fund of America	$ 14,080,396	$
DWS Trust Co. Global Thematic Fund	-	
DWS Trust Co. Stock Index Fund	14,241,558	
DWS Trust Co. Stable Value Fund	49,013,135	
Victory Diversified Stock Fund	11,171,882	
Pimco Total Return Fund	11,425,617	
DWS Lifecompass 2015 Fund	10,576,284	
Tiffany & Co. Stock Fund	40,605,013	

As of January 31, 2009 and 2008, there were 2,954 shares totaling $61,295 and 2,857 shares totaling $113,694, respectively, of Tiffany &

Co. common stock that were non-participant directed.

The net depreciation in the fair value of investments for the year ended January 31, 2009 was as follows:

Common and collective trusts	$
Mutual funds	
Tiffany & Co. common stock	
Tiffany & Co. common stock (ESOP) *	
Net depreciation in the fair value of investments	$

* Non-participant directed.

D. FAIR VALUE MEASUREMENTS

The Plan adopted SFAS No. 157, "Fair Value Measurements," effective February 1, 2008, with respect to fair value measurements of financial assets and liabilities that are recognized or disclosed at fair value in the Plan's financial statements on a recurring basis (at least annually).

SFAS No. 157 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. SFAS No. 157 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use

10

of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3 - Unobservable inputs reflecting the reporting entity's own assumptions.

Refer to Note B for the valuation method used to fair value plan assets.

The following table provides information by level for assets that are measured at fair value on a recurring basis:

Fair Value Measurem
Using Inputs Conside

	Fair Value at January 31, 2009	Level 1	Level 2
Tiffany & Co. common stock	$ 40,605,013	$ 40,605,013	$
Mutual funds	83,039,296	83,039,296	
Common and collective trusts	59,593,412	-	59,593,41
Participant loans	6,205,742	-	

Additionally, for the year ended January 31, 2009, the total amount of Participant loans was $6,205,742 which is classified as Level 3 Plan assets. This includes transfers in of $3,070,282 and a net decrease of $3,429,855 for issuances and settlements.

E. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments include common and collective trusts and mutual funds managed by DWS Trust Company, Inc., the Plan Trustee. Therefore, investment transactions in such common and collective trusts and mutual funds are considered to be exempt party-in-interest transactions under the Department of Labor's rules and regulations. Additionally, investments of the Plan include common stock of Tiffany & Co., the Plan sponsor.

F. TAX STATUS

The Plan has received a favorable letter of determination from the Internal Revenue Service for all changes to the Plan through April 14, 2008. The Plan has been amended since receiving this determination letter and a request for an updated determination letter has been submitted to the Internal Revenue Service. However, it is the belief of the plan administrator and the Plan's tax counsel that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision for Federal income taxes has been made in the accompanying financial statements.

G. CONCENTRATION OF CREDIT AND MARKET RISK

The Plan provides for various investment options in any one or a combination of Tiffany and Co. common stock, common and collective trusts and mutual funds that invest in a variety of stocks, bonds, fixed income securities and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

H. PLAN TERMINATION

Although it has not expressed any intent to do so, the Board of Directors of the Company reserves the right to change, amend or terminate the Plan at any time at its discretion, subject to the provisions of ERISA. In the event the Plan is terminated, participants will become 100% vested in their accounts. In addition, in the event of the dissolution, merger, consolidation or reorganization of the Company, the Plan will automatically terminate and the Plan's assets will be liquidated unless the Plan is continued by a successor to the Company.
