type="border: solid black; border-top-width: 0; border-right-width: 0; border-left-width: 0; border-bottom-width: 1" >02/14/2011**Signature of Reporting Person Date

Explanation of Responses:

- * If the form is filed by more than one reporting person, see Instruction 4(b)(v).
- ** Intentional misstatements or omissions of facts constitute Federal Criminal Violations. See 18 U.S.C. 1001 and 15 U.S.C. 78ff(a).

- (1) Includes 1,062 shares acquired on 06/30/10 through the Issuer's Employee Stock Purchase Plan.
- (2) Includes 294 shares acquired on 12/31/10 through the Issuer's Employee Stock Purchase Plan.

Note: File three copies of this Form, one of which must be manually signed. If space provided is insufficient, see Instruction 6 for procedure. Potential persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB number.

SELLING EXPENSES Selling expense for the year ended December 31, 2006 decreased \$0.2 million (5.0%) from 2005 as a result of lower travel and entertainment costs of \$0.3 million; lower legal costs of \$0.3 million; and other employee benefit and administrative cost reductions of approximately \$0.1 million; offset by increases in sales commissions of approximately \$0.3 million and increased spending for sales and marketing programs of \$0.2 million. Selling expenses increased 1.0% for the year ended December 31, 2005 because we were unable to reduce expenses in direct proportion to the decrease in sales. In 2004, selling expenses represented 5% of net sales, and included \$0.4 million in royalty expense related to the intellectual property rights agreement with Pro-Fit.

GENERAL AND ADMINISTRATIVE EXPENSES General and administrative expenses for the year ended December 31, 2006 decreased \$11.6 million or 52% from 2005. \$0.5 million of the reduction from 2005 was the result of restructuring and impairment charges recorded in 2005, and bad debt expense recorded in 2005 of \$5.9 million as compared to bad debt recoveries in 2006 of \$0.5 million. Other general and administrative costs in 2006 as compared to 2005 include reductions in legal costs by \$1.9 million; lower employee and benefit costs by \$1.9 million; reduced facility costs of \$0.6 million; and reductions in other administrative and travel costs of \$1.4 million; offset by approximately \$0.7 million in increased professional and audit fees; and stock based compensation expense of \$0.4 million associated with the implementation of FAS 123(R). General and administrative expenses increased approximately \$0.7 million (4%) in 2005 compared to 2004. This increase in general and administrative expenses resulted from a net increase of \$2.6 million in the reserve for doubtful accounts recorded in 2005, higher legal expenses of approximately \$3.5 million related primarily to the Pro-Fit litigation, and an impairment charge to goodwill of \$0.5 million incurred in connection with the 2005 restructuring plan; offset by reductions in employment levels and associated costs in connection with the restructuring plan. Included in general and administrative expenses for the year ended December 31, 2004 are charges of \$4.3 million related primarily to the write-down of receivables due from one customer. We also recorded an accounts receivable reserve of \$5.0 million (or 9% of net sales) in the fourth quarter of 2004 based on management's estimate of the collectibility of accounts receivable primarily related to two other customers. In the first quarter of 2004, we incurred additional restructuring charges of \$0.4 million related to the final residual costs associated with our restructuring plan implemented in the fourth quarter of 2003.

RESTRUCTURING CHARGES Restructuring costs in 2005 were the result of the adoption of our 2005 restructuring plan. Restructuring costs recorded in the third quarter of 2005 were \$6.2 million. Additional costs of \$0.2 million were incurred in the fourth quarter of 2005. Total restructuring costs of \$6.4 million were recorded in the Consolidated Statement of Operations for the year ended December 31, 2005 as follows (in millions):

Cost of goods sold	\$ 3.4	Operating expenses: General & administrative expenses	0.5
Restructuring charges	2.5	----- Total restructuring costs	\$ 6.4

=====

During the first quarter of 2004, we incurred restructuring charges of \$0.4 million for final residual costs associated with our 2003 restructuring plan.

INTEREST EXPENSE, NET Net interest expense for the year ended December 31, 2006 decreased from 2005 by approximately \$0.4 million principally as a result of interest earnings in 2006 from the note receivable. Interest expense increased approximately \$0.2 million (or 33%) to \$1.1

million for 2005 from \$0.8 million for 2004. The increase in interest expense was primarily due to higher debt levels associated with the \$12.5 million 6% secured convertible notes payable dated November 2004, the \$0.8 million 6.5% mortgage note payable to First National Bank dated June 2004, and the \$0.9 million 6.5% equipment note payable to First National Bank dated November 2004 which were outstanding for the entire year in 2005 compared to a partial year in 2004; partially offset by the repayment of a remaining \$1.4 million due pursuant to a note payable and a reduction in amounts due to factor in 2005. 24 INCOME TAXES Income tax provisions for the year ended December 31, 2006 principally include a royalty tax from the Inland Revenue Department in Hong Kong applicable to 2005, net of an estimated tax benefit for 2006 foreign losses and minimum federal and state filing fees. The provision for income taxes for the year ended December 31, 2005 principally reflects the elimination of the net deferred tax asset in 2005 of \$1.0 million, and estimated foreign taxes. Based on the Company's net operating losses, there is not sufficient evidence to determine that it is more likely than not that the Company will be able to utilize its net operating loss carry forwards to offset future taxable income. The provision for income taxes was \$2.3 million for the year ended December 31, 2004 .The income tax provision primarily reflects a charge of \$1.8 million as a result of a decrease in the value of net deferred tax assets, and foreign income taxes of \$0.5 million on foreign earnings. LIQUIDITY AND CAPITAL RESOURCES The following table summarizes selected financial data (amounts in thousands):

DECEMBER 31, 2006	DECEMBER 31, 2005	-----	Cash and cash equivalents	\$ 2,935
\$ 2,277	Total assets	25,694	30,321	Current debt
				22,471
				14,851
	Non-current debt	1,536	14,558	Stockholders' equity
				1,686
				912

CASH AND CASH EQUIVALENTS Our cash is held with financial institutions. Substantially all of the balances at December 31, 2006 and 2005 are in excess of federally insured limits. As of December 31, 2006 and 2005 we had restricted cash balances of \$50,000 related to cash collateral for a letter of credit with Wells Fargo Bank. FINANCING

ARRANGEMENTS The Company currently does not have an active financing arrangement to provide for working capital requirements and cash provided by operating activities is our only recurring source of funds. We financed building, land and equipment purchases through notes payable and capital lease obligations expiring through June 2011. These obligations bear interest at rates of 6.5% and 6.6% per annum, and under these obligations, we are required to make monthly payments of principal and interest. In June 2006 we entered into a note payable with our legal counsel in exchange for legal fees outstanding to this firm related to our Pro-Fit litigation. The note agreement provides for monthly payments against the note in amounts equal to payments we receive from our note receivable until such time as the note is paid in full. The note receivable is fully pledged as collateral against this note payable. A factoring agreement for the purchase of eligible receivables from our Hong Kong subsidiary exists with East Asia Heller, wherein the factor purchases our eligible accounts receivable and may assume the credit risk with respect to those accounts for which the factor has given its prior approval. If the factor does not assume the credit risk for a receivable, the collection risk associated with the receivable remains with us. The agreement provides for us to pay a fixed commission rate and for us to borrow up to 80% of eligible accounts receivable. Interest is charged at 1.5% over the Hong Kong Dollar prime rate. However, during 2005 and 2006 the factor declined to advance funds to us under this agreement. Accordingly, no outstanding advances as of December 31, 2006 and 2005 existed. 25 In 2005, we entered into a letter of credit with Wells Fargo Bank. This letter of credit provides for a maximum of \$50,000, expires in June 2007 and is secured by cash on hand managed by Wells Fargo Bank. At December 31, 2006, outstanding letters of credit under the Wells Fargo facility were \$50,000. This letter is pledged as collateral for a bond posted in connection with our litigation with Todo Textile, S. A. in which a settlement agreement was reached in 2006. Upon release of the bond held by the court in this matter, the letter of credit will be released and the settlement amount of \$40,000 paid from the proceeds. The outstanding balance of our demand notes payable to related parties at December 31, 2006 and 2005 was \$665,000. Included is a \$500,000 convertible secured promissory note payable with interest at 11% payable quarterly. The note is due on demand and is convertible into common stock at the election of the holder at a rate of \$4.50 per share. The remaining demand notes totaling \$165,000 bear interest at 0%-10%, have no scheduled monthly payments, and are due within fifteen days from demand. CASH FLOWS The following table summarizes our cash flow activity for the years ended December 31, 2006, 2005, and 2004 (amounts in thousands):

2006	2005	2004	-----	-----	-----	Net cash provided by (used in) operating activities	\$ 2,020	\$ 1,112
						Net cash used in investing activities	(345)	(1,454)
						Net cash provided by (used in) financing activities	(1,018)	(2,841)
						Net increase (decrease) in cash and cash equivalents	657	(3,183)
						OPERATING ACTIVITIES Cash and cash equivalents for the year ended December 31, 2006		

increased by \$0.7 million from December 31, 2005 principally arising from cash generated by operating activities, net of payments on notes payable and capital leases. Cash provided by operating activities is our only recurring source of funds and was \$2.0 million for the year ended December 31, 2006. The cash generated by operating activities during 2006 resulted primarily from net earnings (before non-cash expenses) of approximately \$2.3 million; reductions in inventory net of applied reserves of \$2.5 million; and \$1.0 million in reductions in accounts receivable net of reserves applied; net of reductions in accounts payable of \$2.6 million and reductions in other liabilities, net of approximately \$1.2 million. The net decrease in inventory of \$2.5 million reflects the Company's efforts to dispose of and lower slower-moving and obsolete inventory components. The cost of net inventories eliminated during the year was \$8.6 million, and reserves applicable to this inventory of \$6.1 million were applied to these dispositions. Accounts receivable for the year ended December 31, 2006 declined by \$2.1 million primarily as a result of improved collections and faster turns of accounts receivable, and by approximately \$0.7 million in accounts written-off. Accounts receivable reserves declined by \$1.1 million from the write-off of uncollectible accounts and by approximately \$0.4 million from the collection of accounts reserved for in prior years. In addition, during 2006 collections of accounts written-off in prior years was \$0.5 million. The increase in cash provided by operating activities during the year ended December 31, 2005 resulted from, among other changes, a \$10.6 million decrease in accounts receivable, including the collection of a \$4.5 million receivable from one customer; a \$3 million increase in accounts payable; a \$2.8 million decrease in inventories; a \$2.1 million increase in accrued legal costs; substantially offset by a net loss of \$29.5 million. At December 31, 2005, accounts receivable from Azteca Productions International ("Azteca"), a significant customer, was approximately \$10,968,000 less a reserve of \$7,528,000, totaling \$3,440,000, net. In February 2006, the Company accepted a note agreement from Azteca which provides for total payments including principal and interest of \$4.0 million in exchange for the net outstanding accounts receivable balance. The balance of the note receivable at December 31, 2005 of \$3,440,000 reflects a \$560,000 charge to discount the note, using a 10.5% discount rate, to its net present value. The Azteca accounts receivable, net at December 31, 2005 was reclassified on the accompanying consolidated balance sheets to note receivable to reflect this subsequent settlement. The decrease in cash provided by operations for 2004 resulted primarily from a net loss of \$17.6 million together with a net increase of \$7.6 million in accounts receivable due primarily to slower customer collections of receivables during the year. This decrease was partially offset by a \$4 million net increase in the allowance for doubtful accounts and a \$7.8 million decrease in inventories. INVESTING ACTIVITIES Net cash used in investing activities for the year ended December 31, 2006 and 2005 consisted of capital expenditures of \$0.3 million and \$1.5 million, respectively for leasehold improvements and equipment purchases. Net cash used in investing activities for the year ended December 31, 2004 consisted of capital expenditures of \$3.6 million for computer equipment, the purchase of additional TALON zipper equipment and building, land and leasehold improvements related to the TALON manufacturing facility in North Carolina. The building and land purchase of the TALON manufacturing facility was reported as a non-cash financing transaction. FINANCING ACTIVITIES Net cash used in financing activities for the years ended December 31, 2006 and 2005 primarily reflects the repayment of notes payable and capital lease obligations. In 2006 net cash used in financing activities also included \$0.6 million in collections from the note receivable. In 2005 cash used in financing activities also included, the repayment of borrowings under a bank line of credit partially offset by proceeds from the exercise of stock options and warrants. Net cash provided by financing activities for the year ended December 31, 2004 primarily reflects funds raised from secured convertible promissory notes of \$12.5 million, the exercise of stock options and warrants, proceeds from notes payable and a capital lease obligation, offset by the repayment of borrowings under our credit facility and notes payable. We currently satisfy our working capital requirements primarily through cash flows generated from operations. As the major apparel industry brands continue to outsource apparel manufacturing to offshore locations, our foreign customers, though backed by U.S. brands and retailers, will continue to increase. This makes traditional financing arrangements with U.S. banks and financial institutions difficult and accordingly we continue to evaluate non-traditional financing of our foreign assets. We believe that our existing cash and cash equivalents and anticipated cash flows from our operating activities and available financing will be sufficient to fund our minimum working capital and capital expenditure needs for at least the next twelve months. This conclusion is based on the belief and expectation that we have successfully completed the restructuring plan adopted in 2005 and that our strategic plan and the company's current structure will allow for continued profitability; that we will collect our note and accounts receivable in accordance to existing terms; and that we will complete a refinancing of the convertible notes payable by

their maturity date in November 2007. We have discussed the refinancing of these notes with the current note holders and with various financial and investment institutions. We believe that we will be successful in completing a modification or replacement of these notes prior to their maturity. 27 If we are unable to successfully complete the refinancing of the convertible notes or to collect our note and accounts receivable, or experience greater than anticipated reductions in sales, we may need to raise additional capital, or obtain alternate financing to repay the convertible notes, or further reduce the scope of our business in order to fully satisfy our future short-term liquidity requirements. If we cannot raise additional capital or arrange for alternate financing or reduce the scope of our business in response to a substantial decline in sales, we may default on the payment of the convertible notes payable. The event of a default on the payment of these notes will materially affect the business operations in the long-term, however the on-going operations for 2007 are nevertheless anticipated to substantially continue throughout the 2007 year-end as operations from assets not pledged to these notes continues. The extent of our future long-term capital requirements will depend on many factors, including our results of operations, future demand for our products, the size and timing of future acquisitions, and our expansion into foreign markets. Our need for additional long-term financing includes the integration and expansion of our operations to exploit our rights under our TALON trade name, the expansion of our operations in Asia and other markets and the further development of our waistband technology. If our cash from operations is less than anticipated or our working capital requirements and capital expenditures are greater than we expect, we may need to raise additional debt or equity financing in order to provide for our operations. We are continually evaluating various financing strategies to be used to expand our business and fund future growth or acquisitions. There can be no assurance that additional debt or equity financing will be available on acceptable terms or at all. If we are unable to secure additional financing, we may not be able to execute our plans for expansion, including expansion into foreign markets to promote our TALON brand trade name, and we may need to implement additional cost savings initiatives.

CONTRACTUAL OBLIGATIONS AND OFF-BALANCE SHEET ARRANGEMENTS The following summarizes our contractual obligations at December 31, 2006 and the effects such obligations are expected to have on liquidity and cash flow in future periods: Payments Due by Period

	Less than 1 Year	1-3 Years	4-5 Years	After 5 Years	Total
Demand notes payable to related parties (1)	\$ 1,181,000	\$ 1,181,000	\$ --	\$ --	\$ --
Capital lease obligations	\$ 1,027,000	\$ 506,000	\$ 521,000	\$ --	\$ --
Operating leases	\$ 1,421,000	\$ 437,000	\$ 754,000	\$ 229,000	\$ 1,000
Notes payable	\$ 2,426,000	\$ 1,193,000	\$ 604,000	\$ 629,000	\$ --
Convertible notes payable	\$13,143,000	\$13,143,000	\$ --	\$ --	\$ --
Total Obligations	\$19,198,000	\$16,460,000	\$ 1,879,000	\$ 858,000	\$ 1,000

(1) The majority of notes payable to related parties are due on demand with the remainder due and payable on the fifteenth day following the date of delivery of written demand for payment, and include accrued interest payable through December 31, 2006. At December 31, 2006 and 2005, we did not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. As such, we are not exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in such relationships.

RELATED PARTY TRANSACTIONS For a description of transactions to which we were or will be a party, and in which any director, executive officer, or shareholder of more than 5% of our common stock or any member of their immediate family had or will have a direct or indirect material interest, see Note 16 of the Notes to the consolidated financial statements included in Item 8 of this Report.

APPLICATION OF CRITICAL ACCOUNTING POLICIES AND ESTIMATES The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions for the reporting period and as of the financial statement date. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities and the reported amounts of revenue and expense. Actual results could differ from those estimates. Critical accounting policies are those that are important to the portrayal of our financial condition and results, and which require us to make difficult, subjective and/or complex judgments. Critical accounting policies cover accounting matters that are inherently uncertain because the future resolution of such matters is unknown. We

believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements:

- o Accounts receivable balances are evaluated on a continual basis and allowances are provided for potentially uncollectible accounts based on management's estimate of the collectibility of customer accounts. If the financial condition of a customer were to deteriorate, resulting in an impairment of its ability to make payments, an additional allowance may be required. Allowance adjustments are charged to operations in the period in which the facts that give rise to the adjustments become known.
- o Inventories are stated at the lower of cost or market value. Inventory is evaluated on a continual basis and reserve adjustments are made based on management's estimate of future sales value, if any, of specific inventory items. Inventory reserves are recorded for damaged, obsolete, excess and slow-moving inventory. We use estimates to record these reserves. Slow-moving inventory is reviewed by category and may be partially or fully reserved for depending on the type of product and the length of time the product has been included in inventory. Reserve adjustments are made for the difference between the cost of the inventory and the estimated market value, if lower, and charged to operations in the period in which the facts that give rise to these adjustments become known. Market value of inventory is estimated based on the impact of market trends, an evaluation of economic conditions and the value of current orders relating to the future sales of this type of inventory.
- o We record deferred tax assets arising from temporary timing differences between recorded net income and taxable net income when and if we believe that future earnings will be sufficient to realize the tax benefit. For those jurisdictions where the expiration date of tax benefit carry-forwards or the projected taxable earnings indicate that realization is not likely, a valuation allowance is provided. If we determine that we may not realize all of our deferred tax assets in the future, we will make an adjustment to the carrying value of the deferred tax asset, which would be reflected as an income tax expense. Conversely, if we determine that we will realize a deferred tax asset, which currently has a valuation allowance, we would be required to reverse the valuation allowance, which would be reflected as an income tax benefit. We believe that our estimate of deferred tax assets and determination to record a valuation allowance against such assets are critical accounting estimates because they are subject to, among other things, an estimate of future taxable income, which is susceptible to change and dependent upon events that may or may not occur, and because the impact of recording a valuation allowance may be material to the assets reported on the balance sheet 29 and results of operations. See Notes to consolidated financial statements, Note 12, "Income Taxes".
- o We record impairment charges when the carrying amounts of long-lived assets are determined not to be recoverable. Impairment is measured by assessing the usefulness of an asset or by comparing the carrying value of an asset to its fair value. Fair value is typically determined using quoted market prices, if available, or an estimate of undiscounted future cash flows expected to result from the use of the asset and its eventual disposition. The amount of impairment loss is calculated as the excess of the carrying value over the fair value. Changes in market conditions and management strategy have historically caused us to reassess the carrying amount of our long-lived assets. Long-lived assets are evaluated on a continual basis and impairment adjustments are made based upon management's valuations. As part of our 2005 restructuring plan, certain long-lived assets, primarily machinery and equipment, were impaired and their values adjusted accordingly.
- o Sales are recognized when persuasive evidence of an arrangement exists, product delivery has occurred, pricing is fixed or determinable, and collection is reasonably assured. Sales resulting from customer buy-back agreements, or associated inventory storage arrangements are recognized upon delivery of the products to the customer, the customer's designated manufacturer, or upon notice from the customer to destroy or dispose of the goods. Sales, provisions for estimated sales returns, and the cost of products sold are recorded at the time title transfers to customers. Actual product returns are charged against estimated sales return allowances.
- o Upon approval of a restructuring plan by management, we record restructuring reserves for certain costs associated with facility closures and business reorganization activities as they are incurred or when they become probable and estimable. Such costs are recorded as a current liability. We record restructuring reserves in compliance with SFAS 146 "Accounting for Costs Associated with Exit or Disposal Activities", resulting in the recognition of employee severance and related termination benefits for recurring arrangements when they became probable and estimable and on the accrual basis for one-time benefit arrangements. We record other costs associated with exit activities as they are incurred. Employee severance and termination benefits are estimates based on agreements with the relevant union representatives or plans adopted by us that are applicable to employees not affiliated with unions. These costs are not associated with nor do they benefit continuing activities. Inherent in the estimation of these costs are assessments related to the most likely expected outcome of the significant actions to accomplish the restructuring. Changing business conditions may affect the assumptions related to the timing and

extent of facility closure activities. We review the status of restructuring activities on a quarterly basis and, if appropriate, records changes based on updated estimates. See Note 11, "2005 Restructuring Costs". o We are currently involved in various lawsuits, claims and inquiries, most of which are routine to the nature of the business, and in accordance with SFAS No. 5, "Accounting for Contingencies." We accrue estimates of the probable and estimable losses for the resolution of these claims. The ultimate resolution of these claims could affect our future results of operations for any particular quarterly or annual period should our exposure be materially different from our earlier estimates or should liabilities be incurred that were not previously accrued.

30 NEW ACCOUNTING PRONOUNCEMENTS In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements", ("SFAS No. 157"). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, and does not require any new fair value measurements. The application of SFAS No. 157, however, may change current practice within an organization. SFAS No. 157 is effective for all fiscal years beginning after November 15, 2007, with earlier application encouraged. We do not believe that SFAS No. 157 will have a material impact on our financial position, results of operations or cash flows.

In September 2006, the SEC issued Staff Accounting Bulletin No. 108, **CONSIDERING THE EFFECTS OF PRIOR YEAR MISSTATEMENTS WHEN QUANTIFYING MISSTATEMENTS IN CURRENT YEAR FINANCIAL STATEMENTS ("SAB 108")**, to address diversity in practice in quantifying financial statement misstatements. SAB 108 requires the quantification of misstatements based on their impact on both the balance sheet and the income statement to determine materiality. The guidance provides for a one-time cumulative effect adjustment to correct for misstatements that were not deemed material under a company's prior approach but are material under the SAB 108 approach. SAB 108 is effective for fiscal years ending after November 15, 2006. The implementation of SAB 108 did not have a material impact on our financial position, results of operations or cash flows.

In June 2006, the Financial Accounting Standards Board ("FASB") issued Interpretation No. 48, **ACCOUNTING FOR UNCERTAINTY IN INCOME TAXES -- AN INTERPRETATION OF FASB STATEMENT NO. 109, (FIN 48)**. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, **ACCOUNTING FOR INCOME TAXES**. FIN 48 also prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return that results in a tax benefit. Additionally, FIN 48 provides guidance on de-recognition, income statement classification of interest and penalties, accounting in interim periods, disclosure, and transition. This interpretation is effective for fiscal years beginning after December 15, 2006. We are currently evaluating the effect that the application of FIN 48 will have on its results of operations and financial condition.

In February 2006, the FASB issued Statement of Financial Accounting Standards No. 155, "Accounting for Certain Hybrid Financial Instruments" ("SFAS 155"), which amends SFAS No. 133, "Accounting for Derivatives Instruments and Hedging Activities" ("SFAS 133") and SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities" ("SFAS 140). SFAS 155 amends SFAS 133 to narrow the scope exception for interest-only and principal-only strips on debt instruments to include only such strips representing rights to receive a specified portion of the contractual interest or principle cash flows. SFAS 155 also amends SFAS 140 to allow qualifying special-purpose entities to hold a passive derivative financial instrument pertaining to beneficial interests that itself is a derivative instrument. SFAS No. 155 is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. We do not believe that SFAS No. 155 will have a material impact on the Company's financial position, results of operations or cash flows.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK All of our sales are denominated in United States dollars or the currency of the country in which our products originate. We are exposed to market risk for fluctuations in the foreign currency exchange rates for certain product purchases that are denominated in Hong Kong dollars, Chinese Yuan's and British Pounds. During 2004, we purchased forward exchange contracts for British Pounds to hedge the payments of product purchases. We do not intend to purchase additional contracts to hedge the exchange exposure for future product purchases. There were no hedging contracts outstanding as of December 31, 2006. Currency 31 fluctuations can increase the price of our products to foreign customers which can adversely impact the level of our export sales from time to time. The majority of our cash equivalents are held in United States dollars in various bank accounts and we do not believe we have significant market risk exposure with regard to our investments. At December 31, 2006, none of our indebtedness was subject to

interest rate fluctuations. 32

33 REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM To the Board of Directors and Stockholders Tag It Pacific Inc. Woodland Hills, California We have audited the consolidated balance sheets of Tag It Pacific Inc. and subsidiaries as of December 31, 2006 and 2005, and the related consolidated statements of operations, stockholders' equity and convertible redeemable preferred stock, and cash flows for each of the two years in the period ended December 31, 2006. Our audits also included the financial statement schedules of Tag It Pacific Inc., listed in Item 15(a). These financial statements and financial statement schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provided a reasonable basis for our opinion. In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Tag It Pacific Inc. and subsidiaries as of December 31, 2006 and 2005, and the results of their operations and their cash flows for each of the two years in the period ended December 31, 2006, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedules, when considered in relation to the basic consolidated financial statements, taken as a whole, present fairly in all material respects the information set forth therein. /S/ SINGER LEWAK GREENBAUM & GOLDSTEIN LLP Los Angeles, California April 9, 2007

34 REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM The Board of Directors Tag-It Pacific, Inc. Los Angeles, California We have audited the accompanying consolidated statements of operations, stockholders' equity and convertible redeemable preferred stock and cash flows of Tag-It Pacific, Inc. and subsidiaries for the year ended December 31, 2004. The financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provided a reasonable basis for our opinion. In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the results of operations of Tag-It Pacific, Inc. and subsidiaries and their cash flows for the year ended December 31, 2004, in conformity with accounting principles generally accepted in the United States of America. /s/ BDO Seidman, LLP Los Angeles, California March 31, 2005

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES NATURE OF BUSINESS

Tag-It Pacific, Inc. (the "Company") is an apparel company that specializes in the distribution of trim items to manufacturers of fashion apparel, specialty retailers and mass merchandisers. The Company acts as a full service outsourced trim management department for manufacturers, a specified supplier of trim items to owners of specific brands, brand licensees and retailers, a manufacturer and distributor of zippers under the TALON brand name and a distributor of stretch waistbands that utilize licensed patented technology under the TEKFIT brand name.

ORGANIZATION AND BASIS OF PRESENTATION

Tag-It Pacific, Inc. is the parent holding company of Tag-It, Inc., a California corporation, Tag-It Pacific (HK) Ltd., a BVI corporation, Tag-It de Mexico, S.A. de C.V., A.G.S. Stationery, Inc., a California corporation (collectively, the "Subsidiaries"), all of which were consolidated under a parent limited liability company on October 17, 1997 and became wholly-owned subsidiaries of the Company immediately prior to the effective date of the Company's initial public offering in January 1998. Immediately prior to the initial public offering, the outstanding membership units of Tag-It Pacific LLC were converted to 2,470,001 shares of Common Stock of the Company. In January 2000, the Company formed Tag-It Pacific Limited, a Hong Kong corporation, and in April 2000, the Company formed Talon International, Inc., a Delaware corporation. During 2006 we formed two wholly owned subsidiaries of Tag-It Pacific, Inc.; Talon Zipper (Shenzhen) Company Ltd. in China, and Talon International Pvt. Ltd., in India. All newly formed corporations are 100% wholly-owned Subsidiaries of Tag-It Pacific, Inc. Logistica en Avios, S.A. de C.V. was an affiliated entity over which the Company exercised control, and as such, is accounted for in the same manner as a wholly-owned subsidiary. All significant intercompany accounts and transactions have been eliminated in consolidation. Assets and liabilities of foreign subsidiaries are translated at rates of exchange in effect at the close of the period. Revenues and expenses are translated at the weighted average of exchange rates in effect during the year. The resulting translation gains and losses are deferred and are shown as a separate component of stockholders' equity, if material, and transaction gains and losses, if any, are recorded in the consolidated statement of income in the period incurred. During 2006, 2005 and 2004, foreign currency translation and transaction gains and losses were not material. The Company does not engage in hedging activities with respect to exchange rate risk.

USE OF ESTIMATES

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. CASH AND CASH EQUIVALENTS The Company considers all highly liquid investments purchased with an initial maturity of three months or less to be cash equivalents. The Company had approximately \$2.9 million and \$2.2 million at financial institutions in excess of federally insured limits at December 31, 2006 and 2005.

ALLOWANCE FOR DOUBTFUL ACCOUNTS

We are required to make judgments as to the collectibility of accounts receivable based on established aging policy, historical experience and future expectations. The allowances for doubtful accounts represent allowances for customer trade accounts receivable that are estimated to be partially or entirely uncollectible. These allowances are used to reduce gross trade receivables to their net realizable value. We record these allowances based on estimates related to the following factors: (i) customer specific allowances; (ii) amounts based upon an aging schedule; and (iii) an estimated amount, based on our historical experience, for issues not yet identified. INVENTORIES Inventories are stated at the lower of cost or market value and are all substantially finished goods. Inventory reserves are recorded for damaged, obsolete, excess and slow-moving inventory. We use estimates to record these reserves. Slow-moving inventory is reviewed by category and may be partially or fully reserved for depending on the type of product and the length of time the product has been included in inventory. Reserve adjustments are made for the difference between the cost of the inventory and the estimated market value, if lower, and charged to operations in the period in which the facts that give rise to these adjustments become known. Market value of inventory is estimated based on the impact of market trends, an evaluation of economic conditions and the value of current orders relating to the future sales of this type of inventory.

Year Ended December 31, ----- 2006 2005

----- Finished goods	\$ 4,293,220	\$12,879,099	Less reserves	1,242,000
7,306,000 -----			----- Total inventories	\$ 3,051,220 \$ 5,573,099 =====

PROPERTY AND EQUIPMENT AND FIXED ASSETS HELD FOR SALE Property and equipment are recorded at historical cost. Maintenance and repairs are expensed as incurred. Upon retirement or other disposition of property and equipment, the related cost and accumulated depreciation or amortization are removed from the accounts and any gains or losses are included in results of operations. During the year ended December 31, 2005 the Company wrote-off fully depreciated equipment, films, dies and art designs no longer in service, and changed its estimates of the expected useful lives of the dies and molds to 3 months or 1 year, depending upon the nature of the tool. Depreciation of property and equipment is computed using the straight-line method based on estimated useful lives as follows: Furniture and fixtures 5 years Machinery and equipment 5 to 10 years Computer equipment 5 years Leasehold improvements Term of the lease or the estimated life of the related improvements, whichever is shorter. Dies, and molds 3 months to 1 years Idle equipment 5 to 10 years

41 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Property and equipment consist of the following: Year Ended December 31, ----- 2006 2005 ----- Furniture and fixtures \$ 582,832 \$ 551,623 Machinery and equipment 1,682,296 3,319,786 Computer equipment 3,422,058 3,325,997 Leasehold improvements 214,807 139,803 Dies, and molds 106,273 106,273 Idle equipment 4,434,980 2,806,475 ----- 10,443,246 10,249,958 Accumulated depreciation and amortization 4,820,206 3,811,862 ----- Net property and equipment \$ 5,623,040 \$ 6,438,096 ===== Depreciation expense for the years ended December 31, 2006, 2005 and 2004 was \$1,090,000, \$1,499,000, and \$1,277,000, respectively. During the year ended December 31, 2005, the Company wrote-off fixed assets with a net book value of \$2,036,000 in connection with the 2005 restructuring plan. Idle equipment is principally machinery and equipment used for the production of zipper chain and the assembly of finished zippers. This equipment was originally associated with the production and assembly facilities in North Carolina and in Mexico, and was temporarily rendered idle with the closing of these operations in connection with the 2005 Restructuring Plan. The Company intends to redeploy this equipment during the next year within production operations being established in Asia and India. The equipment continues to be depreciated based upon its estimated useful lives. Fixed assets held for sale consists of the North Carolina land and manufacturing facility. Management has the authority and has committed to sell the asset; the asset is listed for sale with a commercial real estate agent who is actively marketing the property; the sale of the asset is probable and the sale is expected to be completed within one year. See Note 11, "2005 Restructuring Plan".

GOODWILL AND OTHER INTANGIBLE ASSETS Intangible assets consist of goodwill, tradename, and exclusive license and intellectual property rights. Goodwill represents the excess of costs over fair value of assets of businesses acquired. Goodwill and intangible assets acquired in a purchase business combination and determined to have an indefinite useful life are not amortized, but instead tested for impairment at least annually in accordance with the provisions of FASB Statement No. 142, Goodwill and Other Intangible Assets. Intangible assets with estimable useful lives are amortized over their respective estimated useful lives, which average 5 years, to their estimated residual values, and reviewed for impairment in accordance with FASB Statement No. 144, Accounting for Impairment or Disposal of Long-Lived Assets. At December 31, 2006, the Company evaluated its Other Intangible Assets and determined that there was no impairment of these assets and made no changes to the net carrying amount of Tradename for the years ended December 31, 2006 and 2005. At December 31, 2005, the Company evaluated its Goodwill and determined that an impairment adjustment in the amount of \$450,000 related to goodwill was necessary to reduce the carrying value of goodwill to zero. Amortization expense related to exclusive license and

42 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS intellectual property rights of \$115,500 were recorded for each of the years ended December 31, 2006, 2005 and 2004. Goodwill and other intangible assets as of December 31, 2006 and 2005 are as follows: Year Ended December 31, ----- 2006 2005 ----- Goodwill \$ -- \$ 500,000 Accumulated amortization -- (50,000) Impairment write-off -- (450,000) ----- Goodwill, net \$ -- \$ ----- ===== Other Intangible Assets: Tradename \$ 4,110,750 \$ 4,110,750 Accumulated amortization -- ----- Tradename, net 4,110,750 4,110,750 Exclusive license and intellectual property rights 577,500 577,500 Accumulated amortization (548,625) (433,125) ----- Exclusive license and intellectual property rights, net 28,875 144,375 ----- Other intangible assets, net \$ 4,139,625 \$ 4,255,125 ===== The estimated amortization expense for these assets for succeeding years is \$28,875

for 2007. **IMPAIRMENT OF LONG-LIVED ASSETS** We record impairment charges when the carrying amounts of long-lived assets are determined not to be recoverable. Impairment is measured by assessing the usefulness of an asset or by comparing the carrying value of an asset to its fair value. Fair value is typically determined using quoted market prices, if available, or an estimate of undiscounted future cash flows expected to result from the use of the asset and its eventual disposition. The amount of impairment loss is calculated as the excess of the carrying value over the fair value. Changes in market conditions and management strategy have historically caused us to reassess the carrying amount of our long-lived assets. During the year ended December 31, 2005, the Company recorded asset impairment charges in connection with its 2005 Restructuring Plan (See Note 11). **INCOME TAXES** Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and tax benefit carry-forwards. Deferred tax liabilities and assets at the end of each period are determined using enacted tax rates. The Company records deferred tax assets arising from temporary timing differences between recorded net income and taxable net income when and if we believe that future earnings will be sufficient to realize the tax benefit. For those jurisdictions where the expiration date of tax benefit carry-forwards or the projected taxable earnings indicate that realization is not likely, a valuation allowance is provided. The provisions of SFAS No. 109, "Accounting for Income Taxes," require the establishment of a valuation allowance when, based on currently available information and other factors, it is more likely than not that all or a portion of a deferred tax asset will not be realized. SFAS No. 109 provides that an important factor in determining whether a deferred tax asset will be realized is whether there has been sufficient income 43 TAG-IT PACIFIC, INC. **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS** in recent years and whether sufficient income is expected in future years in order to utilize the deferred tax asset. The Company believes that its estimate of deferred tax assets and determination to record a valuation allowance against such assets are critical accounting estimates because they are subject to, among other things, an estimate of future taxable income, which is susceptible to change and dependent upon events that may or may not occur, and because the impact of recording a valuation allowance may be material to the assets reported on the balance sheet and results of operations. **STOCK-BASED COMPENSATION** On January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123 (revised 2004), "Share-Based Payment," ("SFAS 123(R)") which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors based on estimated fair values. SFAS 123(R) supersedes the Company's previous accounting under Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25") for periods beginning in fiscal 2006. In March 2005, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 107 ("SAB 107") relating to SFAS 123(R). The Company has applied the provisions of SAB 107 in its adoption of SFAS 123(R). The Company adopted SFAS 123(R) using the modified prospective transition method, which requires the application of the accounting standard as of January 1, 2006. The Company's financial statements as of and for the year ended December 31, 2006 reflect the impact of SFAS 123(R). In accordance with the modified prospective transition method, the Company's financial statements for prior periods have not been restated to reflect, and do not include, the impact of SFAS 123(R). There was no stock-based compensation expense related to employee or director stock options recognized during the years ended December 31, 2005 or 2004. Options issued to consultants are accounted for in accordance with the provisions of Emerging Issues Task Force (EITF) No. 96-18, "Accounting for Equity Instruments That Are Issued to Others Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services." As a result of adopting SFAS 123(R) on January 1, 2006, the Company's income before income taxes and net income for the year ended December 31, 2006 are \$395,000 lower than if it had continued to account for share-based compensation under APB Opinion 25. The following table illustrates the effect on net income and loss per share if the Company had applied the fair value recognition provisions of SFAS 123(R) to stock-based awards granted under the Company's stock option plans in all periods presented. For purposes of this pro-forma disclosure, the fair value of the options is estimated using the Black-Scholes-Merton option-pricing formula ("Black-Scholes model") and amortized to expense generally over the options' vesting periods. 44 TAG-IT PACIFIC, INC. **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS** 2005 2004 ----- Net loss as reported \$(29,537,709) \$(17,608,968) Add: Stock-based employee compensation expense included in reported net income, net of related tax effects -- -- Deduct: Total stock-based employee compensation expense determined under fair value method for all awards, net of related tax effects (221,167) (55,228) ----- Pro forma net loss \$(29,758,876)

\$(17,664,196) ===== Loss per share: Basic - as reported \$ (1.62) \$ (1.02)
 Basic - pro forma \$ (1.63) \$ (1.02) SFAS 123(R) requires companies to estimate the fair value of share-based payment awards to employees and directors on the date of grant using an option-pricing model. The value of the portion of the award that is ultimately expected to vest is recognized as expense over the requisite service periods in the Company's Statements of Operations. Stock-based compensation expense recognized in the Statements of Operations for the year ended December 31, 2006 included compensation expense for share-based payment awards granted prior to, but not yet vested as of January 1, 2006 based on the grant date fair value estimated in accordance with the pro-forma provisions of SFAS 123 and compensation expense for the share-based payment awards granted subsequent to January 1, 2006 based on the grant date fair value estimated in accordance with the provisions of SFAS 123(R). For stock-based awards issued to employees and directors, stock-based compensation is attributed to expense using the straight-line single option method, which is consistent with how the prior-period pro formas were provided. As stock-based compensation expense recognized in the Statements of Operations for 2006 is based on awards expected to vest, SFAS 123(R) requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. For the year ended December 31, 2006, expected forfeitures are immaterial and as such the Company is recognizing forfeitures as they occur. In the pro-forma information provided under SFAS 123 for the periods prior to 2006, the Company accounted for forfeitures as they occurred. Prior to the adoption of SFAS 123(R), the Company accounted for stock-based awards to employees and directors using the intrinsic value method in accordance with APB Opinion 25. Under the intrinsic value method, the Company recognized share-based compensation equal to the award's intrinsic value at the time of grant over the requisite service periods using the straight-line method. Forfeitures were recognized as incurred. During the years ended December, 31, 2005 and 2004, there was no stock-based compensation expense recognized in the Statements of Operations for awards issued to employees and directors as the awards had no intrinsic value at the time of grant because their exercise prices equaled the fair values of the common stock at the time of grant. The Company's determination of fair value of share-based payment awards to employees and directors on the date of grant uses the Black-Scholes model, which is affected by the Company's stock price as well as assumptions regarding a number of complex and subjective variables. These variables include, but are not limited to, the expected stock price volatility over the expected term of the awards, and actual and projected employee stock option exercise behaviors. The Company estimates expected 45 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS volatility using historical data. The expected option term is estimated using the "safe harbor" provisions under SAB 107. The Company has elected to adopt the detailed method provided in SFAS 123(R) for calculating the beginning balance of the additional paid-in capital pool ("APIC pool") related to the tax effects of employee stock-based compensation, and to determine the subsequent impact on the APIC pool and Statements of Cash Flows of the tax effects of employee stock-based compensation awards that are outstanding upon adoption of SFAS 123(R). COMPREHENSIVE INCOME The Company has adopted Statement of Financial Standard No. 130, "Reporting Comprehensive Income" ("SFAS 130"), issued by the FASB and effective for financial statements with fiscal years beginning after December 15, 1997. SFAS 130 establishes standards for reporting and display of comprehensive income and its components in a full set of general-purpose financial statements. There were no material other comprehensive income items for the years ended December 31, 2006, 2005 and 2004. REVENUE RECOGNITION Sales are recognized when persuasive evidence of an arrangement exists, product delivery has occurred, pricing is fixed or determinable, and collection is reasonably assured. Sales resulting from customer buy-back agreements, or associated inventory storage arrangements are recognized upon delivery of the products to the customer, the customer's designated manufacturer, or upon notice from the customer to destroy or dispose of the goods. Sales, provisions for estimated sales returns, and the cost of products sold are recorded at the time title transfers to customers. Actual product returns are charged against estimated sales return allowances. Sales rebates and discounts are common practice in the industries in which the Company operates. Volume, promotional, price, cash and other discounts and customer incentives are accounted for as a reduction to gross sales. Rebates and discounts are recorded based upon estimates at the time products are sold. These estimates are based upon historical experience for similar programs and products. The Company reviews such rebates and discounts on an ongoing basis and accruals for rebates and discounts are adjusted, if necessary, as additional information becomes available. RECLASSIFICATION Certain reclassifications have been made to the prior year financial statements to conform to 2006 presentation. CLASSIFICATION OF EXPENSES COST OF SALES - Cost of goods sold primarily includes expenses related to

inventory purchases, customs, duty, freight, overhead expenses and reserves for obsolete inventory. Overhead expenses primarily consist of warehouse and operations salaries, and other warehouse expenses. SELLING EXPENSE - Selling expenses primarily include royalty expense, sales salaries and commissions, travel and entertainment, marketing and other sales-related costs. GENERAL AND ADMINISTRATIVE EXPENSES - General and administrative expenses primarily include administrative salaries, employee benefits, professional service fees, facility expenses, information technology costs, investor relations, travel and entertainment, depreciation and amortization, bad debts, restructuring costs and other general corporate expenses. 46 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS SHIPPING AND HANDLING COSTS In accordance with Emerging Issues Task Force (EITF) 00-10, Accounting for Shipping and Handling Fees and Costs, the Company records shipping and handling costs billed to customers as a component of revenue, and shipping and handling costs incurred by the Company for outbound freight are recorded as a component of cost of sales. Total shipping and handling costs included as component of revenue for the years ended December 31, 2006, 2005 and 2004 amounted to \$146,000, \$98,000 and \$194,000. Total shipping and handling costs included as a component of cost of sales for each of these years amounted to \$691,000, \$925,000 and \$1,002,000. RESTRUCTURING CHARGES The Company records restructuring reserves in compliance with SFAS 146 "Accounting for Costs Associated with Exit or Disposal Activities", resulting in the recognition of employee severance and related termination benefits for recurring arrangements as they are incurred and on the accrual basis for one-time benefit arrangements. The Company records other costs associated with exit activities as they are incurred. Employee severance and termination benefits are estimates based on agreements with the relevant union representatives or plans adopted by the Company that are applicable to employees not affiliated with unions. These costs are not associated with nor do they benefit continuing activities. Inherent in the estimation of these costs are assessments related to the most likely expected outcome of the significant actions to accomplish the restructuring. Changing business conditions may affect the assumptions related to the timing and extent of facility closure activities. The Company reviews the status of restructuring activities on a quarterly basis and, if appropriate, records changes based on updated estimates. See Note 11, "2005 Restructuring Plan". LITIGATION We are currently involved in various lawsuits, claims and inquiries, most of which are routine to the nature of the business, and in accordance with SFAS No. 5, "Accounting for Contingencies," we accrue estimates of the probable and estimable losses for the resolution of these claims. The ultimate resolution of these claims could affect our future results of operations for any particular quarterly or annual period should our exposure be materially different from our earlier estimates or should liabilities be incurred that were not previously accrued. FAIR VALUE OF FINANCIAL INFORMATION The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value. ACCOUNTS RECEIVABLE: Due to the short-term nature of the receivables, the fair value approximates the carrying value. DUE FROM RELATED PARTIES AND NOTES PAYABLE TO RELATED PARTIES: Due to the short-term nature and current market borrowing rates of the loans and notes, the fair value approximates the carrying value. NOTES PAYABLE: Fair value approximates carrying value based upon current market borrowing rates for loans with similar terms and maturities. NEW ACCOUNTING PRONOUNCEMENTS In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements", ("SFAS No. 157"). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, and does not require any new fair value measurements. The application of SFAS No. 157, however, may change current practice within an organization. SFAS No. 157 is effective for all fiscal years beginning after 47 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS November 15, 2007, with earlier application encouraged. The Company does not believe that SFAS No. 157 will have a material impact on the Company's financial position, results of operations or cash flows. In September 2006, the SEC issued Staff Accounting Bulletin No. 108, CONSIDERING THE EFFECTS OF PRIOR YEAR MISSTATEMENTS WHEN QUANTIFYING MISSTATEMENTS IN CURRENT YEAR FINANCIAL STATEMENTS ("SAB 108"), to address diversity in practice in quantifying financial statement misstatements. SAB 108 requires the quantification of misstatements based on their impact on both the balance sheet and the income statement to determine materiality. The guidance provides for a one-time cumulative effect adjustment to correct for misstatements that were not deemed material under a company's prior approach but are material under the SAB 108 approach. SAB 108 is effective for fiscal years ending after November 15, 2006. The implementation of SAB 108 did not have a material impact on the

financial position, results of operations or cash flows of the Company. In June 2006, the Financial Accounting Standards Board ("FASB") issued Interpretation No. 48, ACCOUNTING FOR UNCERTAINTY IN INCOME TAXES -- AN INTERPRETATION OF FASB STATEMENT NO. 109, (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, ACCOUNTING FOR INCOME TAXES. FIN 48 also prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return that results in a tax benefit. Additionally, FIN 48 provides guidance on de-recognition, income statement classification of interest and penalties, accounting in interim periods, disclosure, and transition. This interpretation is effective for fiscal years beginning after December 15, 2006. The Company is currently evaluating the effect that the application of FIN 48 will have on its results of operations and financial condition. In February 2006, the FASB issued Statement of Financial Accounting Standards No. 155, "Accounting for Certain Hybrid Financial Instruments" ("SFAS 155"), which amends SFAS No. 133, "Accounting for Derivatives Instruments and Hedging Activities" ("SFAS 133") and SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities" ("SFAS 140). SFAS 155 amends SFAS 133 to narrow the scope exception for interest-only and principal-only strips on debt instruments to include only such strips representing rights to receive a specified portion of the contractual interest or principle cash flows. SFAS 155 also amends SFAS 140 to allow qualifying special-purpose entities to hold a passive derivative financial instrument pertaining to beneficial interests that itself is a derivative instrument. SFAS No. 155 is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. The Company does not believe that SFAS No. 155 will have a material impact on the Company's financial position, results of operations or cash flows. NOTE 2 - ACCOUNTS AND NOTE RECEIVABLE At December 31, 2006 a note receivable from Azteca Productions International ("Azteca") was outstanding in the amount of \$2,799,460. The note is receivable in monthly installments over thirty-one months beginning March 1, 2006. The payments are \$50,000 per month for the first 5 months, then range from \$133,000-\$267,000 per month until paid in full. At December 31, 2005, accounts receivable from Azteca, a significant customer in 2005, was approximately \$10,968,000 less a reserve of \$7,528,000. In February 2006, the Company accepted a note agreement from Azteca which provided for total payments including principal and interest of \$4.0 million in exchange for the net outstanding accounts receivable balance. The value of the note receivable recorded effective at December 31, 2005 reflected a \$560,000 charge to the face value to discount the note, using a 10.5% discount rate, to its net present value. The Azteca accounts receivable, net at December 31, 2005 was reclassified on the accompanying consolidated balance sheets to note receivable to reflect this subsequent settlement. The following summarizes the future minimum payments of the note receivable: 48 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS YEARS ENDING DECEMBER 31, Amount

-----	2007	\$ 1,599,996	2008
.....	1,483,339 -----	Total payments	3,083,335
Less	amount representing interest	(283,875) -----	Balance at December 31, 2006
\$ 2,799,460	Less current portion	1,378,491	----- Long-term portion
\$ 1,420,969	=====	Accounts receivable are included on the accompanying consolidated balance sheet net of an allowance for doubtful accounts. The total allowance for doubtful accounts at December 31, 2006 was \$71,500. The total allowance for doubtful accounts at December 31, 2005 was \$1,188,758, after reclassification of the net Azteca receivable to note receivable. In 2004, following negotiations with Tarrant Apparel Group, a former customer, we determined that a significant portion of the obligations due from this customer were uncollectible. Accordingly, included in general and administrative expenses for 2004 are charges of \$4.3 million related primarily to the write-down of this receivable and leaving a remaining balance receivable from this customer of \$4.5 million. An affiliate of the customer repaid the \$4.5 million receivable balance over the period from May through December 2005.	

NOTE 3 - FACTORING AGREEMENT The Company entered into a factoring agreement with East Asia Heller in 2004 for the purchase of eligible receivables from its Hong Kong subsidiary, Tag-It Pacific (HK) Limited. The factor may purchase eligible accounts receivable and assume the credit risk with respect to those accounts for which they have given their prior approval. If the factor does not assume the credit risk for a receivable, the collection risk associated with the receivable remains with the Company. The Company pays a fixed commission rate and may borrow up to 80% of its eligible accounts receivable. Interest is charged at 1.5% over the Hong Kong Dollar prime rate (7.75% and 7.75% at December 31, 2006 and 2005). However, during 2005 and 2006 the factor declined to

Edgar Filing: ENDO HEALTH SOLUTIONS INC. - Form CT ORDER

advance funds to the Company under this agreement. Accordingly, as of December 31, 2006, and 2005 there were no outstanding advances from the factor. NOTE 4 - DEMAND NOTES PAYABLE TO RELATED PARTIES Demand notes payable to related parties consist of the following: Year Ended December 31, ----- 2006 2005 ----- Two notes payable issued from 1995-1998 to parties related to or affiliated with directors of the Company with interest rates ranging from 0% to 10% per annum, due and payable on the fifteenth day following delivery of written demand for payment \$ 85,176 \$ 85,176 Convertible secured note payable issued in October 2000 to a director of the Company bears interest at 11%, payable quarterly, is due on demand and convertible into common stock at the election of the holder at a rate of \$4.50 per share, the market 49 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS value of the Company's common stock on the date of approval by the Company's Board of Directors. The note is secured by substantially all of the Company's assets ... 500,000 500,000 Unsecured notes payable to a director of the Company accrue interest at 7% and 8.5% per annum, principal and interest due on demand and fifteen days from demand 79,795 79,795 ----- \$ 664,971 \$ 664,971 ===== Interest expense related to the demand notes payable to related parties for the years ended December 31, 2006, 2005 and 2004 amounted to \$67,753, \$67,753, and \$81,628. Included in accrued expenses at December 31, 2006 and 2005 was \$515,738 and \$447,986 of related accrued interest. There was no interest paid on the demand notes during the years ended December 31, 2006 and 2005. NOTE 5 - CAPITAL LEASE OBLIGATIONS The Company financed equipment purchases through various capital lease obligations expiring through August 2010. These obligations bear interest at various rates ranging from 4.6% to 15% per annum. Future minimum annual payments under these capital lease obligations are as follows: YEARS ENDING DECEMBER 31, Amount ----- 2007 \$ 505,029 2008 336,970 2009 184,606 2010 430 ----- Total payments 1,027,035 Less amount representing interest (119,574) ----- Balance at December 31, 2006 907,461 Less current portion 432,728 ----- Long-term portion \$ 474,733 ===== At December 31, 2006, total property and equipment under capital lease obligations and related accumulated depreciation was \$3,533,154 and \$1,178,469, respectively. At December 31, 2005, total property and equipment under capital lease obligations and related accumulated depreciation was \$3,468,721 and \$661,533, respectively. 50 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS NOTE 6 - NOTES PAYABLE Notes payable consist of the following: Year Ended December 31, ----- 2006 2005 ----- \$765,000 note payable to First National Bank dated June 3, 2004; interest at 6.5%; payable in eighty-four monthly payments of principal and interest of \$5,746 beginning July 2004; twenty-year amortization, all unpaid principal and interest due June 3, 2011 (seven years); secured by building in North Carolina \$ 712,950 \$ 734,787 \$880,000 note payable to First National Bank dated November 22, 2004; interest at 6.5%; payable in sixty monthly payments of principal and interest of \$17,254 beginning December 2004; all unpaid principal and interest due November 22, 2009; secured by manufacturing equipment 548,068 713,068 \$1,650,000 note payable to Hennigan, Bennett & Dorman, LLP dated May 31, 2006; interest at 3.0%; payable in fourteen monthly payments of principal and interest beginning June 2006, of \$50,000 for the first two payments, and \$133,333 for the next twelve months thereafter until July 1, 2007; secured by the note receivable 907,703 -- ----- Notes Payable..... 2,168,721 1,447,855 Less Current portion..... 1,107,207 186,837 ----- Notes payable, net of current portion \$ 1,061,514 \$ 1,261,018 ===== Future minimum annual payments under these notes payable obligations are as follows: YEARS ENDING DECEMBER 31, Amount ----- 2007 \$1,107,207 2008 213,030 2009 210,218 2010 28,301 2011 and thereafter 609,965 ----- Total \$2,168,721 ===== NOTE 7 - SECURED CONVERTIBLE PROMISSORY NOTES On November 10, 2004, the Company raised \$12.5 million from the sale of Secured Convertible Promissory Notes (the "Notes") to existing shareholders. The Notes are convertible into common stock at a price of \$3.65 per share, bear interest at 6% payable quarterly, are due November 9, 2007 and are secured by the TALON trademarks. The Notes are convertible at the option of the holder at any time after closing. The Company may repay the Notes at any time after one year from the closing date with a 15% prepayment penalty. At maturity, the Company may repay

the Notes in cash or require conversion if certain conditions are met. In connection with the issuance of the Notes, the Company issued to the Note holders, warrants to purchase up to 171,235 shares of common stock. The warrants have a term of five years, an exercise price of \$3.65 per share and vested 30 days after closing. The fair value of the warrants was estimated at 51 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS approximately \$96,000 utilizing the Black-Scholes model and recorded as a discount against the face value of the Notes. The discount is amortized over the three-year term of the Notes on a straight-line basis. The Company has registered the resale by the holders of the shares issuable upon conversion of the Notes and exercise of the warrants. In connection with this financing, the Company paid the placement agent \$704,000 in cash, and issued the placement agent a warrant to purchase 215,754 common shares at an exercise price of \$3.65 per share. The warrant is exercisable beginning May 10, 2005 through November 10, 2009. The fair value of the warrant was estimated at \$93,815 utilizing the Black-Scholes model and recorded as deferred financing costs which are amortized over the three- year term of the Notes. The full amount of principal under these secured convertible promissory notes is due November 7, 2007. (See Item 7. Management's Discussion and Analysis). NOTE 8 - STOCKHOLDERS' EQUITY AND CONVERTIBLE REDEEMABLE PREFERRED STOCK PREFERRED STOCK STOCKHOLDER'S RIGHTS PLAN In October 1998, the Company adopted a stockholder's rights plan. Under the rights plan the Company distributed one preferred share purchase right for each outstanding share of Common Stock outstanding on November 6, 1998. Upon the occurrence of certain triggering events related to an unsolicited takeover attempt of the Company, each purchase right not owned by the party or parties making the unsolicited takeover attempt will entitle its holder to purchase shares of the Company's Series A Preferred Stock at a value below the then market value of the Series A Preferred Stock. The rights of holders of the Common Stock will be subject to, and may be adversely affected by, the rights of holders of the share purchase rights, the Series A Preferred Stock and any other preferred stock that may be issued in the future. The issuance of preferred stock, while providing desirable flexibility in connection with possible acquisitions and other corporate purposes, could make it more difficult for a third party to acquire a majority of the Company's outstanding voting stock. SERIES D PREFERRED STOCK PRIVATE PLACEMENT TRANSACTION On December 18, 2003, the Company sold an aggregate of 572,818 shares of non-voting Series D Convertible Preferred Stock, at a price of \$44.00 per share, to institutional investors and individual accredited investors in a private placement transaction. The Company received net proceeds of \$23,083,693 after commissions and other offering expenses. The Series D Convertible Preferred Stock was convertible after approval at a special meeting of stockholders at a rate of 10 common shares for each share of Series D Convertible Preferred Stock. Except as required by law, the Series D Preferred shares had no voting rights. The Series D Preferred shares accrued dividends, commencing on June 1, 2004, at an annual rate of 5% of the initial stated value of \$44.00 per share, payable quarterly. In the event of a liquidation, dissolution or winding-up of the Company, the Series D Preferred shares would have been entitled to receive, prior to any distribution on the common stock, a distribution equal to the initial stated value of the shares plus all accrued and unpaid dividends. At a special meeting of stockholders held on February 11, 2004, the stockholders of the Company approved the issuance of 5,728,180 shares of common stock upon conversion of the Series D Preferred Stock. At the conclusion of the meeting, all of the shares of the Series D Convertible Preferred Stock automatically converted into common shares and the Series D Convertible Preferred Stock was eliminated. 52 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS The Company has registered the common shares issued upon conversion of the Series D Convertible Preferred Stock for resale by the investors. In conjunction with the private placement transaction the Company issued a warrant to purchase 572,818 common shares to the placement agent. The warrant is exercisable beginning June 18, 2004 through December 18, 2008. The fair value of the warrant was estimated at approximately \$165,000 utilizing the Black-Scholes model and was recorded as a reduction of the proceeds from the placement of the Series D Convertible Preferred Stock. The Company has determined that this transaction did not result in a beneficial conversion feature. SERIES C PREFERRED STOCK PURCHASE AGREEMENT AND CO-MARKETING AND SUPPLY AGREEMENT In accordance with the Series C Preferred Stock Purchase Agreement entered into with Coats North America Consolidated, Inc. ("Coats") on September 20, 2001, the Company issued 759,494 shares of Series C Convertible Redeemable Preferred Stock to Coats North America Consolidated, Inc. in exchange for an equity investment from Coats of \$3,000,001 cash. The Series C Preferred shares were convertible at the option of the holder after one year at the rate of the closing price multiplied by 125% of the ten-day average closing price prior to closing. The Series C Preferred shares were redeemable at the option of the holder after four years. If the holders elected to redeem the Series C Preferred shares,

the Company had the option to redeem for cash at the stated value of \$3,000,001 or in the form of the Company's common stock at 85% of the market price of the Company's common stock on the date of redemption. If the market price of the Company's common stock on the date of redemption was less than \$2.75 per share, the Company was required to redeem for cash at the stated value of the Series C Preferred shares. The Company could elect to redeem the Series C Preferred shares at any time for cash at the stated value. The terms of the Series C Preferred shares provided for cumulative dividends at a rate of 6% of the stated value per annum, payable in cash or the Company's common stock. The dividends were payable at the earlier of the declaration of the Board, conversion or redemption. Each Series C Preferred share had the right to vote for each of the Company's common shares that the Series C Preferred shares could then be converted into on the record date. Total legal and other costs associated with this transaction of \$105,000 were netted against the \$3,000,001 proceeds received from Coats. In connection with the Series C Preferred Stock Purchase Agreement, the Company also entered into a 10-year Co-Marketing and Supply Agreement with Coats. The Co-Marketing and Supply Agreement provides for selected introductions into Coats' customer base and the Company's trim packages will exclusively offer thread manufactured by Coats. On February 25, 2004, the holders of the Series C Preferred Stock converted all 759,494 shares of Series C Preferred Stock, plus \$458,707 of accrued dividends, into 700,144 shares of common stock. The Series C Preferred Stock was eliminated in March 2004. SERIES B PREFERRED STOCK PURCHASE AGREEMENT, DISTRIBUTION AGREEMENT AND TRADENAME PURCHASE AGREEMENT On April 3, 2000, the Company entered into a ten-year exclusive license and distribution agreement with Talon, Inc. and its parent company, Grupo Industrial Cierres Ideal, S.A. de C.V. ("GICISA"). Under this agreement, Tag-It Pacific, Inc. was the exclusive sales, marketing, distribution and e-commerce arm for "TALON" products for all customers in the United States, Mexico-based maquiladores, Canada and the Pacific Rim and had the exclusive license to market trim products under the "TALON" brand name. In exchange for these exclusive distribution rights, the Company issued 850,000 shares of Series B Convertible Preferred stock to GICISA. After a period of 30 months, the shares were convertible into the Company's common stock once the average price per share of the Company's common stock reached or exceeded \$8.00 for a 30-day consecutive period. The preferred stock was automatically convertible into shares of the Company's common stock based on a rate of one minus the fraction of \$2.50 over the average per share closing price of the Company's common stock for the 30-day period preceding the conversion. 53 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS The Series B Convertible Preferred stock had a liquidation preference of \$.001 per share, and was entitled to receive non-cumulative dividends on an as converted basis, if and when, such dividends were declared on the Company's common stock and was redeemable by the Company under certain conditions as outlined in the agreement. The estimated fair value of the Series B Convertible Preferred stock on April 3, 2000 was \$1,400,000. The Company recorded the value of the license and distribution rights as a long-term asset, which was being amortized over the ten-year period of the agreement. The unamortized balance of the long-term asset at December 21, 2001 was \$1,166,667. On September 30, 2000, the Company purchased inventory from GICISA in exchange for an unsecured note payable in the amount of \$2,830,024. The note payable was non-interest bearing and was due April 1, 2002. The Company imputed interest for the holding period of the note amounting to \$272,000. The note was subordinate to the obligations due under a credit facility with UPS Capital. The note payable balance at December 21, 2001 was \$2,767,182, net of imputed interest of \$62,842. On December 21, 2001, the Company entered into an Asset Purchase Agreement with Talon, Inc. and GICISA. Pursuant to the Asset Purchase Agreement, the Company acquired from Talon, Inc. and GICISA: (1) certain inventory and equipment, (2) all patent rights held by Talon, Inc. and (3) all of Talon's rights to its trade names and trademarks bearing the TALON name. In addition, the Asset Purchase Agreement terminated the exclusive 10-year license and distribution agreement, dated as of April 3, 2000 by and among the Company, GICISA and Talon, Inc. Under the Asset Purchase Agreement, the Company issued to Talon, Inc. 500,000 shares of common stock, par value \$0.001 per share, a promissory note in the amount of \$4,900,000 and \$100,000 in cash held in escrow. The Asset Purchase Agreement required Talon, Inc. to place 50,000 shares of the Company's common stock and \$100,000 in escrow for a period of 12 months to satisfy any indemnification claims the Company may have under the Asset Purchase Agreement. The common stock was valued at the market value of the Company's stock on the date of closing. The promissory note was unsecured, and accrued interest at prime plus 2%. In connection with the Asset Purchase Agreement, the Company also entered into a mutual release with Talon, Inc. and GICISA pursuant to which Talon, Inc. and GICISA released the Company from its obligations under the unsecured note payable of \$2,830,024 dated September 30, 2000 and other current liabilities under the Exclusive License and

Distribution Agreement. Further, 850,000 shares of the Company's series B convertible preferred stock held by GICISA were canceled at the closing of the Asset Purchase Agreement. The balance of the unsecured promissory note was \$1.4 million at December 31, 2004. The unsecured promissory note and all outstanding obligations due under the note payable were paid in full as of June 1, 2005. The Series B Convertible Preferred Stock was eliminated in February 2004. COMMON STOCK 2003 PRIVATE PLACEMENT On May 30, 2003, the Company raised approximately \$6,037,500 in a private placement transaction with five institutional investors. Pursuant to a securities purchase agreement with these institutional investors, the Company sold 1,725,000 shares of its common stock at a price per share of \$3.50. After commissions and expenses, the Company received net proceeds of approximately \$5.5 million. The Company has registered the shares issued in the private placement with the Securities and Exchange Commission for resale by the investors. In conjunction with the private placement transaction, the Company 54 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS issued warrants to purchase 172,500 shares of common stock to the placement agent. The warrants are exercisable beginning August 30, 2003 through May 30, 2008 and have a per share exercise price of \$5.06. STOCK GRANT AGREEMENT Pursuant to Stock Grant Agreements between the Company and Herman Roup, dated December 1, 2001, January 1, 2002 and July 17, 2002, the Company issued to Mr. Roup an aggregate 20,500 shares of common stock in 2004 for services provided to the Company valued at \$74,825. EXCLUSIVE LICENSE AND INTELLECTUAL PROPERTY RIGHTS AGREEMENT On April 2, 2002, the Company entered into an Exclusive License and Intellectual Property Rights Agreement (the "Agreement") with Pro-Fit Holdings Limited ("Pro-Fit"). The Agreement gives the Company the exclusive rights to sell or sublicense waistbands manufactured under patented technology developed by Pro-Fit for garments manufactured anywhere in the world for the United States market and all United States brands. In accordance with the Agreement, the Company issued 150,000 shares of its common stock which were recorded at the market value of the stock on the date of the Agreement. The shares contain restrictions related to the transfer of the shares and registration rights. The Agreement has an indefinite term that extends for the duration of the trade secrets licensed under the Agreement. The Company has recorded an intangible asset amounting to \$577,500 and is amortizing this asset on a straight-line basis over its estimated useful life of five years. The Company is currently in litigation with this supplier (See Notes 1 and 13). NOTE 9 - STOCK OPTION INCENTIVE PLAN AND WARRANTS STOCK OPTION INCENTIVE PLAN On October 1, 1997, the Company adopted the 1997 Stock Incentive Plan (the "1997 Plan"), which authorized the granting of a variety of stock-based incentive awards. The Board of Directors, who determines the recipients and terms of the awards granted, administers the 1997 Plan. On July 31, 2006 at the Company's annual meeting of stockholder's two amendments to the 1997 Stock Plan were approved which (1) increased the maximum number of shares of common stock that may be issued pursuant to awards granted under the 1997 Plan from 3,077,500 shares to 6,000,000 shares, and (2) increased the number of shares of common stock that may be issued pursuant to awards granted to any individual under the plan in a single year to 50% of the total number of shares available under the plan. The Company believes that such awards better align the interests of its employees with those of its shareholders. Option awards are generally granted with an exercise price equal to the market price of the Company's stock on the date of the grant for years prior to 2006, and for the year ended December 31, 2006, the average market price of the Company's stock for the five trading days prior to the date of the grant; those option awards generally vest over periods determined by the Board from immediate to 4 years of continuous service, and have 10 year contractual terms. As of December 31, 2006, the Company may issue awards to acquire up to a total of 2,321,977 shares of common stock under the 1997 Plan, and there were awards issued and outstanding under the Plan to acquire a total of 3,452,635 shares of common stock, including options issued to a consultant to acquire 75,000 shares of common stock at \$0.57 per share. During 2006 the Company issued options outside the Plan to employees to acquire 1,625,000 shares of stock at an average exercise price of \$0.46 per share, and granted 135,135 shares of stock to an employee with a fair market value of \$50,000. The following table summarizes all options issued to employees and directors including those issued outside the plan. 55 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS The following table summarizes the activity for the periods: Weighted Average Number Exercise Employee and Director of Shares Price -----

 warrants outstanding - December 31, 2006 ... 1,318,813 \$ 4.13 ===== The Company's
 determination of fair value of share-based payment awards to employees and directors on the date of grant uses the
 Black-Scholes model and the assumptions noted in the following table for the years ended December 31, as indicated.
 Expected volatilities are based on the historical volatility of the Company's stock price and other factors. These
 variables include, but are not limited to, the expected stock price volatility over the expected term of the awards, and
 actual and projected 56 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 employee stock option exercise behaviors. The expected option term is estimated using the "safe harbor" provisions
 under SAB 107. The risk free rate for periods within the contractual life of the option is based on the U.S. Treasury
 yield in effect at the time of the grant. 2006 2005 2004(1) ----- Expected volatility 65%
 64% n/a Expected term in years 6.1 yrs 1.2 yrs n/a Expected dividends -- -- n/a Risk-free rate
 4.5% 2.0% n/a (1) No share-based grants were made in 2004. A summary of the option activity under
 the 1997 Plan as of December 31, 2006, and changes during the year then ended is as follows: Weighted Weighted
 Average Average Remaining Number of Exercise Contractual Intrinsic Employee and Director Shares Price Life
 (Years) Value ----- Outstanding at December 31,
 2006 5,002,635 \$ 1.41 7.90 \$1,875,639 Vested and Expected to Vest 4,927,355 \$ 1.43 7.88 \$1,837,150
 Exercisable 2,223,968 \$ 2.51 6.25 \$ 447,389 The weighted average grant-date fair value of options
 granted to employee's and director's during the years ended December 31, 2006 and 2005 were \$0.31 and \$0.76,
 respectively. There were no grants in 2004. The total intrinsic value of options exercised during the years ended
 December 31, 2005 and 2004 was \$1,700, and \$130,000, respectively. There were no options exercised in 2006.
 Weighted Weighted Average Average Remaining Number of Exercise Contractual Intrinsic NON-EMPLOYEE

 Vest 1,318,813 \$ 4.13 2.28 \$ 34,500 Exercisable 1,318,813 \$ 4.13 2.28 \$ 34,500 57
 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS The weighted average
 grant-date fair value of options and warrants granted to non-employees during the years ended December 31, 2006,
 and 2004 was \$0.57 and \$3.70, respectively. There were no grants in 2005. The total intrinsic value of options and
 warrants exercised during the years ended December 31, 2005 and 2004 was \$91,000 and \$135,000, respectively.
 There were no options exercised in 2006. The fair value of the awards approximates the values expensed for
 pro-forma purposes for these periods. As of December 31, 2006, there was \$645,248 of total unrecognized
 compensation costs related to non-vested share-based compensation arrangements granted, including warrants. This
 cost is expected to be recognized over the weighted-average period of 2.0 years. The total fair value of shares vested
 during the years ended December 31, 2006, 2005 and 2004 was \$236,000, \$217,000 and \$1,597,000, respectively.
 When options are exercised, the Company's policy is to issue previously registered, unissued shares of common stock.
 As of December 31, 2006, the Company had 2,321,977 unissued shares of common stock available in its 1997 Plan.
 On July 31, 2006, at the annual shareholders meeting an amendment to the 1997 Stock Incentive Plan was adopted to
 increase the number of authorized shares under the 1997 Plan to a total of 6,000,000 shares. The additional plan shares

Edgar Filing: ENDO HEALTH SOLUTIONS INC. - Form CT ORDER

authorized on July 31, 2006 of 2,922,500 shares have not yet been registered. NOTE 10 - INCOME (LOSS) PER SHARE The following is a reconciliation of the numerators and denominators of the basic and diluted income (loss) per share computations: December 31, 2006 December 31, 2005 -----

===== Warrants to purchase 1,243,813 shares of common stock at between \$3.50 and \$5.06; options to purchase 1,642,500 shares of common stock at between \$1.27 and \$5.23; convertible debt of \$12,500,000 convertible at \$3.65 per share, and other convertible debt of \$500,000 convertible at \$4.50 per share were outstanding for the year ended December 31, 2006, but were not included in the computation of diluted loss per share because the effect of exercise or conversion would have an antidilutive effect on the income per share. Warrants to purchase 1,377,147 shares of common stock at between \$3.50 and \$5.06, options to purchase 1,833,000 shares of common stock at between \$0.41 and \$5.23, convertible debt of \$12,500,000 convertible at \$3.65 per share, and other convertible debt of \$500,000 convertible at \$4.50 per share were outstanding for the year ended December 31, 2005, but were not included in the computation of diluted loss per share because the effect of exercise or conversion would have an antidilutive effect on loss per share. 58 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Warrants to purchase 1,578,973 shares of common stock at between \$3.50 and \$5.06, options to purchase 1,742,000 shares of common stock at between \$1.30 and \$4.63, convertible debt of \$12,500,000 convertible at \$3.65 per share, and other convertible debt of \$500,000 convertible at \$4.50 per share were outstanding for the year ended December 31, 2004, but were not included in the computation of diluted loss per share because the effect of exercise or conversion would have an antidilutive effect on loss per share. NOTE 11 - 2005 RESTRUCTURING PLAN In an effort to better align the Company's organizational and cost structures with its future growth opportunities, in August 2005 the Company's Board of Directors adopted a restructuring plan for the Company that was substantially completed by December 2005. The plan included restructuring the Company's global operations by eliminating redundancies in its Hong Kong operation, closing its Mexican facilities, converting its Guatemala facility from a manufacturing site to a distributor, and closing its North Carolina manufacturing facility. The Company also refocused its sales efforts on higher margin products, which may have resulted in lower net sales with certain customers. As a result, the Company now operates with fewer employees and reduced associated operating and manufacturing expenses. The Company recorded charges in connection with its restructuring plan in accordance with SFAS No. 146 (As Amended), "Accounting for Costs Associated with Exit or Disposal Activities." In addition, the Company's restructuring plan resulted in the carrying value of certain long-lived assets, primarily equipment, being impaired. Accordingly, in 2005 the Company recorded a charge to recognize the impairment of these assets in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets. The North Carolina manufacturing facility is a long-lived asset that is classified as "held for sale" because it meets the criteria listed in Paragraph 30 of SFAS 144. Management has committed to sell the asset, and is listing the property for sale with a commercial real estate agent. The Company believes the sale of the asset is probable and the sale is expected to be completed within one year. The major components of manufacturing equipment used in this plant to manufacture zippers are not classified as held for sale since the Company intends to re-deploy this equipment in the manufacture of TALON zippers through investment or sale of this equipment to its distributors of TALON zippers. This equipment is separately identified as idle equipment as a component of "Property and equipment" which are included in the accompanying consolidated balance sheets (See Note 1). Restructuring costs recorded in 2005 were \$6,371,000. Restructuring costs include \$3,447,000 of inventory write-downs, restructuring charges of \$2,474,000 consisting of \$2,036,000 for the impairment of long-lived assets, primarily

machinery and equipment, \$170,000 of one-time employee termination benefits and other costs of \$268,000, which were fully paid by the end of 2005. In addition, an impairment charge to goodwill in the amount of \$450,000 was recorded. This goodwill was associated with an acquisition made to benefit the Central and South American operations. Since these operations are being exited, management concluded that this goodwill was impaired and should be written off. These restructuring costs were recorded in the Consolidated Statement of Operations for the year ended December 31, 2005 in the following line items and amounts: Cost of goods sold \$3,447,000 Operating expenses: General & administrative expenses 450,000 Restructuring charges 2,474,000 ----- Total restructuring costs \$6,371,000 ===== 59

PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS The primary components of temporary differences which give rise to the Company's deferred tax assets and deferred tax liabilities are as follows: Year Ended December 31, ----- 2006 2005 -----
 ----- Net deferred tax asset: Net operating loss carry-forwards \$ 19,053,346 \$ 20,820,849 Depreciation and amortization (551,643) (442,909) Bad debt reserve 17,961 403,494 Related party interest 189,605 160,996 Inventory reserve 289,813 448,674 Other 225,656 56,343 ----- ----- 19,224,738
 21,447,447 Less: Valuation Allowance (19,224,738) (21,447,447) ----- ----- \$ -- \$ --

===== At December 31, 2006, Tag-It Pacific, Inc. had Federal and state net operating loss carry-forwards (or "NOLs") of approximately \$53.6 million and \$13.9 million, respectively. The Federal NOL is available to offset future taxable income through 2024, and the state NOL expires in 2014. Section 382 of the Internal Revenue Code places a limitation on the realizability of net operating losses in future periods if the ownership of the Company has changed more than 50% within a three-year period. As of December 31, 2006, some of our net operating losses may be limited by the Section 382 rules. The amount of such limitations, if any, has not yet been determined. Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and tax benefit carry-forwards. Deferred tax liabilities and assets at the end of each period are determined using enacted tax rates. The Company records deferred tax assets arising from temporary timing differences between recorded net income and taxable net income when and if it believes that future earnings will be sufficient to realize the tax benefit. For those jurisdictions where the expiration date of tax benefit carry-forwards or the projected taxable earnings indicate that realization is not likely, a valuation allowance is provided. The provisions of SFAS No. 109, "Accounting for Income Taxes," require the establishment of a valuation allowance when, based on currently available information and other factors, it is more likely than not that all or a portion of a deferred tax asset will not be realized. SFAS No. 109 provides that an important factor in determining whether a deferred tax asset will be realized is whether there has been sufficient income in recent years and whether sufficient income is expected in future years in order to utilize the deferred tax asset. In 2006 and in prior years, the Company determined, based upon its cumulative operating losses, that it was more likely than not that it would not be in a position to fully realize all of its deferred tax assets in future years. Accordingly, at December 31,

2006 the Company has recorded a valuation allowance of \$19.2 million, which reduces the carrying value of its net deferred tax assets to \$0. For the year ended December 31, 2006 the Company recorded operating income and various rate and tax timing differences and the value of its net deferred tax assets declined by \$2.2 million. Accordingly, a corresponding reduction in the valuation allowance was made, which retained the carrying value of the Company's net deferred tax assets at \$0. During 2005 the Company incurred additional operating losses which resulted in an increase in the Company's net deferred tax assets by \$11.5 million. Accordingly, it was determined that the valuation allowance from 2004 be increased by \$12.5 million to \$21.4 million, which reduced the carrying value of its net deferred tax assets to \$0 at December 31, 2005. In 2004 the Company recorded a valuation allowance of 61 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS \$8.9 million based upon its cumulative operating losses, and reduced the carrying value of its net deferred tax asset to \$1.0 million at December 31, 2004. The Company intends to maintain a valuation allowance for its deferred tax assets until sufficient evidence exists to support the reversal or reduction of the allowance. At the end of each period, the Company will review supporting evidence, including the performance against sales and income projections, to determine if a release of the valuation allowance is warranted. If in future periods it is determined that it is more likely than not that the Company will be able to recognize all or a greater portion of its deferred tax assets, the Company will at that time reverse or reduce the valuation allowance. The Company believes that its estimate of deferred tax assets and determination to record a valuation allowance against such assets are critical accounting estimates because they are subject to, among other things, an estimate of future taxable income, which is susceptible to change and dependent upon events that may or may not occur, and because the impact of recording a valuation allowance may be material to the assets reported on its balance sheet and results of operations. The Company has not provided withholding of U.S. federal income taxes on undistributed earnings of its foreign subsidiaries because the Company intends to reinvest those earnings indefinitely or any taxes on these earnings will be offset by the approximate credits for foreign taxes paid. It is not practical to determine the U.S. federal tax liability, if any, which would be payable if such earnings were not invested indefinitely.

NOTE 13 - COMMITMENTS AND CONTINGENCIES OPERATING LEASES The Company is a party to a number of non-cancelable operating lease agreements involving buildings and equipment, which expire at various dates through 2010. The Company accounts for its leases in accordance with SFAS No. 13, whereby step provisions, escalation clauses, tenant improvement allowances, increases based on an existing index or rate, and other lease concessions are accounted for in the minimum lease payments and are charged to the income statement on a straight-line basis over the related lease term. The future minimum lease commitments at December 31, 2006 are as follows:

Years Ending December 31, Amount -----	2007
..... \$ 437,226 2008	407,224 2009
..... 346,184 2010	213,364 2011 and thereafter
..... 16,757 ----- Total minimum payments	\$1,420,755 ===== Total

rental expense for the years ended December 31, 2006, 2005 and 2004 aggregated \$640,864, \$750,536, and \$696,590, respectively. PROFIT SHARING PLAN In October 1999, the Company established a 401(k) profit-sharing plan for the benefit of eligible employees. The Company may make annual contributions to the plan as determined by the Board of Directors. Total contributions for the years ended December 31, 2006 and 2005 amounted to \$22,276 and \$16,807, respectively. There were no contributions made during the year ended December 31, 2004. 62 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS CONTINGENCIES In May, 2006, the Company received notice from the American Stock Exchange ("AMEX") that it was not in compliance with certain of the continued listing standards as set forth in the AMEX Company Guide due to the failure to comply with Section 1003(a)(i) and Section 1003(a)(ii) of the Company Guide, which effectively required that the Company maintain shareholders' equity of at least \$4,000,000. Following the notice from AMEX the Company was afforded the opportunity to submit a "plan of compliance" to AMEX outlining in detail how the Company expected to achieve the minimum equity requirements and to regain compliance. On August 3, 2006 the Company received notification from AMEX that the Company's plan to regain compliance with the minimum shareholders' equity requirements of the AMEX Company Guide had been accepted and the Company has been granted an extension until November 16, 2007 to achieve the AMEX continued listing requirements. During this period the Company will be subject to periodic review by the AMEX Staff and failure to make progress consistent with the plan or to regain compliance with continued listing standards by the end of the extension period could result in being delisted from the American Stock Exchange. On October 12, 2005, a shareholder class action complaint-- HUBERMAN V. TAG-IT PACIFIC, INC.,

ET AL., Case No. CV05-7352 R(Ex)--was filed against us and certain of our current and former officers and directors in the United States District Court for the Central District of California alleging claims under Section 10(b) and Section 20 of the Securities Exchange Act of 1934, as amended, and Rule 10b-5 promulgated thereunder. The action is brought on behalf of all purchasers of our publicly-traded securities during the period from November 14, 2003 to August 12, 2005. On January 23, 2006 the court heard competing motions for appointment of lead plaintiff/counsel and appointed Seth Huberman as lead plaintiff. The lead plaintiff thereafter filed an amended complaint on March 13, 2006. The amended complaint alleges that defendants made false and misleading statements about the company's financial situation and its relationship with certain of its large customers during a purported class period between November 13, 2003 and August 12, 2005. It purports to state claims under Section 10(b)/Rule 10b-5 and Section 20(a) of the Securities Exchange Act of 1934. The Company filed a motion to dismiss the amended complaint, which motion was denied by the court on July 17, 2006. On December 21, 2006 the court established a trial date of May 1, 2007 and ordered completion of discovery by March 19, 2007. On February 20, 2007 the court denied class certification. Plaintiff has moved the court to reconsider the ruling, and also to intervene a new plaintiff to pursue class certification. Both of those motions were denied on April 2, 2007. In addition, the same day, the Court granted Defendants' motion for summary judgment, and it is anticipated that the Court will enter a judgment in favor of all Defendants shortly. It is possible that Plaintiff will appeal the summary judgment and class certification rulings. The Company believes that this matter will be resolved in trial or in settlement within the limits of its insurance coverage, however the outcomes of this action or an estimate of the potential losses, if any, related to the lawsuit cannot be reasonably predicted, and an adverse resolution of any of the lawsuit could potentially have a material adverse effect on our financial position and results of operations. On April 16, 2004 the Company filed suit against Pro-Fit Holdings, Limited ("Pro-Fit") in the U.S. District Court for the Central District of California -- TAG-IT PACIFIC, INC. V. PRO-FIT HOLDINGS, LIMITED, CV 04-2694 LGB (RCx) -- asserting various contractual and tort claims relating to our exclusive license and intellectual property agreement with Pro-Fit, seeking declaratory relief, injunctive relief and damages. It is the Company's position that the agreement with Pro-Fit gives us the exclusive rights in certain geographic areas to Pro-Fit's stretch and rigid waistband technology. On September 17, 2004, Pro-Fit filed an answer denying the material allegations of the complaint and filed counterclaims alleging various contractual and tort claims seeking injunctive relief and damages. We filed a reply denying the material allegations of Pro-Fit's pleading. Pro-Fit has since purported to terminate the exclusive license and intellectual property agreement based on the same alleged breaches of the agreement that are the subject of the parties' existing litigation, as well as on an additional basis. On February 9, 2005, and again on June 16, 2005, we amended our pleadings in the litigation to assert additional breaches by Pro-Fit of its obligations under the agreement and under certain additional letter agreements, and for a declaratory judgment that Pro-Fit's patent No. 5,987,721 is invalid and not 63 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS infringed by us. Thereafter, Pro-Fit filed an amended answer and counterclaims denying the material allegations of the amended complaint and alleging various contractual and tort claims seeking injunctive relief and damages. Pro-Fit further asserted that we infringed its United States Patent Nos. 5,987,721 and 6,566,285. We filed a reply denying the substantive allegations of the amended counterclaims. On June 5, 2006 the Court denied the Company's motion for partial summary judgment holding that summary adjudication that we did not breach our agreement with Pro-Fit by engaging in certain activities in Columbia was not appropriate. The Court also held that Pro-Fit was not "unwilling or unable" to fulfill orders by refusing to fill orders with goods produced in the United States. The Court did not find that we breached our agreement with Pro-Fit and a trial is required to determine issues concerning our activities in Columbia and whether other actions by Pro-Fit constituted an unwillingness or inability to fill orders. As a result of a change in the law, we dismissed our antitrust claims against Pro-Fit. The court has not yet set a date for trial of this matter. We derive a significant amount of revenue from the sale of products incorporating the stretch waistband technology our business, results of operations and financial condition could be materially adversely affected if the dispute with Pro-Fit is not resolved in a manner favorable to us. Additionally, we have incurred significant legal fees in this litigation, and unless the case is settled, we will continue to incur additional legal fees in increasing amounts as the case accelerates to trial. Tag-It Pacific, Inc. has agreements with its foreign subsidiaries that provide for royalty payments to the U.S. parent company for the sales of products carrying the TALON(R) brand name, and that also provide for a cost sharing arrangement associated with various corporate administrative and operations support costs. These agreements may give rise to inquiries and possible disputes by the foreign taxing authority, resulting in the possible disallowance of some of these costs and potentially

resulting in higher foreign income taxes than has been provided. The Company believes that its basis of charging these royalties and its allocation of costs to foreign subsidiaries is appropriate under the various taxing agency laws, and that any disagreement or disallowance regarding such costs will not have a material affect on the financial statements of the Company. A subsidiary, Tag-It de Mexico, S.A. de C.V., has operated under the Mexican government's Maquiladora Program, which entitles Tag-It de Mexico to certain favorable treatment as respects taxes and duties regarding certain imports. In July of 2005, the Mexican Federal Tax Authority asserted a claim against Tag-It de Mexico alleging that certain taxes had not been paid on imported products during the years 2000, 2001, 2002 and 2003. In October of 2005, the Company filed a procedural opposition to the claim and submitted documents to the Mexican Tax Authority in opposition to this claim, supporting the Company's position that the claim was without merit. The Mexican Federal Tax Authority failed to respond to the opposition filed, and the required response period by the Tax Authority has lapsed. In addition, a controlled entity incorporated in Mexico (Logistica en Avios, S.A. de C.V.) through which the Company conducted its operations in 2005, may be subjected to a claim or claims from the Mexican Tax Authority, as identified directly above, and additionally to other tax issues, including those arising from employment taxes. The Company believes that any such claim is defective on both procedural and documentary grounds and does not believe there will be a material adverse affect on us. We currently have pending a number of other claims, suits and complaints that arise in the ordinary course of our business. We believe that we have meritorious defenses to these claims and that the claims are either covered by insurance or, after taking into account the insurance in place, would not have a material effect on our consolidated financial condition if adversely determined against us. In November 2002, the FASB issued FIN No. 45 "Guarantor's Accounting and Disclosure Requirements for Guarantees, including Indirect Guarantees of Indebtedness of Others - and interpretation of FASB Statements No. 5, 57 and 107 and rescission of FIN 34." The following is a summary of the Company's agreements that it has determined are within the scope of FIN 45: In accordance with the bylaws of the Company, officers and directors are indemnified for certain events or occurrences arising as a result of the officer or director's serving in such capacity. The term of the indemnification period is for the lifetime of the officer or director. The maximum potential amount of 64 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS future payments the Company could be required to make under the indemnification provisions of its bylaws is unlimited. However, the Company has a director and officer liability insurance policy that reduces its exposure and enables it to recover a portion of any future amounts paid. As a result of its insurance policy coverage, the Company believes the estimated fair value of the indemnification provisions of its bylaws is minimal and therefore, the Company has not recorded any related liabilities. The Company enters into indemnification provisions under its agreements with investors and its agreements with other parties in the normal course of business, typically with suppliers, customers and landlords. Under these provisions, the Company generally indemnifies and holds harmless the indemnified party for losses suffered or incurred by the indemnified party as a result of the Company's activities or, in some cases, as a result of the indemnified party's activities under the agreement. These indemnification provisions often include indemnifications relating to representations made by the Company with regard to intellectual property rights. These indemnification provisions generally survive termination of the underlying agreement. The maximum potential amount of future payments the Company could be required to make under these indemnification provisions is unlimited. The Company has not incurred material costs to defend lawsuits or settle claims related to these indemnification agreements. As a result, the Company believes the estimated fair value of these agreements is minimal. Accordingly, the Company has not recorded any related liabilities. NOTE 14 - GEOGRAPHIC INFORMATION The Company specializes in the distribution of a full range of trim items to manufacturers of fashion apparel, specialty retailers and mass merchandisers. There is not enough difference between the types of products developed and distributed by the Company to account for these products separately or to justify segmented reporting by product type. The Company distributes its products internationally and has reporting requirements based on geographic regions. Long-lived assets are attributed to countries based on the location of the assets and revenues are attributed to countries based on customer delivery locations, as follows: Year Ended December 31,

	2006	2005	2004		2006	2005	2004

===== NOTE 15 - MAJOR CUSTOMERS AND VENDORS For the year ended December 31, 2006, no single customer represented more than 9% of the Company's consolidated net sales; however the Company's three largest customers represented approximately 18% of consolidated net sales. For the year ended December 31, 2005, no single customer represented more than 10% of consolidated net sales; however, the Company's three largest customers 65 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS represented approximately 22% of consolidated net sales. Two major customers accounted for approximately 22% of the Company's net sales for the year ended December 31, 2004. One major vendor accounted for substantially all of the Company's purchases associated with its TekFit product for the year ended December 31, 2006 and represented 24% of the Company's overall purchases; and three vendors, each representing more than 10% of the Company's purchases, accounted for approximately 45% of the Company's purchases for the year ended December 31, 2006. Three vendors accounted for approximately 39% of the Company's purchases for the year ended December 31, 2005, and four vendors accounted for approximately 70% of the Company's purchases for the year ended December 31, 2004. Included in accounts payable and accrued expenses at December 31, 2006 and 2005 is \$2,682,000 and \$2,206,000 due to these vendors. Terms are sight to 60 days. NOTE 16 - RELATED PARTY TRANSACTIONS Prior to 2004 the Company operated an apparel trim supply agreement with Tarrant Apparel Group. Two of Tarrant's directors and significant shareholders are also significant shareholders of the Company. In 2004, following negotiations with Tarrant Apparel Group, the Company determined that a significant portion of the obligations due from this customer were uncollectible. Accordingly, included in general and administrative expenses for 2004 are charges of \$4.3 million related primarily to the write-down of this receivable and leaving a remaining balance receivable from this customer of \$4.5 million at December 31, 2004. An affiliate of the customer repaid the \$4.5 million receivable balance over the period from May through December 2005. The Company terminated its supply relationship with Tarrant in 2004; however the Company continues to conduct business with Tarrant on a limited basis. Total sales to Tarrant for the years ended December 31, 2006, 2005 and 2004 were \$3,000, \$574,000 and \$758,000, respectively. As of December 31, 2005, accounts receivable, related party included \$0.05 million due from Tarrant. No amounts were due from Tarrant at December 31, 2006. Colin Dyne, a director of the Company is a significant shareholder in People's Liberation, Inc., the parent company of Versatile Entertainment, Inc. During 2006 and 2005 the Company had sales of \$147,000 and \$ 76,000 respectively, to Versatile Entertainment. At December 31, 2006 accounts receivable of \$83,400 were outstanding from Versatile Entertainment. Due from related parties at December 31, 2006 and 2005 includes \$675,137 and \$655,489 respectively, of unsecured notes, advances and accrued interest receivable from Colin Dyne,. The notes and advances bear interest at 7.5% and are due on demand. Demand notes payable to related parties includes notes and advances to Mark Dyne, the Chairman of the Board of Directors of the Company or to parties related to or affiliated with Mark Dyne. The balance of Demand notes payable to related parties at December 31, 2006 and 2005 was \$664,971. See Note 4 for further discussion of these notes, and related accrued interest and interest expense. Transportation fees in the amount of \$211,000 were paid to or on behalf of a company that Mark Dyne has an ownership interest in for the year ended December 31, 2004. Consulting fees paid to Diversified Investments, a company owned by Mark Dyne, amounted to \$150,000 for each of the years ended December 31, 2006, 2005 and 2004. Consulting fees of \$335,000 were paid for services provided by Colin Dyne, for the year ended December 31, 2006. Brent Cohen and Raymond Musci, both members of the Board of Directors were paid for services provided during the year ended December 31, 2005 in the amount of \$24,000, and \$21,000, respectively. Mr. Cohen and Kevin Bermiester, a former director of the Company, were paid for services provided during the year ended December 31, 2004 in the amounts of \$57,000 and \$41,000, respectively. 66 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS NOTE 17 - QUARTERLY RESULTS

(UNAUDITED) Quarterly results for the years ended December 31, 2006 and 2005 are reflected below: 4TH 3RD 2ND 1ST ----- 2006 Revenue

.....	\$ 10,573,755	\$ 13,366,944	\$ 14,246,087	\$ 10,638,216	Operating income (loss)

(5,127,754) \$(10,284,874) \$(12,476,638) \$ (1,648,443) Basic and diluted (loss) per share \$ (0.28) \$ (0.56) \$ (0.68) \$ (0.09) ----- (1) The Company

recorded restructuring charges of \$6.2 million in the third quarter of 2005 (Note 11). (2) During 2005, the Company recorded net increases of \$3.7 million to reserves for accounts receivable and inventories, and a decrease in net deferred tax asset resulting in a charge to the provision for income taxes of \$1 million during 2005. Quarterly and year-to-date computations of per share amounts are made independently. Therefore, the sum of per share amounts for the quarters may not agree with the per share amounts for the year. NOTE 18 - SUBSEQUENT EVENT (UNAUDITED) On April 11, 2007 a favorable verdict was awarded to the plaintiff in a trademark infringement lawsuit in which Azteca Production International, Inc. is a defendant. We have an outstanding note receivable from Azteca (see Note 2), and this adverse ruling against them may impact their ability to repay our note receivable. The outcome of this event or an estimate of the potential impact if any, on the collectibility of our note receivable cannot be reasonably predicted at this time. The failure to collect payments under this note as scheduled could have a material adverse effect on our financial position and results of operations. 67 TAG-IT PACIFIC, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE None ITEM 9A. CONTROLS AND PROCEDURES EVALUATION OF CONTROLS AND PROCEDURES We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended, or the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities Exchange Commission's rules and forms, including to ensure that information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Disclosure controls and procedures, no matter how well designed and operated, can provide only reasonable, rather than absolute, assurance of achieving the desired control objectives. As of December 31, 2006, we conducted an evaluation, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that as of December 31, 2006, our disclosure controls and procedures were effective at a reasonable assurance level. During the last fiscal quarter, there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. ITEM 9B. OTHER INFORMATION None. 68 PART III ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE Information required by this Item 10 will appear in the proxy statement for the 2007 Annual Meeting of Stockholders, and is incorporated herein by reference.
